Predicts Votes for Women in Virginia.

Richmond, Va., Oct. 23.—Votes for women in ten years, a prediction Governor William Hodges Mann, of the Dominion Commonwealth, made at the annual convention of the Atlantic Seaper Waterways Association's sessions last week. Governor Mann declared that he was by no means committed to the belief that such a condition would be expedient. "Evolution of the Democratic form of government leads irresistibly to this logical result," he said, "and however distasteful it may be to some of us we might as well face it and prepare for its coming. "The theory involved in the right of women to the exercise of the ballot is just a theory, but the difference between theory and practice, especially in politics, is great." If you have young children you have perhaps noticed that disorders of the stomach are their most common ailment. To correct this you will find Chamberlain's Stomach and Liver Tablets excellent. They are easy and pleasant to take, and mild and gentle in their effect. For sale by all dealers.

Three Years in the Pen.

The case of the Commonwealth against Nip Hoskins, colored, charged with robbing J. A. Clark, of Marion, Va., on August 3rd, was tried in the Circuit court last Tuesday and the prisoner was given three years in the penitentiary. On August 3rd the Norfolk and Western Railway ran an excursion from Bristol to Roanoke. Returning Mr. Clark thought he had reached Marion and got off the train. After the train pulled out he found out his mistake and some negro boys took him in charge to show him a place where he could spend the night. He was robbed and Hoskins and another negro boy were charged with the crime. The other one will be tried at this term of the court. —Wynneville Enterprise.

Minister Held for Girl's Death.

Boston, October 23.—Clarence Vir-Thompson Richeson, an ordained clergyman of the Baptist denomination, 35 years old, and pastor of Immanuel Baptist Church, of Cambridge, was locked in a cell at the Charles Street jail and will remain there until October 31, when he will be given a hearing in the Municipal Court upon the charge of murdering Miss Avis Linnell, of Hyannis, a former sweetheart, in order to wed an heiress.

This State has had some mysterious murders, the details of which have been shocking to the communities where they occurred, but never before within the memory of the oldest police officer has there been a more dastardly crime than the one this clergyman is accused of having committed.

In effect, Richeson is charged with furnishing a 19 year old girl, to whom he is said to have been engaged to be married, and who, in the course of six months' period would have become a mother, with cyanide of potassium, and the inference is that he told her that by taking the deadly drug she would bring about a desired change in her physical condition, when in reality he furnished the cyanide, deceived the girl as to the nature of its effect for the express purpose of causing her death so that no entanglement might exist which could possibly prevent his marriage to Miss Violet Edmonds of Brookline, whose father is a millionaire.

PRINCIPALS IN THE CASE

The Accused Minister—Rev. O. V. T. Richeson, pastor of Immanuel Baptist Church, Cambridge, Mass. He is a native of Rose Hill, Amherst Co., Va., and studied at Amherst High School; was graduated from the Newton Baptist Theological Seminary and is 35 years old. Held pastorates in St. Louis, Mo.; Louisville, Ky., and Hyannis, Mass.

The Dead Girl—Miss Avis Linnell, aged nineteen years, of Hyannis, Mass., who was said to be engaged to the minister. She expired suddenly after taking cyanide of potassium, thinking the drug was a headache potion. She died the day of the announcement of Rev. Richeson's engagement to another woman and was buried in her wedding gown.

The Pastor's Fiance—Miss Violet Edmonds, of Brookline, Mass., an heiress to an estate of \$800,000.00. The home of Miss Edmonds has secluded the Rev. Richeson since the death of Miss Linnell. He was arrested there. The couple had set Oct. 31st as their wedding day, and seven hundred invitation had been sent out.

Emory News Notes.

Emory, Va., Oct. 21.—Prof. John Brown left yesterday for Stamford, Texas, for a final conference with "Wiley Cupid." Prof. Brown's friends anxiously await his return early next week with "results."

Mr. and Mrs. Ira Kiker, of Goree, Texas, formerly of this place, are here. Mr. Kiker is a graduate of Stamford College and has been engaged in pastoral work in Texas. He enters the Junior Class at Emory and Henry this year.

This community has been having considerable rain during the past few weeks. Pastures are good, cattle are fat and farmers are happy.

Dr. McGhee of the Department of Chemistry of Emory and Henry College reports the best work yet experienced in this department. The new equipment and other improvements is conducive to much inspiration on the part of the students.

