

Eight American Writers.

St. Louis, July 17.—Among thirty names purporting to be those of the world's greatest writers, which are chiseled on the new \$1,000,000 library here, that of Mark Twain, who was a Missourian, has a conspicuous place. Only seven other "American" names are included in the list.

Watch Your Kidneys
Their action controls your health. Read what Foley Kidney Pills have done for your neighbor. Mrs. H. W. Allen, Quincy, Ill., says: "About a year ago my kidneys began bothering me. I had a swelling in my ankles and limbs, then headaches and nervous dizziness and later severe backaches. I was getting worse, when I began taking Foley Kidney Pills. I kept on taking them until I was once more freed of all kidney trouble and suffering. I have a great deal to thank Foley Kidney Pills for and shall always recommend them."

Materials in Ton Pig Iron.

It takes 4,221 pounds of ore, 2,810 pounds of coke, which means about 3,000 pounds of coal and 1,147 pounds of limestone, a total of over four tons of ore, coal and limestone to make a ton of pig iron.

The Bland County Chapter, Daughters of the Confederacy, have placed an order for a monument to be erected to the memory of the Confederate soldiers of that county. It is to be of granite and mounted by a statue of a Confederate soldier, and will be twenty-three feet in height.

When Thomas A. Edison was asked why he is a total abstainer from intoxicants his answer was: "I have a better use for my head. Only a fool will drink that which will kill his brain and ruin his system," says a contemporary.

Negro's Head Breaks Handle off Iron.

Bristol, Tenn., July 14.—Charles Brown, a young negro, has been unconscious for several days, with apparently no hope for his recovery, as the result of having been dealt a blow in the head with a smoothing iron. He was hit by Will Hall, negro, proprietor of a pressing establishment. The two were quarreling when Hall invited Brown to come into his place if he wished to talk to him. Brown opened the screen door, when, without a word of warning, Hall brought the smoothing iron down upon his head with such force as to break the handle loose from a soldered joint. Hall then disappeared.

DEATH IN ROARING FIRE
may not result from the work of fire bugs, but often severe burns are caused that make a quick need for Bucklen's Arnica Salve, the quickest, surest cure for burns, wounds, bruises, boils, sores, it soothes and heals; drives off skin eruptions, ulcers or piles. Only 25c. at Carson Drug Co.

Texas now has 200,000 square miles without a single school. On the 23rd of this month the vote will be taken on the amendment to the constitution, which, it is hoped, will carry the entire State "dry," says the Atlanta Georgian.

Montague to Take Stump.

Richmond, July 15.—Announcement was made Thursday night, following a meeting of leaders in the Virginia Democratic League, that former Governor Andrew Jackson Montague will soon take the stump in behalf of the League's candidates, Representatives Jones and Glass. It was also stated that a number of other prominent Virginians have volunteered their services and will enter the lists, and that the State will be covered by the workers for these two candidates. A list of the dates and places for these speeches had not been prepared when the meeting was adjourned. It looks now as if anti-machine oratory will resound in all parts of the State from now until September 7th, when the Democratic Senatorial primary is held.

Glade Spring Mayorless

Some weeks ago a number of young men went up from Abingdon to the opening of Washington Springs, three miles northeast of Glade Spring. Returning in an automobile, they had a little trouble at Glade Spring, were arrested and subsequently tried and one or more were fined. They appealed. The case came up before Judge Hutton last week and was dismissed. The court held that the Mayor of Glade Spring, Mr. S. W. Keys, before whom they were tried, was ineligible to sit in the case as he does not reside in the corporation and hence is not, legally, mayor of that enterprising little town. His place of business is in town but it is held that that does not entitle him to hold a town office.—Abingdon Virginian.

A LIBERAL OFFER.

We Guarantee to Cure Dyspepsia—If We Fail the Medicine Costs Nothing.
To unquestionably prove to the people that indigestion and dyspepsia can be permanently relieved and that Rexall Dyspepsia Tablets will bring about this result, we will furnish the medicine absolutely free if it fails to give satisfaction to any one using it.

The remarkable success of Rexall Dyspepsia Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their manufacture, whereby the well known properties of Bismuth-Subnitrate and Pepsin have been combined with Carminatives and other agents.

Bismuth-Subnitrate and Pepsin are constantly employed and recognized by the entire medical profession as invaluable in the treatment of indigestion and dyspepsia.

