

WM. C. PENDLETON, EDITOR AND PROPRIETOR.

Thursday SEPTEMBER 9, 1886.

FOR CONGRESS.

9th Congressional District,

Hon. Henry Bowen,

OF TAZEWELL COUNTY VIRGINIA.

OUR NOMINEE.

It is unnecessary for us to speak at any great length of our nominee for Congress, as he is well known to most of our people of the Ninth district. Four years ago he was the candidate of the Readjuster party and was triumphantly elected over two competitors of strength and ability. His high character as a man and well known fidelity to friends and principles made him formidable in that contest, and will prove of equal benefit to him and his party in the present political campaign. He stands upon the platform made by the Convention, which speaks the sentiments of a vast majority of the voters of this district. He is a true Republican and a true man. The efforts of certain Democratic papers in the district to disparage Capt. Bowen can do him no injury, but only detract from the character of those who make their dirty little flings at him, provided the scurrilous writers have any character to lose. No stronger evidence of the hold which Bowen has upon the confidence of our people could be given than the enthusiastic sentiment which displayed itself at the recent Convention which nominated him. It was spontaneous and not worked up sentiment, encouraged by Mahone, as our political foes would try to make persons believe. The Republicans have absolute confidence in the integrity, courage and strength of our nominee. The Democrats will say ought that reflects on him personally.

We believe that Bowen will carry the district by a handsome majority; and in the next House of Representatives will reflect the wishes of his constituents by advocating and aiding in the passage of the great measures referred to in our platform. Let every Republican, and every man in the district who is for the Blair Bill, the repeal of the Internal Revenue and a Protective Tariff go to work and help swell the majority for Bowen.

HOW TO DECIDE.

It is admitted by all persons of both parties that a vast majority of voters of this Congressional district are decidedly in favor of the Blair Educational bill, for the repeal of the Internal Revenue laws and the protection of American labor and industries. You rarely meet with a voter who does not so express himself, and who declares his purpose to vote only with the party that is for these things. This being so, it seems to us that our people will have but little difficulty in determining which party they will co-operate with in the future and which of the Congressional candidates they will support.

It is true that Maj. Henry has been placed upon a platform that pretends to be in favor of the Blair bill and the other measures that are of such deep interest to the people of this section, but it is also true that the National Democratic party is opposed to them and that Maj. Henry stands pledged to the platform of his National party. We do not find the Democrats of any other State making platforms that declare for the Blair bill or for a Protective tariff, upon the contrary we see such Democratic States as Texas, Alabama, Tennessee and Missouri speaking out boldly against them. There can be no doubt that the Democratic party, as a National organization, is opposed to the Blair bill, the repeal of the Internal Revenue and a protective tariff. Henry is a National Democrat, declaring himself as standing squarely on the National platform, and will unmistakably act with his party, if elected to Congress, upon these important questions. The Hon. Henry Bowen is a National Republican, is for the Blair bill, for the repeal of the Internal Revenue laws and for a protective tariff. He has been placed by the Republicans of this district upon a platform that is

in entire accord with the National platform. The National party stands pledged to the very things our people most desire and Bowen is the candidate of that party. Now is there any trouble in deciding who you will support? If you are for the Blair bill, against the Internal Revenue and for protecting American labor will you be deceived by the Democrats of the Ninth district, who run their candidate on a Republican platform, or will you vote with the party that advocates the measures you are for both in National and district platforms?

The earthquake was a blessed boon to the Republicans. They can utilize it in their platforms as one of the evils brought upon the country by a Democratic administration. By adding it to the droughts, cyclones, freshets, and other disasters that have befallen the country and cut short the crops, they will be able to frame quite a formidable indictment against the Democratic party.—Rich. Whig.

We are astonished that a journal so dignified as the Whig will resort to such a cruel and heartless effort at humor as the above. There is no need for the Republicans to call to their assistance the sad afflictions which a mysterious Providence has placed upon our country. The crying evils against the Democratic party are quite enough. Its false promises and utter disregard of the best interests of the people are more than is necessary, to say nothing of the stupidity that prevails in the ranks of the Democracy.

