Abingdon Has Smallpox Scare.

Abingdon, Va., Jan. 20.—A small pox excitement has again broken out in Abingdon. For the past two weeks it was thought there were no cases in the town, but that we had chickenpox galore. On closer examination it develops that several of these supposed chickenpox patients have the smallpox instead, and what the result will be can only be learned by waiting. No attempt had been made to quarantine people supposed to have chickenpox. The town council met Saturday morning and requested that the revival in progress in the Methodist church be closed, that there be no public gathering of any kind in the town and that all children attending the schools be vaccinated or refused admission to the schools.

The protracted meeting which was to begin in the Presbyterian church on the 20th, has been continued indefinitely and every precaution possible will be taken to prevent a spread of the disease.

May Increase Weight Limit

Washington, Jan. 19.—Parcel post packages weighing 100 pounds will be a feature of the postal service if places being considered favorably by Postmaster General Burleson go through. Mr. Burleson said he believed that 600,000,000 parcels would be transported by July 1, 1914, if the present rush keeps up, which would bring the Post-Office Department a revenue of about \$6,000,000.

Democratic Convention to Meet in Bristol.

The Democrats of the Ninth District of Virginia will meet in Bristol on Wednesday, March 18, for the purpose of nominating a candidate for Congress.

The following is the official call for the convention issued by Chairman Buchanan and Secretary Wyszog: "At a meeting of the Ninth Virginia District Democratic committee at Richmond on January 15, at which a large number of Democrats from the district were present by invitation of the committee, it was unanimously resolved that a delegated convention of the Democratic party of the Ninth District is hereby called to meet in the city of Bristol, Va., at 12 o'clock noon, on Wednesday, March 18, 1914 for the purpose of nominating a candidate for Congress for said district.

"The basis of representation for said convention shall be one delegate and one alternate for each fifty votes, or fraction over twenty-five for Wilson for President. The delegates in the counties and city of Bristol left to the respective county committees and the committee of the said."

Pardon Granted to Town Sergeant.

Governor Mann on last Friday granted a conditional pardon to Jas. Hall, town sergeant of St. Paul, in Wise county, before he entered the State penitentiary to begin serving his two-year term for the killing of a Hungarian.

One day last fall the Hungarians and a party of seventy drunken miners got off the train at St. Paul and began to shoot up the town and terrify the citizens. Hall, in his capacity of town sergeant, attempted to curb the outbreak, and arrested the Hungarian and started to jail with him when the miners demanded his surrender and when Hall refused to obey the miners set upon and used him roughly. In the fight Hall was thrown to the ground by six or seven miners and the Hungarian when Mr. Hall shot and killed him.

Hall was convicted of manslaughter at the October term of the Circuit Court of Wise county, and was released on bail when a stay of sentence was granted which was to expire Friday night and had the Governor not acted Hall would have entered the penitentiary Saturday.

Slew Wife for Love of Step-Daughter.

Galesburg, Ill., Jan. 19.—Robert Higgins confessed today that he murdered his wife at New Henderson, Ills., January 5, so he would be free to marry his step daughter, Julia Flake, 15 years old. He was arrested after the girl told State's Attorney John M. Wilson of Mercer county, of her infatuation for Higgins and that she importuned him to dispose of her mother. She told how they had schemed to devise a plan which would make Mrs. Higgins' death appear accidental.

She said she was in the next room when Higgins fired the shot gun which brought instant death to her mother. She told how Higgins raved and struggled with neighbors for possession of the gun, saying he would end his own life. She said they explained that Higgins had been cleaning the gun and it was discharged accidentally. Their story was so convincing the coroner's jury returned a verdict of accidental death. Later C. W. Earnest, a maternal uncle of the girl, took two letters written by Julia Flake, one to himself and one to his daughter, to State's Attorney Wilson. In these letters the girl offered part of a legacy of \$7,000 she is to receive when she becomes of age, provided they would help her to kill her mother.