The Pepsin used in Rexall Dyspepsia Tablets is prepared by a process which develops its greatest efficiency. Pepsin supplies to the digestive apparatus one of the most important elements of the digestive fluid, and without it the digestion and assimilation of food are impossible.

The carminatives possess properties which aid in relieving the disturbances and pain caused by undigested food. This perfect combination of these ingredients makes a remedy invaluable for the complete relief of indigestion and dyspepsia.

We are so certain of this that we urge you to try Rexall Dyspepsia Tablets on our own personal guarantee. Three sizes, 25 cents, 50 cents and \$1.00. Remember you can obtain Rexall Remedies only at—The Rexall Store.

Wrongfully Ejected But Cannot Recover.

The court of civil appeals of Tennessee, in session of Knoxville, handed down a number of opinions in Sullivan county cases, including that of the Southern railway against S. N. Christian. This case was reversed and dismissed on the ground that the court below erred in not peremptorily instructing the jury to return a verdict in favor of the defendant.

The case is of particular interest to traveling men. Mr. Christian, who is a member of the Taylor-Christian Hat Co., and a well known business man, purchased a ticket from Bristol to Morristown, leaving on train No. 1, at 7 a. m. Before getting his ticket he purchased a \$20 mileage book and the agent at the Union station tore out eighty-nine miles in payment for the ticket to Morristown. Before the train got to Jonesboro a train auditor went to Mr. Christian and demanded that he pay his fare, claiming that he had given him a ticket only to John on City. Mr. Christian refused to pay his fare, having given the auditor a ticket to Morristown. He was put off the train at Jonesboro and in consequence he missed an important business engagement in North Carolina.

The aggrieved passenger brought suit and recovered \$700 as damages in the Bristol law court. The supreme court reversed the lower court on the ground that Mr. Christian had evidence with which he could have convinced the train auditor that he (Christian) was right in the matter and that by failing to do so, he was not entitled to recover.

Lightning Cures Deafness.

Winsted, Conn., July 18.—Although she suffered great pain as the result of being struck by lightning during a recent storm, Mrs. Jaue Decker, aged sixty-five, of Canaan, is glad she was hit by the bolt, because the accident restored her hearing. She had been deaf since childhood.

The bolt of lightning entered the roof near the chimney, shattered a number of rafters, tore through two floors, wrecking windows and frames and stunning both Mrs. Frederick Stevens and her mother, Mrs. Decker, who were standing close together. Mrs. Decker was rendered unconscious, and was lame and sore for a number of days. Her hearing is unusually acute as the result of the shock and she is now able to carry on a conversation in an ordinary tone of voice.

The Last Passenger Pigeon

Measures were taken to ascertain whether the passenger pigeon had been completely exterminated. Under the stimulus of rewards offered aggregating altogether several thousand dollars many reports were received of nesting passenger pigeons. The information, however, proved incorrect on investigation, and it is practically established that of the vast hordes of wild pigeons that formerly inhabited the Eastern United States there is but one survivor, a female bird eighteen years old, in captivity in the Zoological Garden of Cincinnati.—From Agricultural Department Circular 80.

Dr. McConnell on Consolidated Rural Schools.

Of all the movements put forth for the solution of the rural school, none guarantees better results than centralization or consolidation. It has been tried and everywhere speaks for itself. While it is coming, the one-room school must still remain the ancient tabernacle of education for a large part of the country children. However, this does not mean that the one-room school shall cease to make inherent progress; for its functions will not relax in importance until centralization comes. The real hopes of the one-room school have already been discussed. Consolidation is abolishing many of the evils of the old rural schools.

Under this plan a modern, fully-equipped school plant is erected to take the place of the several small schools of the township. The site is chosen at the center or at the most convenient place of all the communities. It is distinctly a rural school, home-like, where practical farm life is not only demonstrated, but lived. Elementary agriculture, manual training, domestic science, art, music education—everything that can enrich rural society is included in the work of the perfect consolidated school. The children living far away are conveyed to the school in the wagonette, thus insuring promptness, protection from bad weather and other desirable features. About 1870, the township of Concord, Mass., consolidated its schools, and this act marks the beginning of school centralization in our country. The movement rapidly spread over New England, and to-day more than two-thirds of all the States have accomplished much toward the promotion of consolidated schools. Especially in the middle west, consolidation has made rapid growth, as industrial conditions there have favored its advancement. The South is making forward steps in the centralization of its schools, in spite of the difficulties which must be met. The consolidation of schools and the transportation of pupils in Virginia are making phenomenal progress. Much progress is being made in North Carolina, South Carolina, Georgia and Florida. There are many types of centralization. May we not predict that the future country school, however far in the future, shall be a distinct consolidated rural school?

