VOL. XXV. NO. 46

MARION, VIRGINIA, FRIDAY, NOV. 27, 1914

\$1 PER ANNUM

Canada Expects to Send Over 250,000 Troops. Bryan to Leave Cabinet by March 4th.

Toronto, Nov. 24.—The second Canadian contingent will comprise 15,270 oficers and men, 4,765 horses, fifty eight guns and sixteen machine guns and will be ready to sail from Canada in January. A third Canadian contingent of approximately 25,000 men will be ready to leave for England early in March. Including the first contingent of 33,000 men the Dominion by Spring will have sent more than 70,000 men to the firing line.

The military authorities also have decided to keep 40,000 men under arms in Canada to serve as a base of supply for the contingents at the front. As the British war office has informed the Dominion that reinforcements should be provided for at the rate of 25 per cent. per month, instead of on the smaller basis of 70 per cent. per annum as at first was anticipated, it will mean a drain on the numbers recruited for reinforcing purposes of from 6,000 to 8,000 a month, with increases in proportion as the strength of the Canadian forces in the field is enlarged.

With a contingent being sent to England every two months, together with reinforcements, Canada expects to have placed between 201,000 and 250,000 men at the disposal of Great Britain by next autumn.

Ohio Drys to Come Back.

Cleveland, O., Nov. 23.—Badly defeated in the State elections November 3d, when Statewide prohibition was defeated and forty "dry" counties became automatically wet by the passage of the "home rule" amendment to the State Constitution, Ohio "drys" are already preparing to come back strong.

More than fifty villages and townships filed with the Secretary of State Friday petitions for elections under the new amendment which provides that any municipality or township may vote itself dry. Under the Rose law, which was repealed by the amendment, the unit of liquor legislation was the county.

Wayne B. Wheeler, chairman of the Ohio Anti-Saloon League, has already announced that the temperance forces contemplate a second attempt for Statewide prohibition at the elections next November.

Deaths Cut Down Pensioners.

The startling way in which deaths cut down the expenses of the United States pension office is shown by the recent annual report of Commissioner of Pensions Salzgeber. The report sets forth that in the fiscal year of 1914, \$7,958,572 less than the total appropriation for pensioners was paid. This fact is attributed to a number of economies practiced by the pension office and to deaths of pensioners.

The total number of pensioners was 785,236, a loss of 38,639 from death during the year. Since 1869 the government has paid out \$4,663,000,000 for pensions. The largest amount ever paid for pensions was paid in 1913. There was a decrease of more than \$1,000,000 in the past year. From now on an annual decrease in the amount paid out by the government is to be expected. The average age of the pensioners of the civil and Mexican wars is 70.7 years. The oldest pensioners are 94 years of age, and there are fourteen of this age.

Abingdon Man Slain.

As an outcome of an alleged drunken brawl in the Kuobis just south of Abingdon, Will Dinkins, aged about twenty-three years and said to be unmarried died Wednesday afternoon at the Abingdon Hospital from a bullet wound through his body, the shooting said to have been done by one Will Osborne, who has departed for parts unknown, going in the direction of North Carolina, leaving an unserved warrant in the hands of officers in Abingdon. At this writing no particulars of the affair leading up to the shooting can be learned there appearing to have been no witnesses. Dinkins was shot in the right side the ball piercing his liver and ranged upward coming out through his left lung passing completely through his body and appears to have been hit on the head with a rock.—Abingdon Republican.

New York, Nov. 23.—A Washington dispatch to the New York Herald says: From a usually well-informed Democratic source the Herald is informed that William Jennings Bryan has decided to retire from the Cabinet on or about March 4th next.

Though the Herald has no official confirmation of this report, credence is given it because it is from a source, so far as can be determined, where no ill wish to Mr. Bryan could be parent to the thought. No suggestion of a schism with President Wilson contaminates the report, and the initiative for this change in the Cabinet is said rather to lie with Mr. Bryan than with the President.

Mr. Bryan is desirous of being relieved from the wearing routine of executive duties which have become vastly magnified in the State Department by the European war. The suggestion of the Herald's informant was that Mr. Bryan will leave the Cabinet "to go to the loins of Democracy" for the battle of 1916, a task to which Mr. Bryan referred in the last issue of the Commonwealth.

Burned to Death.