Judge Rhea Confirmed.

Richmond, Va., Jan. 19.—The legislature in joint session Saturday confirmed Judge Wm. F. Rhea for the State Corporation Commission, the vote being unanimous. Several members announced they had opposed him six years ago, but he had made good and they cheerfully voted for him.

Big Timber Deal.

The Keys-Walker Lumber Company, of Roanoke, Va., have closed a deal with the Blackwood-Coke & Coal Company for all the timber they own in Wise and Lee counties. They also have bought of the Stonega Coke & Coal Company 8,000 acres of timber lying on Roaring Fork in Wise county. This gives this company practically 15,000 acres of timber. They also bought the band and logging outfit of Blackwood outfit located at Pardee. They will employ between 75 and 100 men.—Norton News.

Sues Railroad for \$50,000.

Roanoke, Va., Jan. 19.—A suit has been filed in the United States district court here against the Virginian railway for \$50,000, by Mrs. Daisy M. Linkous, administratrix for her husband, James M. Linkous, who was killed in a wreck on that road at Keever, November 29.

In the wreck, which was a head-on collision, the fireman, conductor and brakeman were killed. The accident occurred between Roanoke and Victoria and is said to have been due to a misunderstanding of orders.

The wreck was one of the most serious in the history of the Virginian Railway.

Would Be a Good Law.

Small boys will be wholly deprived of their "smokes" if a bill offered in the House Friday by Delegate Grant, of Russell, is enacted.

The bill prohibits the use of cigarettes by boys under twenty-one years of age, and it prohibits the sale of cigarettes or materials for cigarettes to minors. Neither can they be given cigarettes or furnished in any way.

Minors found guilty of smoking are to be fined from \$5 to \$25. The fines will be remitted if they disclose the source of the contraband tobacco. If they refuse to furnish the name of the person who sold or gave them the cigarettes the matter is to be placed in the hands of the grand jury for an investigation. When the name of the merchant who sold the minor the cigarettes is discovered he is to be fined not less than \$5 nor more than \$25.

Bitter Fight Over Postoffice.

Danville, Va., Jan. 19.—What is believed to be the final chapter of the bitterest factional fight between the machine and anti-machine elements of this city was written last Thursday, when Mr. J. A. Lawson, whose nomination was sent to the Senate on Christmas Eve by President Wilson, received a letter from Daniel C. Roper, First Assistant Postmaster General, apprising him of the fact that he had been instructed to notify him that by and with the consent of the President and Senate, he had been appointed postmaster at Danville.

Mr. Roper enclosed a blank bond calling for \$15,000 security, containing on the reverse side the oath of office. Both have been executed and returned to Washington. The letter also stated that on receipt of these papers his commission would be sent at once and he would instantly take over the office.

Supporters of Mr. Mitchell, the candidate of the machine faction, were confident to the last that they would be able to prevent the confirmation of Mr. Lawson. In fact it is known that a letter was received by a gentleman in this city a few days ago from Congressman Saunders, stating that he intended fighting to the last for Mitchell.

Samuel I. Hopkins, who represented the Sixth Virginia District in Congress thirty years ago, having been elected on the Knights of Labor ticket, died at his home in Lynchburg last Wednesday week.

Thomas Anderson, a well known white man, 50 years of age, died of Smallpox Thursday night at his home, three miles from Damascus. So far this is the second death reported from this disease during the present epidemic.

A new plant for the manufacture of ice and ice cream will be erected in Bristol, Va., at once, at a cost of \$30,000. The Twin City Coal and Ice Company, recently incorporated with a paid-in capital stock of \$50,000, has just purchased the lot on Moore street and will begin the erection of a modern concrete building immediately.

E. W. Mason, 35 years old, a brakeman on the Norfolk & Western railroad, was found dead at Roanoke in a ditch south of the east bound main track opposite the yard office in that city last Friday. His body was badly mutilated, his neck was broken and his limbs crushed out of shape. It is thought he was struck by a train.