Our Town.

[Communicated.]

Public opinion is the strongest force available for correcting a public evil or a public wrong. If we look about us we can see conditions existing in our town which should not exist and which should by all means be looked after by the town authorities and corrected if possible. It is in reference to these conditions which are of a public nature that we wish to speak in this article, and we hope it is understood that the suggestions herein advanced are uttered not in any spirit of chestiness, of resentment or of ill feeling toward any one, but in a spirit of public interest looking to the permanent improvement of public welfare.

We have a town which by location is endowed with all the blessings of nature: surrounded by beautiful mountains and fertile fields; having a climate unsurpassed; having a past history recording naught but a strong moral force coupled with great religious achievements; having a people who ever rejoice in the comforts of refinement and of prosperous life.

And yet in spite of all these happy conditions made possible and complete by nature we must confess, if with shame, that we have a town dreadfully unkept and unclean. By being unclean we do not mean to say that the politics of the town are bad, that our town officials are inefficient or corrupt, for such is not true, but we mean that the town is physically dirty and needs to be thoroughly washed, and even scrubbed with soap and water.

We have two public cleaning days in each year. These are glorious days, indeed, and the results are manifest, but these are not enough, because no sooner are they over than our people relapse into another state of carelessness and inertia, waiting for another official notice to clean up a year hence.

Every day should be a public cleaning day. Can not our town afford to have her streets looked after daily and not at stated times? Can not she have the papers picked up which are scattered every where; the grass cut from off the streets and side walks. Can not all vegetable matter such as orange peelings, banana stems and skins, together with tin cans, old sacks and rags of different kinds be removed from the streets instead of having them lie there waiting to be washed down the gutters by the rain or by the town water, which is occasionally turned on. These conditions are not only a menace to the health and safety of our people but they are repulsive to those who enjoy cleanliness as well as to the visitor or stranger who comes to our city.

What we need are garbage cans placed at intervals along the streets, put there by a town ordinance and by a town ordinance requiring those cans to be filled up as fast as possible with all kinds of trash which is not combustible. The ordinance likewise shall require each can to be hauled off every evening and emptied on the garbage pile outside the town limits, and not on the town property in the middle of the town, where if for no other reason, the thoughtless cow will eat them.

But how are we to have a thoroughly clean, sanitary town as long as the people are content to have the cow roam at will throughout the length and breadth of the city. In fact, if some of our good people could only see what the town cow eats and drinks they could not rest until something had been done toward draining and cleaning up the town lot near the public square.

It is a fact that in nearly every town where there is a vacant lot owned by the city we find those lots planted in trees and flowers. This adds not only comfort, but beauty to the town itself. Here we have two public lots which are vacant, one of these is nearly always covered with stagnant water wherein dwells the bull-frog and the lizard, while it also furnished a delightful birth-place for the cheerful mosquito. The other public lot remains covered with thorn bush and thistle, except where in the kindness of their heart the Baud has cleared off a spot large enough to build their stand. This was done not only for the pleasure it gives themselves, but perhaps in the dim hope that the town would

Officers of Virginia Press Association.

The Virginia Press Association, which was in session at Natural Bridge last week, elected the following officers for the ensuing year:

President, W. E. Addison, Lynchburg News; Vice-president, C. B. Cooke, Richmond Journal; Secretary, J. L. Hart, Farmville Herald; Treasurer, E. E. Mosley, Danville Methodist; Historian, Bertha G. Robinson, Orange Observer; National Committee, Clarence J. Campbell, Amherst New Era; Delegates to National Editorial Association, J. C. Hemphill, W. S. Soperland, A. S. Morton, A. H. Clements, J. A. Whitman, R. A. Anderson; Executive Committee, A. P. Rowe, C. D. Denit, G. O. Green, H. R. Mills, Allen Potts.

build a fence to keep the herds away and perhaps lay a walk by which the music-loving public can reach the place where concerts can be had and enjoyed free of charge.