JACOB YOST, Esq., the Republican nominee of the Republicans and Capt. James Bumgardner, the Democratic candidate for Congress in the Tenth district had a joint discussion at Lexington on Monday. The Democratic papers say that Mr. Yost presented his side fairly and forcibly, but that Bumgardner got the best of the discussion. This statement must be taken with considerable allowance as the Democrats called on Rau Tucker to speak after the discussion was closed. They evidently wanted him to close the gaps that Bumgardner had left open.

SOME of the small Democratic papers of the Ninth district call Hon. Henry Bowen a "dead head" and "dead beat." The men who write such stuff are entirely ignorant of the character of Capt. Bowen or are ignorant of the meaning of the words they use. The people of the Ninth district will rebuke such ignorance and coarseness.

O'FERRELL, the braggart, declined to meet Gen. Koller, Independent candidate for Congress, in joint discussion at Charlottesville on last Monday. Koller is a Democrat but in sterling worth is vastly the superior of O'Ferrell, who is nothing more than a cheap demagogue.

THE Democrats promised the farmers of the country cheap goods. The farmers listened to them and behold the result, the most ruinous prices for farm products that have ever been seen in the country.

ARE you against the Blair Bill? If so, vote for Henry. His party is against it, and he will go with his party.

THE Democratic party promised better times, if it was placed in power. How about the better times?

DEMOCRATIC success means continued ruin to the industrial interests of the country.

THE Republican party is for the Blair Educational Bill. The Democratic party is against it.

ARE you for the Blair Bill? If so, vote for Bowen. He is for it and so is his party.

Capt. Sol Jacobs, of the fishing schooner Mollie M. Adams, reports a great commotion in the sea off Halifax on Tuesday night last.

The Democratic convention for the Third Texas congressional district was in session four days and balloted 600 times before united on C. B. Kilgore.

The Brotherhood of Locomotive Engineers, at a meeting in Scranton, very decidedly indorsed Grand Chief Engineer Arthur's policy, holding aloof from strikes inaugurated by other labor organization.

Miss Alice Broom was suddenly seized by a rabid mastiff at the threshold of her home, in Walker county, Ga., and was so severely bitten that it is feared she will die of her injuries.

George Taylor, a 'property' man attached to Doris' circus, committed suicide by shooting himself through the head near Eastville, Va.

A young man named Seymour, related to the late Gov. Seymour, has come to New York for legal aid to protect him from being returned to the Middlebury insane asylum, whence he recently escaped. He is said to be perfectly sane, but addicted to liquor.

The Terrified City.

Charleston Frightened with More Shocks.

A VOLCANIC SHOWER.

Two Showers of Pebbles—Agonizing Disappointment at the Continued Vibrations—Dead and Wounded.

A special report from Mount Pleasant, opposite Charleston, says that the sink near the German Church which was perfectly dry sand, is now full of fresh water. Near shellstreet there is a cabin occupied by a man that is completely surrounded by yawning chasms extending through the earth's surface for ten feet and over. All around this there are sinks of fresh water and masses of mud, with queer looking soft substances that have never been seen before. It is contended by many that the mud and other substances found around the village are volcanic matter.

Just after the first great shock on Tuesday night there was a decided and distinct smell of escaping sulphuric acid gas over the entire village. The smell lasted throughout the night. It was distinct in those localities where the cavities in the earth were most numerous. Some say that portions of the mud thrown up by the waterspots are strongly impregnated with sulphur, and that a small portion of sulphur can be found in the mud. Not far from Charleston on the road to Summerville extensive mounds of clay were thrown up, and the hillocks of sand, in most cases in the shape of an inverted cone, the hollow part of which had evidently been formed by the action of the water returning to the depths from which it had been raised. In many cases the erupted matter had streamed away from the breaks in the surface of the earth to a distance of twenty to fifty feet. In other places there were fissures almost invariably extending from north to south.

Charleston, S. C., Sept. 4.—The shock last night caused great alarm on account of the shattered condition of the nerves of the people. Those persons who had ventured back under their roofs hurried into the streets, which presented for a few moments as tragical appearance as on Tuesday night. But little actual harm was done by the shock. Two untenanted houses is reported to have fallen, together with a part of the coping of the Charleston Hotel. The vibrations during the shock were not especially great, but the moaning and howling sound was sufficiently alarming. Gradually the people had come to the conviction that the shocks were at end, and their disappointment was agonizing.