Mrs. A. C. Williams, of Martinsville, Va., is here to make her future home with her son, Prof. Williams, of the Modern Language department.

Rev. G. M. Moreland, of Athens, W. Va., visited his son, a student in this college, recently. Rev. Moreland was in route to Etowah, Tenn., his new appointment from the recent conference.

The Rev. S. B. Vaught, financial agent of Emory and Henry College, was on the campus yesterday planning for the new college building. The Rev. Mr. Vaught reports every prospect good toward the forwarding of this proposed new work.

Drs. Miller and McConnell, with their families, spent an enjoyable Sunday on the White Top this week beholding the scenery and finding chestnuts.

Mr. A. L. Hutton, a prominent farmer of Sugar Grove, in Rye Valley, was visiting friends and relatives on the campus and in Greenfield community, this week.

President and Mrs. Weaver were prettily entertained at dinner by a company of young ladies of Sullins College Friday of last week.

"Uncle Ben" Campbell has his new building completed and the upstairs portion rented out to college boys for rooming purposes.

Ex-Sheriff Williams, of Alexander county, N. C., was here Friday looking after real estate investments. Mr. Williams has a family to educate and is desirous of securing a home contiguous to Emory and Henry College.

Dr. H. M. Brooks went to Wyndale last week on a professional visit.

It will be of historical interest to know that the first meeting out of which resulted the founding of Emory and Henry College was held in the old Glade Spring Presbyterian church and that the first \$5,000 was subscribed by Presbyterians. This college has always received liberal patronage from both Presbyterians and Baptists. These denominations have received the greatest courtesy at the hands of the Methodist brethren.

Talks About the Outlook for 1912.

Bristol, Va., Oct. 23.—Congressman C. Cascom Slemp, of the Ninth Virginia district, arrived here last Thursday evening from Eastern Kentucky, where he spent much of the time since the adjournment of Congress looking after his property interests. He is interested in a large way in the rich, undeveloped coal properties of that region.

The Congressman was cheerful and looked the picture of health. He remarked that his outing had done him good, and that he was feeling unusually good.

When asked about the political outlook in Southwest Virginia, in view of the election to be held in November, he said:

"I have had occasion to look into the political situation in the counties of Lee, Wise and Scott. I feel confident that the Republicans will win in those counties. They are lined up and in good shape for the conflict, although, of course, there is not the interest in either party in this election that there usually is when the election involves National as well as State positions. Candidate John Oatton, who is making the race for the Senate, will, I am sure, win easily, and I look for his majority to be unprecedentedly large. Both parties have put up good, clean men, and the voters are to be congratulated upon this fact."

Asked as to the National outlook, in view of the many disturbing questions now before the American people, Mr. Slemp, said: "I anticipate that the National situation will be controlled largely by the course of the two leading parties with reference to the tariff at the coming session. Reciprocity having been defeated by the Canadians themselves, that feature is, of course, eliminated, certainly for many years to come."

"The parties will line up on the tariff for protection to American factories and American laborers, and the Democrats standing for a tariff for revenue only. "If Congress should endorse the report of the Tariff Commission and enact legislation in accordance therewith, in my judgment the tariff would be eliminated, so far as the next campaign is concerned. The fight will then be between the conservatives of both parties, who want business to be resumed and go on in a normal way, and the radical elements, who want to keep up a disturbance for disturbance's sake."

"If the conservatives," he stated, when asked about the probable Presidential nominees, "are successful, Taft and Harmon will be the opposing nominees for the Presidency, but if the radicals predominate, the opposing candidates will be LaFollette and Wilson."

SAYS POSTOFFICE IS COMING. When asked by a reporter as to the prospects for the establishment of a postoffice in Bristol, Va., Mr. Slemp said that the office was assured. He stated that the order has been made for it by the postoffice department at the instance of President Taft and that it is now only a matter of time and that it would not be a great while before the office is established and in operation.

"The delay has been due to the arrangement of details and the securing of a suitable building for the new office," said Mr. Slemp. "The order for the office has gone down and it is certainly going to be established."

It is not known when the new office will be in operation. The Government has received bids for buildings but it is understood that several questions as to leases, free delivery, clerkship, etc., have arisen to delay the new office, and it cannot be established until all these things are worked out.

Congressman Slemp was met here by J. W. McGavock, of Wythe county, a prominent Republican leader. A conference was held at the Hotel Hamilton between Mr. Slemp and G. E. Goodell, who is slated for postmaster when the new office is established, Geo. W. Hammit and others.