Bristol, Va., Nov. 24.—News was received here this morning of the burning of two small colored children in a cottage adjacent to "Washington" prings Hotel, in Washington county, Virginia. The mother of the children, one aged 8 years and the other a baby, is Mrs. Willie Johnson. She was employed in the hotel and had left the children alone in the cottage. Fire broke out while the mother was engaged in her duties at the hotel, and before assistance could reach the scene, both children had been cremated.

Mrs. Chas. Rambo, of Friendship, died at her home there on Tuesday of last week.

It will cost the sender or the receiver of telegrams one additional cent on each message sent prepaid or received collect, after Dec. 1. On that date the stamp tax of the recently enacted federal war tax measure will become effective.

The latest government crop report for Virginia gives the estimated corn yield for this State during 1914 at 40,300,000 bushels and the present price as 86 cents per bushels. This is something over ten million bushels less than the yield for last year.

Miss Annie, eldest daughter of Mr. and Mrs. J. D. Kent, of Glade Spring, was united in marriage at the home of her parents in that place last Wednesday to Mr. R. E. Ingham, of Richmond. "Sleepy Tom" Clark, of Abingdon, the prophet, poet and preacher, passed through Independence Friday last, being en route to Grant, and other points in the west end of the county. Uncle Tom was on a sort of horse swapping trip, and had with him three "nice" fillies to offer the trade. Uncle Tom predicts that the world will come to an end on May 2nd, next.—Grayson Journal.

R. M. Hagy, special employee, of Roanoke, and Deputy Marshal Stamper captured a still near Fairwood last Saturday morning about daybreak, but the owners had flown. The still had evidently been in operation a few hours before the arrival of the officers as the fire was still burning. The capacity of the still was 39 gallons and it had been made from two galvanized zinc tubs and a dishpan. Twenty gallons of beer were destroyed. The still was cut to pieces by the officers.—Galax Post-Herald.

A Triple Wedding at Bluff City, Tenn.

Bristol, Va., Nov. 23.—Cupid won a notable victory in his conquest of pretty girls when in the picturesque little river town of Bluff City, Tenn., ten miles south of Bristol, three pretty sisters became brides. The triple wedding was solemnized in the Methodist church at 1 o'clock Thursday afternoon, when, with one ceremony, the Rev. Walter Worley united six souls in wedlock. It was the most unusual social event witnessed in this region within the memory of the oldest inhabitants. The wedding had been arranged for only within the past few days, and the plan was made public only three days in advance of the event. Wide interest was aroused, and as a result, the church was thronged with guests from Bristol and the surrounding country.

The young ladies who became brides were Misses Lucy, Maxie and Mary Denny, daughters of J. W. Denny, a highly esteemed citizen of the community. The brides range in age from 17 to 21. The triple ceremony bound the young couples as follows: Miss Lucy Denny to Charles Worley, Maxie Denny to Wilbur Hammer, and Mary Denny to R. S. Patton. Mr. Worley is a young lawyer and a brother of State Senator J. Parks Worley, of the Second Tennessee district. Mr. Hammer is a young merchant of Bristol, and a son of former Postmaster G. T. Hammer. Mr. Patton is a highway contractor, of Marysville, Tenn. The bridal couples came to Bristol following the ceremony, and all left on the first train for a bridal trip South.

France is Buying Many Horses in America.

Washington, D. C., Nov. 24.—"The French government, it is said, will shortly be in the market in America for 300,000 horses," said Jules Pelletier, of New York, at the Raleigh.

"The chances are that the United States will place an embargo on the exportation of horses, and it is said the President, upon the reassembling of Congress, will recommend the passage of a law prohibiting the exportation of all breeds of horses, because the time has come when the United States Army finds great difficulty in securing remounts and artillery horses to supply the needs of this country.

"A great many dealers have purchased horses by the thousand, with the idea of selling them to the English army, and a number of them were brought from the Southwest to the New England States for inspection, with the result that several thousand were rejected and are now in those States quarantined on account of the regulations regarding the foot and mouth disease.

"It doesn't matter much whether the foot and mouth disease places an embargo on horses, because there is no gaining that before long the Government will find it necessary to check the exportation of animals for the simple reason that our own requirements make it necessary to keep them at home."

Through the Union Stock Yards of Richmond a large order for horses is now being filled for the French government. The order is said to be for 7,000 or more head. Shipments are expected to go by steamer from Newport News.