The sensation today is the falling of showers of pebbles in the lower part of the city. The first fall was at 7 o'clock this morning, and the second at about 11 o'clock. They appeared to fall in a stanting direction from south to north. There are morsels of flint among them, and all are abraded and worn by the action of the water. Some few have sharp fractures, and have evidently been recently broken. The fact of the fall is vouched for by several trustworthy persons.

Charleston, Sept. 4.—At 9:30 to-night another shock of earthquake of about five seconds' duration, the first of the day startled and shook up people. It was not so severe as the one of last night.

Columbia, Sept. 4.—Another very distinct earthquake shock was felt in this city tonight at 9:27, the vibrations continuing about fifteen seconds. The shock succeeded, as usual, in clearing all the large houses in the city of their occupants. The City Council to-night appropriated \$1,000 for the Charleston sufferers.

The official total of deaths is 33. The wounded will probably number 100. Business is still suspended, the whole attention of the people being given to providing for refugees and making residence safe. Bricklayers have advanced their rates to \$6 per day. The City Council will probably meet to-morrow to provide measures for reaching the poor. Expressions of gratitude are heard on all sides for the assistance offered to Charleston, of which the suffering people will gladly avail themselves. The corrected list of deaths will be given at 8:30 and 11:50 p. m., and 5 a. m. All were light. The confidence is gradually returning, but much apprehension is still felt. Prof. Mendenhall, who has made a study of earthquakes in Japan gives as his opinion that there will be more or less disturbances here for several days, and thinks they may possibly be so strong that buildings will be thrown down and that it will be inadvisable to occupy shaky houses for a few days. He anticipates that the salutary psychological influence will be felt for a long time, as the fear of danger will keep the mind upon devotion. Speaking of the instruments for foretelling earthquakes, so as to avoid danger he said that already one section of country was enabled to give warning of an approaching earthquake to another, but that there were no arrangements for disseminating the news of the danger, and, therefore, it was of little utility.

Farm and Garden.

Encourage toads in your hot-bed and garden. They will destroy more than their weight in insect pests.

Dust melon vines with Paris green or London purple to keep off the bug. Dust with one part of the powder to twenty-five parts of flour.

The trees can be protected from field mice by banking the trees up a foot or so with soil, and borers and rabbits can be kept away by wrapping the trunks for a foot above with tarred paper.

Frozen cream will not make good butter. Care should be taken to keep the milk room or spring house at an even temperature in winter as well as in summer.

Use a corn-stalk-knife to scrape hair off hogs. Scrape or pull, never shave the hair where you can possibly avoid it. When shaved the stubs remaining detract from the appearance of the meat.

Some people don't appear to know that corn stalks are worth almost as much as hay for cattle and horse food. What will your hay sell for? If you have none to sell, may it not be because you do not feed your corn fodder?

A horse is not fully matured until six years of age. Immature animals are often over-taxed and their future usefulness discounted. Young horses should not be worked too hard if they are expected to live to a good and useful old age.

The hogs should have undisputed way in the orchard during the fruit season, and they will eat up all the fallen and wormy apples, and hunt out many of the grubs, etc., which are injurious to the trees. In this way they destroy many of the enemies of sound fruit and sound trees, and in other ways greatly benefit the orchard.

Farmer Jones' Wise Sayings.

News comes apace. Every promise is a debt. No rose without a thorn. Every dog is a lion at home. That is gold that is worth gold.

A sin confessed is half forgiven. Every fool wants to give advice. There is no love without jealousy. All are not saints who go to church. Hatred renewed is worse than at first.

Never was a mewing cat a good mouser. There is no worse thief than a bad book.

What the eye sees not the heart sees not. Lip courtesy pleases much and coats little.

No one ever became poor through giving alms. Everything may be borne except good fortune. It is no honor for an eagle to vanquish a dove.

He is not a good mason who refuses any stone. On very small pretext the wolf seizes the sheep.

To make the cart go you must grease the wheels. Every fool is wise when he holds his tongue.

No one ever repented of having held his tongue. Nothing can come out of a sack but what is in it.

It is no time to play chess when the house is on fire. Hear, see, and say nothing, if you want to live in peace.
