VISITORS' WRITING ROOM

(NOT OFFICIAL)

GENEVA, July 14 192

Dear Mother & Father
I have been so busy
with lectures and work here
that I have not had a chance
to write -
I have watched the mails
& telegrams for word from
Miss Evans Daily - Everyone
said she would have ample
time to answer by now -
I am leaving for Munich
tonight - I have a very
uneasy feeling about it
because I should have
been glad to have gone
I hoped that even if the
Olympia address was too
much she would be in
a direction and get the
letters - However I shant
worry any more -
The Capitol of the World
is thrilling - On the first
night we went to the Woodrow

Wilson Memorial when the
League meets it is right on
the lake flows into
the Rhone a little below
the Gironde Woodrow Wilson
and there is an island
named for Rousseau who
was a citizen of Geneva -
according to the Calvin
Monument and the Reformation
Monument the Reformation
took place here alone
We were too busy to
get out to Chillon or
Madame de Staël but
went up to Mont Salève
on a cog railway and
got a wonderful view of
the whole Alpine range
I spent sometime with
M. Thelin a secretary
of the International Labor
Office whom I had met at
Bundapest. We went
to six lectures under Prof

of International Cooperation
among Intellectuals here.
One day Sir John Williams
they made it clear that the
Kellogg proposal makes it
possible for a nation to
say that any war is
defensive no is therefore
without teeth - Under it
Germany could have
violated Belgium. There
are more Americans here
than any other group - they
all seem to think that
there is no use saying that
we will ultimately want
to come into the League.
We went to call on
the Sec of the World YMCA
a very nice man.
No mail here from home.
all love
Clayton

July 14, 1928

Dear Mother and Father

I have been so busy with lectures and work here that I have not had a chance to write.

I have watched the mails and telegrams for word from Miss Evans Darley. Everyone said she would have ample time to answer by now. I am leaving for Munich tonight. I have a very weary feeling about it because I should have been glad to have gone.

I hoped that even if the Olympia address was too [illegible] she would be in a directory and get the letter. However I shant worry any more.

The Capitol of the World is thrilling. On the first night we went to the Woodrow Wilson Memorial when the league meets. It is right on the lake and Mont Blanc is in sight. The lake flows into the Rhone a little below the [illegible] Woodrow Wilson and there is an island named for Rousseau who was a citizen of Geneva.

According to the [illegible] Monument the Reformation took place here alone.

We were too busy to get out to Chillon or Madeau de [illegible] but went up to Mont Saleve on a [illegible] railway and got a wonderful view of the whole Alpine range.

I spent sometime with M. [illegible] a secretary of the international [illegible] [illegible] whom I had met at Budapest. We went to six lectures under Prof of International [illegible] [illegible] [illegible] here [illegible] [illegible] Sir John Williams. They made it clear that the Kellogg postal makes it possible for a nation to say that any way is [illegible] so is therefore without truth. Under it Germany could have violated Belgium. There are more Americans here than any other [illegible]. They all seem to thing that theres no use [illegible] that we will [illegible] want to come into the League.

We wen to call on the Sec of the World YMCG a very nice man.

No mail here from home.

All love

Eleanor