H. C. Stewart, of the Richmond district, in Wise county, reports the raising of 93 bushels of corn on one acre at a cost of 10 cents a bushel.

Southwestern Hospital Submits Report.

The twenty-seventh annual report from the Southwestern Hospital at this place was submitted to Gov. Stuart at Richmond last Thursday. The report shows that during the past fiscal year there was a total of 971 patients in the institution; that of these 74 had been removed by death, others had been pronounced cured and that a total remained at the end of the year amounting to 721.

The total receipts during the year amounted to \$103,647.80. Of this, \$101,518.19 has been disbursed for expenses and improvements. There was a cash balance on hand at the end of the year totalling \$2,129.61.

Dr. J. C. King, superintendent of the institution, said his report that since the installation of the ward for the criminally insane, which was founded about twenty months ago, twenty patients had been committed to this department. Of this twenty, fourteen had upon examination been found perfectly sane, the inference being that they had faked insanity in order to avoid criminal prosecution.

Forty-Two Party.

Notwithstanding the deep snow and bitter winds, society was out in full force on Friday afternoon to attend the Thanksgiving party at the home of Mrs. P. R. Francis.

The guests were received by Mrs. Francis, Mrs. Fry, of Laurel Miss. Mrs. Harris and Mrs. Tarter, of Chilhowie, and Mrs. E. H. Henderson. The home was daintily decorated with chrysanthemums, carnations and potted plants. In the dining room Mrs. Cole, of Chilhowie, presided over the punch bowl, which was placed in a large pumpkin on the dining table, and surrounded with fruits and leaves. There were 15 forty-two tables, and the tallies were punched by Misses Virginia Fry and Bessie Mitchell. At the close of the game refreshments were served by Mrs. T. E. King, Mrs. D. D. Staley and Miss Haller Fell. Among the delicacies served were the following: Turkey, oyster patties, olives, pear pickle, sandwiches, celery, cranberry sauce, hot rolls, apples filled with fruit jelly, coffee, ice cream in the form of turkeys and pumpkins, cake with fancy icing and mints.

Corn Champion of Virginia.

Buchanan, Va., Nov. 24.—Master Kent Secret, of Buchanan, a member of the Botetourt County Corn Club, this year has grown 171 bushels of corn on one acre of land. The highest yield recorded in Virginia was 167 bushels, made by an Amherst county boy. This is also the highest yield ever recorded of a one eared variety, the variety being Boone county white. The larger yields in the South have been made with prolific varieties.

This boy followed the instruction of the department of agriculture as near the letter as possible. The corn was cultivated thoroughly about eight times and literally fertilized and matured. The net profit on the acre is nearly \$129 at the market price for corn.

Lawyers Want Their Fees.

In the World-News, of Roanoke, Saturday appeared the following: "A revival of litigation growing out of the now celebrated Browning versus Big Vein Coalhontas Coal Company and others' case is developed in an order entered by Judge McDowell in the federal court at Lynchburg, Tuesday, by which the receivers for the property are enjoined to keep within their custody, until further order of the court, the sum of \$25,250," claimed as attorneys' fees due Jackson & Henson, of this city, and T. C. Bowen. Judge McDowell's order was entered on a petition by the three attorneys setting forth that \$25,000 attorney's fees and \$250 expenses, which is regarded as equitable compensation for the legal services rendered during the long litigation, has not been paid, and that efforts to collect the fee from Mrs. Browning have proved futile.

Too Much Love.

There is such a thing as loving a bit too much.

James W. McNeil, of Philadelphia attempted a year ago to end his life so that his daughter might have the benefit of his \$25,000 life insurance. He failed. Now he is behind the bars because he embezzled from poor clients, "so that my daughter might finish her education at Bryn Mawr." As he was being led to his cell, the man asked: "Who wouldn't steal for a girl like my Orpha?"

Of course, McNeil's criminal streak is a criminal streak, Orpha or no Orpha. The strictly honest man who really loved his child would love her too much to leave her the heritage of a thief's daughter. No man who really loves, stains the names of those upon whom he would lavish his affections. McNeil's story is too thin. There lies in it not the slightest excuse. Even admitting his complete delusion in charity, the case is not materially changed.