From Jungle to Ball Room

The man who makes blades of grass grow where one grew before is called a benefactor of the race, but the man who discovers a use for the hitherto useless and little known plant may also lay a modest claim to be a benefactor. The forests of Western North Carolina and parts of Virginia are carpeted with evergreen leaves called "Galax." Some years ago this plant, although admired for its beauty by the occasional visitor to that region, was considered useless—a lumberer of the ground. To-day that same leaf has a market value throughout America and the countries of Europe.

The man more than any other is responsible for this is T. N. Woodruff, a country merchant whose place of business at Low Gap, N. C., a few miles south of this town—Galax—which derives its name from that leaf he deals in. Thirteen years ago Mr. Woodruff discovered that in the galax leaf he had something that the florists and decorators of the country needed, viz: An evergreen leaf which was at once tough and non-withering and because its beautiful design and texture, was susceptible of being wrought into an artistic background or most exquisite wreaths.

From shipping a few cases to New York florists thirteen years ago he has built up a trade and a demand for this evergreen leaf until the past year he shipped something over 4,000 cases, which means more than 40,000,000 leaves. Shipments were made to every State in the Union except two, and even to Canada, England and Germany. His business has grown to such an extent that his firm now gives employment to hundreds of "pickers" to gather leaves from the forest and to assort them, tie them in bunches and pack them for shipment. Every bunch of galax leaves sent by the Woodruff firm is closely inspected and so packed that the leaves when they reach their destination—whether their destination be Chicago, San Francisco or Liverpool—will be as green and fresh as the day it was plucked from the native forest.

Other merchants seeing that the business was profitable have from time to time gone to shipping galax leaves, but their experiences, ignorance of markets and market conditions prevented them from making the success of it that Mr. Woodruff has. Galax (now speaking of our town, the best in Southwest Virginia) is proud to be the shipping point for the leaf from which it derived its name. More of this decorative evergreen is shipped here than from any other place on the globe. Long before Galax town had its birth Mr. Woodruff was shipping galax from Blair, then the nearest railroad station, hence the name Galax was adopted for the new town when the railroad was built out to this point. —Galax Post-Herald.

Beatty Petition is Nearly Ready.

Richmond, Va., Oct. 23.—Attorneys Harry Smith and Hill Carter, counsel for Henry Clay Beattie, Jr., recently convicted of wife murder, have nearly completed Beattie's petition for a writ of error which will be presented to the Virginia Supreme Court of Appeals on November the 8th.

Any one of the five judges constituting the tribunal has the authority to allow the prisoner a writ of error, but it requires the unanimous action of the entire court to refuse it. If the writ is refused, Beattie need hope for nothing more from any of the courts unless, indeed, the appellate tribunal sees fit to allow a rehearing—a thing it seldom does.

In the event that the petition is granted the sentence of the Chesterfield County Circuit court requiring him to be electrocuted on November 24th will be superceded, and the prisoner will have a new lease of life.

Most of the lawyers who have studied the case are outspoken in their opinion that a writ of error will be refused by the Supreme court, and it is not expected that the Governor would under any circumstances respite the condemned man for more than thirty days.

Eight States Will Hold Election.

Washington, Oct. 24.—There will be elections in eight States and in a number of the leading cities of the country two weeks from today. In Massachusetts, Kentucky, Maryland, Rhode Island, Mississippi and New Mexico a Governor and other State officers are to be chosen; in New Jersey and Virginia, a legislature only; in New York, several members of the State judiciary, and in Nebraska a Supreme judge, Regent of the State university and railroad commissioner; in Pennsylvania, Ohio, Utah and California municipal officers are to be selected, while in New York county a number of judges and a sheriff are to be voted for.

Practically all the contests, State and municipal, are on local issues, with no national questions involved. Affording an exception to the rule, however, will be the special elections in several Congressional districts where vacancies exist by reason of the death of the incumbent since the last election. Included among the districts where elections will be held are the 14th Pennsylvania, the 7th Kansas, the 3rd Nebraska, the 1st New Jersey and the 10th Tennessee.

The chief interest of the national politicians in the State elections is directed toward Massachusetts and Rhode Island. Both are industrial States and are directly concerned in the tariff, which has been brought forward as a prominent issue in the campaign. Governor Foss is a candidate for re-election as Governor of Massachusetts on the Democratic ticket. Louis A. Frothingham, at present Lieutenant-Governor, is the Republican choice for Governor. While Republican leaders confident they will carry the State this year, many observers feel more than doubtful about the prospect, and would not be at all surprised at the re-election of Governor Foss. For the first time since the Republicans began their long lease of power in the Bay State, now more than fifty years ago, their control of the legislature is seriously challenged this year.