The building of the new water softening tank by the N. & W. Ry. at this place is eliciting much interest. It is being put high in the air on steel supports in order to give a good head of water to carry to the other tanks, and is altogether quite an imposing affair. The Railway is expending in all on this work here something in excess of \$80,000.—Glade Springs Vidette.

Now that the Democratic County Committee has made an endorsement for the postoffice at this place, having recommended Mr. G. E. Gilly for that position, it looks as though there is going to be a pretty lively scrap for this important and juicy plum, as the other candidates for the place do not seem inclined to accept the committee's recommendation as final and are going to fight the matter out to a finish.—Big Stone Gap Post.

United States Now Owns Over Virginia Leads in Oyster Output 8,000 Islands.

Washington, D. C., Jan. 19.—Uncle Sam now has under his possession exactly 8,000 islands, supporting a population of 10,000,000, or more than the entire United States a century ago, according to a report received by the National Geographic Society. It tells the story of the remarkable development of those islands since the American flag was unfurled over them.

The report shows that their commerce exceeds \$300,000,000, or more than that of the United States in any year prior to 1850. American capital invested in them aggregates approximately \$400,000,000. They ship to the United States \$100,000,000 worth of products every year and take in exchange products of about equal value.

The feature of the report is the development of Porto Rico, Hawaii and the Alaskan Islands. It shows that when Porto Rico came under American possession fifteen years ago there was but one building in the islands erected for school purposes, while today there are 1,200. There were 25,000 pupils enrolled in the public schools in the first year of American administration, now there are 175,000. Then there was but one good road of forty miles; now there are about 1,000 miles. Production of sugar has grown from 65,000 tons a year to 365,000. Foreign commerce was about \$20,000,000 a year; now it is nearly \$100,000,000. Then the island bought about \$2,500,000 worth of American products a year; now nearly \$40,000,000.

According to the report, Hawaii has been extremely prosperous since it came permanently under the American flag in 1900. The assessed value of property has increased one-half, the value of the sugar crop is more than doubled, deposits in banks have trebled, and in savings banks quadrupled. Hawaii's irrigation system is the marvel of the engineering world, and the quantity of sugar produced per acre far exceeds that of any other spot on the globe.

"The Alaskan islands and mainland," says the report, "cost us \$7,500,000, an expenditure that many believed to be quite unjustifiable. Yet for many years the annual value of the canned salmon sent us from Alaska in a single year is twice as much as the entire possession cost."

Rev. Mahood, of Ceres, died at his home last week after a short illness. He was the father of Mrs. W. C. Hankla, of Rural Retreat.

W. H. Buchanan, a well-known farmer, whose home was near Bristol, in Washington county, died at his home last Wednesday, aged 76 years.

Two important realty deals were consummated in Bristol last week in which business properties to the value of \$40,000 changed hands. W. H. Cox, president of the Cox Hat Company, sold the State street building, which his company occupies, to Edward W. King for \$25,000, and Mr. Cox in turn bought the Shelby street business house occupied by King-Kaylor Co., paying \$15,000.

New Building for E. & H.

Bristol, Va., Jan. 19.—Treasurer R. K. Sutherland, of Emory and Henry College, who was in Bristol last Thursday, announced that the board of trustees of that institution would soon be ready to let the contract for the erection of the new central building. The new structure which will be erected in the site of the old building, will cost not less than \$100,000, and will be modern in all of its appointments. It promises to be one of the handsomest buildings of its kind in the southern states. The money for this work was raised last fall, when Mr. Sutherland secured \$75,000 within the bounds of the Holston conference. This amount raised within the conference made binding a subscription from the Rockefeller board of \$50,000, and one from Andrew Carnegie for \$22,000.

Seven Persons Killed in Attempt to Escape Oklahoma Prison

McAlister, Okla., Jan. 19.—Seven men were shot to death and three persons wounded today when three convicts attempted to escape from the State penitentiary and were slain by guards. One of the men murdered by the convicts in their mad dash for liberty was John R. Thomas, of Muskogee, formerly United States District Judge and once Congressman from Illinois.