Doubtless it is true, as said so often as to have passed into the language as an aphorism, that 75 per cent of men in prison are there because of some woman—but not because of love for some woman. Love doesn't work that way. And even with love—real love, pure love—there is always the emotional danger of there being too much of it. There is a red lantern hanging over the switch where emotions branch off into Hatred and Love. To him who ever is tempted: "Stop, Look and Listen."—Richmond Dispatch.

Prof. Jas. W. Blankenbecker, of Rocky Point, spent the week-end with friends at this place.

Mr. Walter Blankenbecker, formerly of this place, but now a resident of Washington State, is spending the winter with his mother.

Owing to the inclemency of the weather, the last meeting of the Oak Point Civic League had to be postponed. The next meeting will be held on Sat. night, Nov. 28. Piedmont Echoes.

It was on the broad blue water of the St. Lawrence River. The oldfisherman had the oars while the amateur, a young man, watched the line. "Play it for a bass" said the old man as the youth felt a nibble at his bait. "Oh! it's nothing but a minnow" said the latter with a discouraged tone. Suddenly a large black bass flung himself out of the water and the hook out of his mouth and darted off rejoicing. The young man looked sober enough. "Play everything for a bass" said the other with emphasis. The old fisherman has found the secret of success in fishing as in all of life's experiences. Everything must be played for a bass. In other words nothing can be accomplished worth while without enthusiasm; with enthusiasm all things are possible.

The Piedmont Graded School Building Committee met at the school house Saturday night, Mr. Pennington occupying the chair. A report from the canvassers was called for and it was found that nearly \$80 had been subscribed, although not much time had been devoted to the canvass. Wa. s and means were discussed. On resolution of the committee Mr. J. R. Dollinger was appointed superintendent of the building operations.

Stonewall Jackson Institute Goes Up in Flames.

Abingdon, Va., Nov. 15.—Fire discovered at 1:30 this morning totally destroyed the main building and the chapel of Stonewall Jackson Institute and at 3:40 the old Patterson church on the Institute grounds seemed doomed. A northeast wind blew the sparks from the burning buildings to other property and it is feared that unless the Bristol fire department, which was summoned and left for this at 3:15, arrives in time, the whole east end of the city may go up in flames.

WATER SUPPLY LOW

The situation is made worse since the water supply is low, and even with adequate fire-fighting apparatus the checking of the flames will be a serious matter.

The fire in Stonewall Jackson Institute originated in one of the lower parlors from supposed defective electric wiring, and was discovered by Mrs. McCue, wife of the Institute principal. The sixty girl students of the school were safely removed and are now quartered in the buildings of Martha Washington College.

FIRE DEPARTMENT HELPLESS

When the fire gained headway it looked as if Martha Washington College, which adjoins Stonewall Jackson on the west, was in danger, for the sparks were flying in every direction. A stiff breeze to the northeast however, removed this danger, only to transfer it to other sections.

The Abingdon fire department vainly strove to check the havoc the flames were working on the Stonewall Jackson Institute buildings, and when it was evident that other property was in danger, Mayor Crabtree telephoned to Bristol, Va., for aid.

BRISTOL FIRE COMPANY LEAVES

The Bristol, Va., fire truck and pumping apparatus left the fire hall at Bristol at 3:15 a. m. and is expected to arrive at 4:02. Since arrangements for a train could not be made quickly enough, Fire Chief Keller decided to bring the big truck by way of the pike roads, but the ordinarily easy journey will be made hard by the conditions brought about by the recent snow.

The Bristol, Va., fire department was augmented by volunteers from the Bristol, Tenn., department, who are coming by an extra automobile, which will make a total of 15 fire men coming here from Bristol.

Terry-Cyrus.

(COMMUNICATED)

Much interest was created when the announcement of the marriage of Florence R. V. Cyrus to William A. Terry on Wednesday, Nov. 18, at five thirty o'clock, was made. A prettier home wedding (colored) has never been witnessed before.

The parlor was beautifully decorated with white crepe paper and ferns. The ceremony was performed by Rev. H. L. Christmas, pastor of the Baptist church.

The wedding march was played by Josephine Richardson.

Florence has been a successful teacher in several schools in this and the Eastern part of the State, and is now teaching at Saltville.

William A. Terry is a native of St. Louis, Mo., and is a painter and plasterer by trade; also a comedian.

Both are to be congratulated.

They were the recipients of a large collection of presents from both white and colored friends.

Thanksgiving Service at St. James Church.