A condition of uncertainty about the result in Rhode Island is also reported, in view of the fact that last year Governor Pothier, Republican, had but a small margin of victory over Lewis A. Waterman, the Democratic candidate for Governor.

In Kentucky, while the Republicans are putting up a rather stiff fight, the Democracy is generally expected to win.

In Maryland there is a straight contest between the Democrats and Republicans, with the last-named enjoying a slight advantage in the race by reason of the dissenion in the Democratic ranks. The Democratic candidate for Governor is Arthur P. Gorman, son of the late United States Senator. Opposing him on the Republican ticket is Philip Lee Goldsborough, a well known citizen of Baltimore.

In Nebraska, though the officers to be chosen are of relatively small importance, a spirited campaign has been carried on with an eye to future results. The legislature to be chosen in Virginia will be the election of two United States Senators, but the choice of these has already been determined in the primary. New Mexico will hold her first State election for Congressmen, Governor and other State officers, judiciary and legislature, and county officers. National politicians are interested in the result because it will increase the numerical strength of one or the other of the two parties in Congress. The sister State of Arizona has decided to defer the holding of her first election until December.

In New York county the Republicans have fused with the Independence League, the Citizens' Union and other so-called independent organizations on the county ticket, which is made up of a number of court justices and a sheriff. The contest for members of the General Assembly also is receiving much attention because the Republicans are sparing no efforts to win back this branch of the State legislature, which last year went Democratic for the first time in many years.

In point of interest several of the municipal campaigns far exceed that of the State contests. Pittsburg and Philadelphia, Cleveland, Cincinnati and Toledo, Salt Lake City and San Francisco—all are the scenes of hard fights for control of the municipal offices. In practically all of these municipal contests the reform questions is a dominant issue.

To the country as a whole these elections, both State and municipal, will be of interest chiefly as they will serve to indicate the drift of popular opinion concerning the parties. Perhaps they will leave the outlook no clearer than it is at present, but if for any reason one party should show decided gains in the voting, the fact will be classified as an indicator of what may happen next year.

"Heedless Talk."

"I am from a Southern city and am a Southerner through and through. If I thought I had one drop of the Northern blood in my heart I would tear it out." To this effect Mayor Riddick is said to have declared in a speech before the Deeper Waterways convention at Richmond last Tuesday. Upon being asked by a Norfolk Ledger Dispatch reporter just whether he had been correctly reported, Mayor Riddick replied: "Yes, I said it, and I have no objection to its being repeated. I am a Southerner and that was the way I felt about it."

Regardless of how Mr. Riddick may have "felt" about it, his statement was ungracious and ill-timed, and when considering that his audience comprehended many Northern gentlemen, it was offensively repugnant to the first requirements of courtesy and reasonable consideration for the feelings of others. It is just this sort of extravagant and heedless talk that does much to prejudice the South in the estimation of other sections. Some of the most loyal and faithful and achieving sons of the South are of Northern lineage, and many of her most valuable public spirited and patriotic citizens were born in the North and of Northern parents. Moreover, the press and the people of the South stand always ready to gratefully welcome immigration of worthy people from the North and West, and are actually engaged in effort to stimulate and enlarge the tendency. The young people of the two sections are constantly inter-marrying. Millions of Northern capital is being employed in developing the South's industrial resources. And so in family blood and material interest a mating has been going on between the two sections that is serving to forever obliterate sectional lines and sectional ill will. In the face of this altogether wholesome trend, a declaration such as Mayor Riddick is reported to have made, seems as far from reflecting the Southern viewpoint as it is remote from kindly temperament and gentle courtesy.—Lynchburg News.

The above is a sensible editorial and to say that the Norfolk mayor was "ungracious" is putting it mildly. We find this feeling among some Southern people who seem to have less judgment and good sense than patriotism.

Hearst Predicts Defeat.

Washington, Oct. 25.—William R. Hearst, of New York, in a statement given out for publication here, predicts defeat of the Democratic party in the New York elections this fall which will be due, he thinks to dissatisfaction with Democratic leadership and Tammany domination. The statements concluded as follows:

"The present leadership of the Democratic party in New York is not in sympathy with the Democracy of the Nation, nor in harmony with the Democratic masses of its own constituency. The Democratic party of New York will be defeated at this election, and can only be saved by finally and forever deposing as leaders the unworthy, incompetent and undemocratic ward bosses of Tammany Hall."