There is another proposition which need attention and which should not be neglected, to wit: A concrete walk from the city to the cemetery. There are very few of our people who have not some friend or relative laid to rest in our beautiful cemetery. There should be by all means a good and substantial walk laid up there by which all may go at will to drop a tear or a flower on the silent grave. This, of course, is an expensive item, but there is a means by which this can be done if our people will realize the importance of such an improvement.

We hope these suggestions may do some good and that others will come forward with their views expressed as they feel them, and thereby create a wholesome sentiment in our midst which will lead to the accomplishment of things most needed for the improvement of our little city. Let it be a fact that we not only know and feel that the civic conditions are what they should be, but even the stranger will recognize that we are active and alive to all improvements tending to make our town one of the leading towns in Virginia.

Fight Hard on Tariff on Sugar.

Washington, July 18.—Louisiana planters and producers of sugar made a determined stand on the tariff before the House Sugar Trust committee yesterday, declaring that a reduction of the sugar duties would ruin the domestic production of cane sugar and that free sugar would annihilate both the cane and beet sugar industries of the country, Chairman Hardwick, a Georgia Democrat, frankly disagreed with their tariff ideas.

"If you solons," declared Prof. W. S. Stubbs, former State chemist of Louisiana, "want to take the tariff off sugar, you must make up your minds in advance that you will kill the domestic sugar production. The big planters and refiners of Louisiana might manage to scrape up enough to start over again in some tropical country, but the small growers would be ruined. When you take off the tariff you may write our obituaries."

J. E. Burguiere, president of the Louisiana Planters' Association, declared that a cut in the tariff would kill the Louisiana industry upon which two million American citizens depended for a livelihood.

Drank Poison Because His Wife Left Him.

Bristol, Va., July 18.—Because his wife had deserted him, and, as he believed, for other men, William Sawers, for fifteen years driven of hose wagon No. 1, Bristol Fire Department, yesterday committed suicide by drinking half a glass of carbolic acid. He had threaten for two or three days to end his life if his wife did not return to him, and is said to have so notified her over the telephone. Sawers was about thirty-eight years of age and a native of Virginia. He awoke and fed the fire team at five o'clock yesterday morning, as had been his custom for years. He then aroused members of the company who were to leave on the early trains. Shortly after six o'clock he was heard groaning in agony, and when members of the company reached him he explained what he had done and told the purpose. His wife and son, the latter aged sixteen, were summoned by the telephone and were soon at his bedside. In spite of all that physicians could do, Sawers died at ten o'clock. His body was buried at Glade Spring beside the grave of his mother.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer \$100 for any case it fails to cure. Send for circulars and testimonials.

Murder in Wise Arouses the People.

Bristol, Tenn., July 20.—Residents of St. Paul, Wise county, have posted a reward of \$500 for the capture of a man named Pippin, who shot and killed C. C. Williams, of that community, last week. Pippin, who had recently returned from Texas, asked Williams for a drink, it is said, and when the latter told him he had nothing to drink, Pippin shot him dead. The citizens are wrought up and Pippin probably would be in danger of violence if caught.

Girl Bitten by Snake.

Christiansburg, Va., July 17.—While picking berries on her father's farm a short distance from town last week, Miss Hester Proffit, daughter of Mr. C. E. Proffit, was bitten by a large copper head snake. With great presence of mind Miss Proffit corded her foot until she could reach her home, and this, in the opinion of the attending physician, saved her life.

Death of Mrs. C. A. Miller

Mrs. C. A. Miller, wife of the late D. C. Miller, died at her home here Sunday evening about seven o'clock after a short illness. The deceased was seventy years of age, a most estimable woman and a devout member of the Presbyterian church. She was a forceful character of more than ordinary intelligence, noted for her many sterling qualities of both mind and heart. She will be missed in her church and by many friends who admired her strong character and motherly affection.

She is survived by three sons and three daughters: Prof. Phipps Miller, of Memphis; Mr. J. S. Miller, of Portsmouth, and Mr. D. C. Miller, now of the State of Michigan, and Mrs. Kate and Mary Barksdale, of Norfolk and Roanoke, respectively, and Mrs. Sallie McClure, of Rogersville, Tenn. All members of the family were present at the funeral service except her youngest son, Dan, who could not be reached by wire.

The funeral was conducted from the Presbyterian church Tuesday at 10:30 a. m., by her pastor, Rev. M. M. McFerrin, assisted by Rev. Dr. J. J. Scherer, after which the remains were taken to Round Hill cemetery and laid to rest. The floral decorations were profuse and beautiful.