On Thursday at 10 A. M., pursuant to an announcement, a Thanksgiving Service was held in St. James Lutheran Church three miles south of Chilhowie. A good audience was present, representing several neighborhoods. The service was conducted by Rev. Dr. J. B. Greiter, pastor of the church. Mr. D. D. Cole, of Riverside opened the meeting with an appropriate scripture reading. After songs and prayer by Mr. H. B. Copenhaver, Mr. Greiter presented R. A. Anderson, of Marion who delivered the address for the occasion, after which the pastor made appropriate closing remarks. An offering was then taken for the Orphanage at Salem, Va. This was unique in some respects, in that it consisted of sacks of grain, wheat and corn, live fowls, pigs, groceries, boxes of provisions and cash; in all valued at about \$60. All this abundance of substantial was brought forward by the boys and girls and strong men and placed on the altar of the church the chancel of which was beautifully and appropriately decorated, with sheaves of wheat, corn, pumpkins, fruit etc. After the offering was deposited, the boys and girls of Sunday school each one carrying a sheaf of wheat, marched through the aisles of the church to the music of "Bringing in the Sheaves," which was rendered at the same time by the choir and audience. This was a most impressive conclusion to the service and taught a beautiful lesson, which will bear fruit, especially to the young people of that community. The editor of The News, after the conclusion of the impressive service, in company with Dr. Greiter, was driven by their host, Mr. H. L. Bonham, to his beautiful home at Chilhowie where an elegant Thanksgiving dinner was enjoyed. Altogether the day was a pleasant one and we believe much appreciated by the good people of that community.

Senator B. F. Buchanan went down to Damascus Thursday and delivered a Thanksgiving address in the Lutheran church at that place.

Mr. Henderson Carter, son of D. L. Carter, who has been at Tilden, Neb. for the past 12 months, has returned to his home near Chilhowie and will reside there in the future.

Marion Wins.

The High School girls of Abingdon met the local High School team here Thursday afternoon in an exciting and well played game of Basketball. About two hundred enthusiastic Marion people witnessed the game which resulted in a score of 26 to 8 in favor of the home team.

The work of Misses Pratt and Culbert, of Marion, and Miss Hayter deserves special mention, as does also that of Misses Anderson and Fry at guard, and Crenshaw at center. The work of Miss Culbert at forward was especially good, getting ten of the thirteen goals for Marion. The line up:

Abingdon—Forwards, Misses Virginia Goebel, Mary Hayter; guards, Misses Jessie Nindner and Gladys Hayter; center, Miss Crenshaw. Marion—Forwards: Misses Josephine Pratt, Willie Culbert; guards, Misses Wynona Anderson and Virginia Fry; center, Miss Elizabeth Atkins.

Referees, Misses Helen Speer, of Marion, and Miss Calloway, of Abingdon.

Chilhowie Correspondent to Glade Spring Vidette says:

It is a real, genuine pleasure to report that double-header game of basket ball played here last Friday, Chilhowie vs. Marion. When we say double-header we mean the boys of the high school here went up against the boys of the Marion High School and likewise the Chilhowie lasses played the Marion lasses. There was more snap and glunge and more clever plays in the boys' contest than in any game ever played here. Every man on the team did good work, but Carter, Cheeks and Beattie were the fellows who featured in the game.

The Marion girls had easy in their contest for the simple and obvious reason that they were far better trained in the first place and in the second instance were properly dressed to play a game of basket ball. We undertake to say however, that if the Chilhowie girls will practice now and dress for such contests they will have a good show to win out next time. A hint to the wise is always sufficient.

Leonard Bros. Win Road Suit

Judge Campbell came up from Abingdon last Saturday and held the final session of court for the November term. Among the decisions handed down was the dismissal of the application of R. L. Dungan, T. The Court also appointed land assessors for 1915 as follows: Henry L. Tilson for Marion District, Joseph S. Roberts for Rich Valley District and Levi M. Cole for St. Clair District. Thanksgiving.

In the twilight of November With its foliage of gold, Comes again the glad Thanksgiving With its customs dear and old; And beneath the starry banner As it floats from sea to sea, We a happy Nation gather, Pears at rest for all are free,

Aye, from mountain unto mountain, 'Neath the Union's azure dome; To the feast we spread this Autumn Bid the absent welcome home; Round the board where all are merry Let the richest sunlight play; With the love-key of Thanksgiving Over every heart today.