HOW OLD PEOPLE

May Prolong Their Lives

At an advanced age waste is more rapid than repair. The organs act more slowly and less effectually than in youth. The circulation is poor, the blood thin and watery, the appetite poor and digestion weak.

We want to say to every aged person in this vicinity that Vinol, our delicious cod liver and iron tonic (without oil) will prolong life. It creates an appetite, aids digestion and makes good blood. In this natural manner Vinol retards waste and replaces weakness with strength, giving new life to the worn system.

If people in this vicinity only realized how Vinol invigorates old people we would not be able to supply the demand.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. D. M. SMITH DRUG CO. MARION, VA.

President

the President Taft, Dawn of World Peace, November Woman's Home, takes the following position on the arbitration question for adoption between France and the United States. "With the ratification of the ties with Great Britain and France we may hope that treaties with nations will follow. After a if our treaties stand the test of experience and prove useful, it is probable that all the greatest powers on earth will come under obligation to arbitrate their differences with other nations. Naturally, the other nations will do likewise, and universal arbitration will be more an actuality than a altruistic dream."

Children Cry FOR FLETCHER'S CASTORIA

Death of a Good Woman.

Mrs. Ellen E. Gardner died at her home, four miles west of this place, last Thursday after a lingering illness of valvular heart disease.

The deceased was born in Marion, Virginia, in 1835, and was therefore at the time of her death 75 years, 6 months and 14 days old.

In the year of 1856 she was united in marriage to Mr. Thomas E. Gardner. In the same year they moved to Saltville, Virginia, where they lived for many years and reared a family of ten children, six of whom survive her—two sons, Edwin L. and Geo. T., who reside in California, Thos. E., of Alaska, and two daughters and a son who lived with her.

Mrs. Gardner's maiden name was Ellen E. Landsdown; the family moving to Missouri in her early childhood but returning to this county soon afterwards.

She connected herself with the Methodist church at Buchanan's School House, Keywood, Va., under the ministry of the sainted Joseph Haskew, and lived an exemplary christian life. A noble christian woman, whose delight was to do good, always cheerful and happy—never growing old even when the infirmities of age came.

Her funeral was preached at the home Saturday at 12 M. by her two old pastors, Rey. George W. Maiden and Rev. J. Tyler Frazier, after which her remains were taken to old Glade Spring cemetery and buried by the side of her husband and children who had preceded her to the grave many years before.

Miss Bessie Greer spent several days week visiting her sister, Miss Stella, at Sugar Grove.

The Women's Club will meet at the High School in the auditorium on Friday afternoon at 3:30 o'clock. A program of unusual interest has been arranged and it is hoped that there will be a full attendance.

Landon county is one of the best agricultural counties in East Tennessee. If you want to buy a good farm, worth the money, address BACON & KOLLOCK, Landon, Tenn.

Miss Albina Stone left Tuesday for Kingsport, Tenn., where she will spend a short time the guest of her sister, Mrs. W. W. Hufard. She will go from there to Augusta, Ga., to visit another sister, Mrs. V. J. Hill.—Wytheville Enterprise.

Death of Peter Lawrence.

Peter Lawrence died in this place quite suddenly last Saturday morning. He had been confined to his room only about two days. Mr. Lawrence was about sixty-seven years old and is survived by one son and two daughters. His remains were taken to Mount Zion cemetery and laid to rest last Sunday evening at three o'clock.

Unpaid Pensions.

To the Editor of The Times-Dispatch: Sir,—I write to your valuable paper to ask why it is that the old Confederate soldiers are not due the pensions due them Sept. 1st. We have not only not received the small amounts due us, but they refuse to notice any letters from us telling us why we are not paid. We would thank you more than we can tell if you will please tell us through The Times-Dispatch where the difficulty is. J. E. POULSON, Co. E, 19th Batt., Va. Vol., Belle Haven.

We note The Times-Dispatch makes no reply to the above letter, which is evidently the inquiry of an old soldier. We have had many inquiries about the pensions, now about two months past due. We have thought that Smyth county being at the bottom of the roll, alphabetically, was naturally delayed, but Belle Haven is in Accomac county, and if this rule works, the old soldiers in that county should have been paid long ago. Now there is something wrong. The Times-Dispatch don't say and we don't know, but we do know that the old soldiers are needing what the State has promised them and some of our friends would do better to see that they get the small pittance promptly than to do so much resolving in conventions. Sentiment and talk is good but the money is what the old soldiers need now.