No general attempt was made by other convicts to join in the delivery, although the three mutineers were encouraged by their less desperate fellows, who cheered the onslaught of the armed prisoners.

So rapidly did the three convicts shoot down those in their path that they reached the prison gate before the guards could return their fire. The desperadoes had taken the keys from the trunker, John Martin, whom they had wounded and had sheltered themselves through the prison yard by holding Mary Foster, a telephone operator, in front of them until she was struck by a shot fired by guards.

Outside the gate the men seized the horse and buggy of Warden Dick and dashed away, only to be shot to death by pursuing guards.

How the men obtained the weapons and planned the escape has not been discovered, but a rigid inquiry will be held.

Virginia again ranks ahead of any other State in the fish output. Menhaden, with a catch valued at \$2,000,000, leads in the list of fish, while the catch of shad amounted to 3,700,000 and was worth \$1,110,000. Other food fish to the value of \$1,860,000 were marketed.

The output of crabs and clams was valued at \$2,500,000. Virginia leads in the output of crabs, but is not so successful with clams.

The total value of the State's production of fish, oysters, crabs and clams was \$17,000,000.

About 40,000 persons in Virginia are actually engaged in these pursuits. It is estimated that they have dependent upon them some 60,000 people.

Peary, of Wise county, Miss Mayola and Messrs. George and William Gillespie, of Tazewell; and two brothers and two sisters.

Takes Bloody Revenge.

Hamlet, N. C., Jan. 19.—Angered by the refusal of his wife to go on a trip with him, Will Simmons killed her, her mother and himself, the triple tragedy occurring at the home of Mrs. John Calvin Wiggins, mother-in-law of Simmons, about four miles south of this place last Thursday morning at 9 o'clock. Reports from the community state that Simmons, who married the daughter of Mrs. Wiggins about two months ago, and lived with his mother-in-law, decided that morning that he wanted a change of scene, told his wife to make ready to go with him, and when she said she would not, got his shotgun. His wife fled from the house, Simmons delayed just long enough to shoot his mother-in-law, killing her instantly. Then he followed his wife and shot her dead. Deliberately reloading the double barreled gun, Simmons took off his shoes and, pulling the trigger with his toes, blew out his own brains.

Simmons came here from Georgia a few years ago. Mrs. Wiggins was a native of this county.

Outside the gate the men seized the horse and buggy of Warden Dick and dashed away, only to be shot to death by pursuing guards.

How the men obtained the weapons and planned the escape has not been discovered, but a rigid inquiry will be held.

He was one of the first men in Botetourt county to adopt the modern methods of fruit culture and he leaves one of the most valuable and noted orchards in that section of the country. He was regarded as one of the county's wealthiest citizens.

Uncle Sam Wants Penny.

Major Stanley W. Martin, clerk of the United States court for the western district of Virginia, is debtor to Uncle Sam to the extent of one cent, and to surmount the red tape of governmental affairs in order to get the penny into the coffers of the treasury department at Washington, the United States government will be required to expend just \$5.60. The penny belongs to Uncle Sam and Major Martin does not want it, so an order will have to be entered in the court here soon by Judge Henry Clay McDowell under which the clerk will be given authority to square the account.—Lynchburg News.

Cigarettes.

No cigarette do not make the little boy stagger on the streets and become wild and unruly. Their poison rather enters into his system with the subtle stealth of a panther sneaking on its prey, takes the rosy bloom from his cheeks and gives him the tawny color of that beast, retards the growth of his body, breaks down the delicate nervous organization that controls the functions of its different parts, saps the strength of his mind and undermines the foundations of his character. In after years, he may stagger on the streets; but that will be merely the result of a futile attempt to satisfy with alcohol the nerve cell cravings for a stimulant whose foundation was laid by cigarettes back in the days when he was too young to know the danger and when you and I failed in our duty towards him.—Glade Spring Vidette.