THINK THIS OVER. Illustration of a man with a large head and a small body, looking thoughtful.

You can get the same value for more money;

You can get less value for the same money,

But you can't get the same value for the same money that you pay for Griffon Clothes.

Think it over; it then make us make good!

TIME FOR DIGGING POTATOES

Crop is Important One and Farmer Should Not Be Compelled to Buy Them for Table Use.

Where potatoes are very dirty when taken from the field, some growers wash all the soil off them. Others maintain that it ruins their flavor and palatability. They are certainly far cleaner and more desirable to handle when the hose has been turned on them, and the clinging, hardened dirt washed off.

If the ground is fairly dry when they are dug, and if they are allowed to take the air and the wind for a while, they will usually be clean enough to do without washing. There is every reason for digging them during such weather conditions.

Potato digging should be made a sort of an odd job, one that can be done at any time when there is nothing more pressing to do. The potato crop should be an important one, and any farmer who is forced to buy potatoes for table use should look upon himself as temporarily disgraced.

Enough potatoes are spoiled every year by careless digging to feed a city of the second class for twelve months. Only in communities where the potato is the main and staple crop is there any real care shown in digging and handling this very important food crop.

Something More Needed.

It used to be a standard Democratic joke to predict that eventually the Republicans would claim credit for the big crops. And that is just what the Democrats are now doing themselves. They are proudly calling attention to reports of prosperity coming from the West, nearly all of them based on the bountiful harvests. No doubt the agricultural products will swell our export receipts, but a way is yet to be devised to make them swell the stomachs of the idle factory hands.

CLIPPING THE CLOVER BACK

Good Farming Not to Allow Plant to Produce Seed Year It is Sown—Cutting Off Bloom Helps.

When a good stand of clover has been secured by sowing a nurse crop, when it has passed safely through the critical period and this crop has been removed, if the conditions are favorable, red clover, alsike and mammoth are all likely to attempt to produce a seed crop the year they are sown, says Wallace's Farmer. We have seen times, when conditions were very favorable, when a crop of hay would be secured from the spring sowing, and in one case we know of, some years ago, both a crop of hay and a crop of seed were produced.

This would naturally convert this biennial into an annual, and it would be interesting to know just what happens to that field the next year. Our belief is that it would act exactly as a two-year-old clover after a crop of hay and a crop of seed has been secured the year after it is sown. We do not think it advisable to permit clover to produce seed the year it is sown. It would undoubtedly weaken the stand, as a stalk that has produced seed has served its purpose and will be very likely to disappear the next year.

We found out by experience that by clipping our clover back, that is cutting it off high enough simply to take off the seed heads, we secure a much better stand the next year. Therefore, we think it is good farming not to allow clover to produce seed the year it is sown. Care should be taken to do this clipping just at the right time, and to set the cutter bar high enough so as not to injure the plant.

WHEN THE TIRED MOTHER GIVES OUT

What Then?—The Family Suffers—The Poor Mothers Suffer—Mrs. Becker Meets This Distressing Situation.

Collinsville, Ill.—"I suffered from a nervous break-down and terrible headaches, and was tired all over, totally worn out and too discouraged to enjoy life, but as I had four in family and sometimes eight or nine boarders, I kept on working despite my suffering. "I saw Vinol advertised and decided to try it, and within two weeks I noticed a decided improvement in my condition and now I am a well woman." —Mrs. ANA BECKER, Collinsville, Ill.

There are hundreds of nervous, run-down, overworked women in this vicinity who are hardly able to drag around and who are sure would be wonderfully benefited by Vinol as Mrs. Becker was.

The reason Vinol is so successful in building up health and strength in such cases is because it contains the medicinal tissue building and curative elements of cod's livers together with the blood making, strengthening properties of tonic iron. We ask every weak, nervous, run-down man or woman in this vicinity to try a bottle of Vinol on our guarantee to return their money if it fails to benefit.

Despondency Due to Indigestion.

It is not all surprising that persons who have indigestion become discouraged and despondent. Here are a few words of hope and cheer for them by Mrs. Blanche Bowers, Pa.—"For years my digestion was so poor that I could only eat the lightest foods. I tried everything that I heard of to get relief, but not until about a year ago when I saw Chamberlain's Tablets advertised and got a bottle of them, did I find the right treatment. I soon began to improve, and since taking a few bottles of them my digestion is fine." For sale by all dealers.