Marion has lost one of her truly good women and she will be missed from the walks of life. The News joins many friends in extending sympathy to the bereft family.

Center of Population.

Washington, July 18.—The center of the population of the United States is four and a quarter miles south of Unionville, Monroe county, Ind., according to a census bureau announcement. Since 1900 when it was six miles southeast of Columbus, Ind., it has moved thirty-one miles westward and seven-tenths of a mile northward. The westward movement was more than twice that of the 1890-1900 decade. This acceleration of the westward movement is attributed by census officials principally to the growth of the Pacific and Southwestern States. The geographical center of the United States is in northern Kansas, so that the center of population, therefore, is about five hundred and fifty miles east of the geographical center of the country.

Death of An Infant.

William Ellis Snider, infant son of Mr. and Mrs. Archie C. Snider, died at the home of its parents in Marion Monday. He was but ten months old, though he was so young he was a very bright, attractive and sweet child, the mortal illness of children is very distressing indeed. But we must be submissive to the will of the Lord, for His will is supreme. It is so hard for loving parents to give up their dear children, yet we should always remember that the Saviour said: "Suffer little children to come unto me, and forbid them not, for such is the Kingdom of God." After appropriate services at Mt. Carmel church all that was mortal of this beautiful child was put away in the grave to await the resurrection from the dead. While the flowers which covered the grave will fade we rejoice that the spirit of this little boy lives where flowers never fade and life is his evermore. G. A. MAIDEN.

Alleged Mix in Russell Co.

Lebanon, Va., July 18 Editor The Roanoke Times:

On last Thursday the court adjourned to give Browning, the Russell county treasurer, an opportunity to procure the attendance of Harry L. Kidd, the chairman of the Democratic party and two other prominent Democrats as witnesses in his behalf, in the case against him for failing to list voters who had paid their poll taxes. Mr. Browning, in Saturday's and Sunday's issues of several of the leading papers of the State advertised for information concerning the whereabouts of Mr. Kidd, and also, employed a detective in Philadelphia to go to Atlantic City to see if Mr. Kidd and Mr. Samuel Aston were at that place, he having learned that they had gone there to attend the Elks' convention. The detective found that they had been at Atlantic City, but left for New York on the 13th. Nothing has been seen here of any of the said witnesses, and the defense claims that they have left the State to keep from testifying.

Counsel for defendant claim that the whole proceeding is a perfect farce if their client cannot procure the attendance of witnesses necessary to prove his case, it will be useless to further proceed in the matter. They further contend that the provisions of both the statutes of the State and Constitution authorizing the judge in vacation to hear and decide the matter of correction of the treasurer's list, with reference to whether a man has or has not paid his poll tax, by necessary implication makes it the duty of the court to hear witnesses, and by further implication gives the court the power to summon witnesses and swear witnesses and conduct the proceeding in accordance with ordinary common law practice.

The case has excited, and is still exciting, great interest in the county, and the Judge's ruling on the point now before him is awaited with great interest. G. L. TAYLOR.

Ridge Dale Items.

Harry Horton, who has been working at Saltville returned home sick with typhoid fever.

Estel McGhee and Miss Susie Call, of this community, were united in marriage last Sunday by the Rev. Daine, pastor of Rich Valley circuit.

A large crowd—hundreds of people—sembled at Ridge Dale church last Sunday, and all enjoyed a treat—a sermon on prayer by Rev. G. W. Summers. After the sermon an appropriate selection of music was rendered—"God Will Hear and Answer Prayer," which was conducted by Prof. I. T. Moore.

A very successful Singing School is being conducted this week at Ridge Dale by Prof. Moore.

Miss Mattie Spence, of Chatham Hill, has been visiting relatives and friends here.

Miss Carrie Patterson has gone to Spratt's Creek to visit her many friends.

Linzey Bowling, one of our nicest young men, has gone to Bluefield, W. Va., for awhile.

The singing school at Ridge Dale will close next Sunday. All come and hear the choir sing. H. H.

One Snake in Another.

Bristol, Va., July 17.—Berry-pickers who killed a large black snake in a suburban field, announce that on serving that the snake was abnormal in size, they cut it open to find in its stomach a copper-head snake of average size. The presumption is that the black snake conquered the venomous reptile in a fight, then swallowed it. The copper-head was dead, indicating that it had been in the stomach of the black reptile for many hours.