The many friends of Judge Joseph L. Kelly were gratified to see the announcement in the press Thursday morning of his elevation to the Supreme bench of Virginia. As soon as the head lines were read the news soon spread over the town that Joe Kelly had won. He was spoken of as in the days of yore when he was a boy growing up in Marion, for all remember him as plain Joe Kelly who was their school mate, fellow townsman and friend. All are now proud of their former townsman and join hands in congratulating him upon his election to a position of the highest honor in the State of Virginia. A Card of Thanks.

I desire to express my sincere appreciation to my many thoughtful friends of Smyth who recently made me glad with so many Christmas-time remembrances. Indeed, such an abundance of good things to eat came that I was compelled in self-defence to declare a feast and bring them in from "the ends of the earth." I take this as the only means of thanking those dear friends so orthodox who would not let their 'left hands' know what their 'right hands' were doing. Everything goes well with me at Seminary, but I long for the time when I can be in your midst again in God's country—Southwest Virginia—the Garden Spot of the World.

North Holston Items.

Mr. Editor:— If you will permit me to have a little space in your paper I will occasionally write the news of North Holston and of the Valley generally. This is a great big territory that I have designated but I will not require as much room as my contemporary reporters, so don't get scared and put this in the waste basket.

The people of North Holston greatly enjoy the Marion news notes that are published in "our" American.

Harry Pyle, a young man who lives at Macorady, was arrested Monday charged with entering and robbing the Southern Gypsum Company's store at Macorady. After a preliminary hearing before Esquire Samuel Edgar Clarke he was taken to Marion and lodged in jail to await the action of the grand jury.

Part of the Neighborhood Club almost met with a serious accident while on their way to the club meeting Tuesday. Mrs. Frank Alonzo Wilder was conveying Mrs. A. W. Ristine and Mrs. Ada Judkins in her buggy, and her horse became frightened and ran away, but owing to the great courage and presence of mind of Mrs. Wilder they escaped without injury. Mrs. Wilder guided the horse into the yard at Gyppo Inn and drove him around and around in a circle until some teamsters stopped the horse.

G. T. HARNBERGER TESTIFIES

Too Weak to Wear Coat—Could Not Speak Above Whisper—Bear's Emulsion Cured Him.

John D. Bear, Elkton, Va.

Dear Sir: Eight years ago I was a great sufferer from weakness, weak lungs and pleurisy and coughed night and day and raised and expectorated a quart in 24 hours. I had as many as four or five night sweats in one night, my pulse would run as high as 140 and my temperature was about 103. I was so weak I could hardly walk to the dining room. I had no appetite and everything I saw nauseated me. I couldn't stand the weight of my coat on my shoulders, and could not speak above a whisper at times. I was in one of the best sanitariums in the South, but seemed to be growing worse every day and was about to give up when a friend asked me to try Bear's Emulsion. I did so and had taken it but two days when I began to improve. My appetite improved, and I felt stronger, I coughed very little, my lungs stopped hurting me and it was not long until I could walk two miles a great deal easier than I could walk around the sanitarium before taking the Petroleum Emulsion. I took 18 bottles and today I am a well man and owe a great deal to Emulsion.

Sincerely, G. T. Harnsberger.

Anyone who doubts the genuineness of this testimonial will please write to Mr. Harnsberger, at Elkton Va., who will take pleasure in replying. Sold by D. M. Smith Drug Company.—Adv.

Dangers of a Cold

Do you know that of all the minor ailments colds are by far the most dangerous? It is not the colds themselves that you need to fear, but the serious diseases that they so often lead to. For that reason every cold should be gotten rid of with the least possible delay. To accomplish this you will find Chamberlain's Cough Remedy of great help to you. It loosens a cold, relieves the lungs, aids expectoration and enables the system to throw off the cold. For sale by all dealers.