Big Lumber Deal.

Messrs. Campbell and Dickey, of the United States Spruce Lumber Co., of this place, have purchased about 8,000 acres of timber lands near Black Mountain, N. C., for development. The property is estimated to cut 303,000,000 feet of saw timber and 86,000 cords of pulp wood, the purchase price being \$857,000. It is announced that the purchasers will install a saw mill of 100,000 feet daily capacity, erect a pulp plant of forty cords daily capacity, and construct a sixteen-mile narrow-gauge railway from Asheville to Mount Mitchell, for which the survey has been completed. The plant and railway will cost about \$200,000. The property was purchased from S. Montgomery Smith, of Asheville; F. H. Drewry and Marcus L. Foster, of Massachusetts.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is no one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHERRY & Co., Toledo, Ohio.

President Taft will be in Bristol for a short time on the evening of Saturday, Nov. 11th, and the Chief Executive of the Nation will be greeted by what will probably be among the largest crowd of people that ever assembled in the border city. The President and party will pass through Bristol en route to Washington after ending up his speech-making itinerary at Chattanooga, which has extended from ocean to ocean. You can do a lot with very little

Says the Little Paint Man.

Do a lot of "Brightening Up" in a very little time and at small expense. A pot of paint, a can of varnish and a brush and you soon make the worn floors clean and fresh, the old furniture bright and new, the dingy cupboards sweet and sanitary. Just look around the house, see what is showing wear and tear and come to us. We'll tell you what to use and how to use it. Here are a couple of suggestions.

YOUR FURNITURE:

Pick out the dingy pieces, give them a coat of Sherwin-Williams Floorlac Oak or Mahogany or whatever color you wish. What a change is wrought in a short time! Old chairs, tables, bedroom furniture no longer worn and shabby, but bright and new, and all at such a small expense. Just try your hand. With Floorlac you stain and varnish at one operation. Easy to apply. Ask us for color card.

YOUR CUPBOARDS:

The spotted, dusty cupboard shelves, the worn doors and outside, are changed indeed after a coat of Sherwin-Williams Family Paint has been applied. Family Paint is a durable oil paint, made in a variety of pleasing colors, for painting woodwork, cupboards and the hundred little things around the house that need a coat of good paint occasionally. It wears well, stands scrubbing and washing.

Don't you think there's something about your place that needs a little fixing up? Just consult us—we like to help folks.

Grand Camp Meets Next in Pulaski.

Newport News, Va., October 21.—With 500 or 600 veterans in line keeping step with the music furnished by the bands, the parade Thursday afternoon was the feature of the last day of the reunion of the grand camp, Confederate Veterans of Virginia. Many of the gray-clad warriors were bent with age, but they enjoyed the march and some of them appeared as spry as the sons, who trampled behind them.

A resolution was offered entitling widows of veterans, who were married prior to 1870, a pension. At present widows of veterans to whom they were married prior to 1861 are eligible to pensions. The resolution also asks that the legislature be petitioned to appropriate a sufficient sum to cover the curtail of ten per cent. in the pensions that was necessary last year and to provide against such a decrease in the future.

The grand camp selected Pulaski as the next meeting place.

Here is a woman who speaks from personal and long experience, viz., Mrs. P. H. Brogan, of Wilson, Pa., who says, "I know from experience that Chamberlain's Cough Remedy is far superior to any other. For cough there is nothing that excels it." For sale by all dealers.

The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgment.

This "Discovery" is a pure, glyceric extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrappers. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. The Myers Patent Mop Wringer

This Mop Wringer is the only machine ever invented that will wring and clean a mop thoroughly. It not only takes out the dirt and leaves the mop clean, but it wrings it so dry that there is hardly any moisture left in the mop. The floor is never left streaked, as you are always using a clean mop. The machine is very simple to operate and requires no skill, as anybody can use it, man, woman or child. It is a labor saver, as one person will do the work quicker and better than three with any other device known. The mop sets on the platform and is not attached to the machine and can be moved at any time. It is always ready for use and there are no parts to get out of order. A trial of our machine will convince you that its work is perfect. We have yet to find a dissatisfied customer.

If your dealer does not handle this Mop Wringer, write direct to us.