Honest Medicines Versus Fakes

President Taft's recent message suggesting an amendment to the Pure Food and Drugs law in its relation to Prepared Medicines, does not refer to such standard medicines as Foley's Honey and Tar Compound and Foley Kidney Pills, both of which are true medicines carefully compounded of ingredients whose medicinal qualities are recognized by the medical profession itself as the best known remedial agents for the diseases they are intended to contract. For over three decades Foley's Honey and Tar Compound has been a standard remedy for coughs, colds and affections of the throat, chest and lungs for children and for grown persons, and it retains today its pre-eminence above all other preparations of its kind. Foley Kidney Pills are equally effective and ocherous. Carson Drug Co.

TESTED AND PROVEN

There is a Hoop of Solace in Being Able to Depend Upon a Well-Earned Reputation

For months Marion readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit. T. F. Wright, Chemist, St. Albans, Va., says: "I believe that Doan's Kidney Pills live up to all the claims made for them, if they are used according to directions. They have certainly proven to be an efficient kidney medicine in my home. I have taken them off and on for two years for a weakness and pain in my back and they have never failed to quickly remove my trouble. Before I got Doan's Kidney Pills at Carson's Drug Store, there were times when I could hardly get around on account of backache. Since I used this preparation, I have enjoyed much better health. I urge a trial of Doan's Kidney Pills to anyone afflicted with kidney complaint." (Statement given December 21, 1907.)

ALWAYS EFFECTIVE.

Mr. Wright was interviewed on Dec. 1, 1910, and he said: "During the past three years I have had occasion to use Doan's Kidney Pills about three times. I am glad to say that they have never failed to help me when I have taken them."

For sale by all dealers. Price 50 cent box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Kidney Diseases Are Curable

under certain conditions. The right medicine must be taken before the disease has progressed too far. Mr. Perry A. Pittman, Dale, Tex., says: "I was down in bed for four months with kidney and bladder trouble and gall stone. One bottle of Foley's Kidney Remedy cured me well and sound." Ask for it, Carson Drug Co.

You can do a lot with very little

Says the Little Paint Man.

Do a lot of "Brightening Up" in a very little time and at small expense. A pot of paint, a can of varnish and a brush and you soon make the worn floors clean and fresh, the old furniture bright and new, the dingy cupboards sweet and sanitary. Just look around the house, see what is showing wear and tear and come to us. We'll tell you what to use and how to use it. Here are a couple of suggestions.

YOUR FURNITURE:

Pick out the dingy pieces, give them a coat of Sherwin-Williams Floorlac Oak or Mahogany or whatever color you wish. What a change is wrought in a short time! Old chairs, tables, bedroom furniture no longer worn and shabby, but bright and new, and all at such a small expense. Just try your hand. With Floorlac you stain and varnish at one operation. Easy to apply. Ask us for color card.

YOUR CUPBOARDS:

The spotted, dusty cupboard shelves, the worn doors and outside, are changed indeed after a coat of Sherwin-Williams Family Paint has been applied. Family Paint is a durable oil paint, made in a variety of pleasing colors, for painting woodwork, cupboards and the hundred little things around the house that need a coat of good paint occasionally. It wears well, stands scrubbing and washing.

Don't you think there's something about your place that needs a little fixing up? Just consult us—we like to help folks.

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man doesn't feel just right, when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use **Dr. Pierce's Golden Medical Discovery**. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so gives **HEALTH AND STRENGTH TO THE WHOLE BODY.**

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little higher profit. Ingredient printed on wrapper.

Stubborn Case

"I was under the treatment of two doctors," writes Mrs. R. L. Phillips, of Indian Valley, Va., "and they pronounced my case a very stubborn one, of womanly weakness. I was not able to sit up, when I commenced to take Cardui.

I used it about one week, before I saw much change. Now, the severe pain, that had been in my side for years, has gone, and I don't suffer at all. I am feeling better than in a long time, and cannot speak too highly of Cardui."

TAKE THE CARDUI Woman's Tonic

if you are one of those ailing women who suffer from any of the troubles so common to women.

Cardui is a builder of womanly strength. Composed of purely vegetable ingredients, it acts quickly on the womanly system, building up womanly strength, toning up the womanly nerves, and regulating the womanly system. Cardui has been in successful use for more than 50 years. Thousands of ladies have written to tell of the benefit they received from it. Try it for your troubles. Begin today.
