

Record for June Brides.

New York, July 12.—The June brides were never so numerous in New York city as this year. Figures in the marriage license bureau show that more than 6,000 licenses—6,059 to be precise—were issued in June, as against 5,728 in the same month last year, which was the high record until now.

Watch Your Kidneys
Their action controls your health. Read what Foley Kidney Pills have done for your neighbor. Mrs. H. W. Allen, Quincy, Ill., says: "About a year ago my kidneys began bothering me. I had a swelling in my ankles and my spells and later severe backaches. I was getting worse, when I began taking Foley Kidney Pills. I kept on taking them until I was once more freed of all kidney trouble and suffering. I have a great deal to thank Foley Kidney Pills for and shall always recommend them."

20 Million Cigars Daily.

There are twenty million cigars consumed daily in the United States alone, and the importance of the establishment in this country of plantations that can produce high grade Havana and Sumatra cigar wrappers, can only be realized when the immense total of the consumption of cigars is kept in mind. Looking at the matter from a practical standpoint, it seems singular that this country has depended so long upon the small districts in Sumatra and Cuba adapted to the production of this high grade tobacco leaf for its choicest brands of cigars; but it has seemed in years past absolutely impossible to produce anything to compare with it.—"The Charm of Alabama," Joe Mitchell Chapple, in National Magazine for July.

Changes Made in Virginia Revenue Office.

Danville, Va., July 8.—C. A. Heermans has taken charge of the revenue stamp office here permanently. G. M. Tucker has been promoted, taking charge of a division with headquarters in Lynchburg. There have been a number of changes in the service.

In Mr. Summers' district there were nine divisions; one has been cut out, there are now only eight.

C. M. Loutham, of Lynchburg, has been transferred to Staunton to relieve Harry Vorhees, who was stationed there.

Mr. Rucker's division is composed of Roanoke, Bedford, Campbell, Halifax, Pittsylvania and Mecklenburg counties, including the cities of Roanoke, Lynchburg and Danville.

Emory News Notes.

Emory, Va., July 8.—The fine rain that fell on the 4th gave our farmer folk the glad smile. The continued hot dry weather had begun to look serious indeed.

Mr. Will Buchanan, Jr., of Pearisburg, Va., was a social visitor in Emory Sunday.

"Uncle Ben" Campbell has almost completed his store and postoffice building and hopes to occupy same early next week.

Rev. French Wampler, Methodist minister from Mountain City, Tenn., visited relatives here on Wednesday night.

Quite a number of the Normal students, duly chaperoned by Prof. and Mrs. St. John, took a hay-ride in celebration of the glorious 4th. In the beginning they were all very dry and warmly patriotic. The party returned well-watered and with patriotic ardor considerably cooled.

Prof. E. M. Hunter, of the Class of 1909-10, who was in charge of Galax High School the past year, was on the campus Thursday. Mr. will be in charge of Dublin schools next year.

Prof. J. L. Hardin and Citizen J. E. Weaver left for Ashe county, N. C., this week, for a visit with relatives, for recreation and on business.

Former Student Frank Kelly is on the campus visiting his brother, John A. Kelly, who is here studying French and giving private lessons in German during vacation.

On Tuesday night an illustrated lecture on the "progress of public schools in Virginia during the past few years," will be given by Mr. J. H. Binford and State Examiner of Schools, Shewmake.

Prof. Willoughby Reade will deliver a lecture here on Wednesday night of next week. His work will be in humorous vein.

A new piano to be used in the music department of the Normal arrived here Thursday night.

Miss Stella Waters, of Manassas, Va., is here this week presenting the Aldine method of teaching reading.

President Chas. C. Weaver spent the greater part of this week in the interest of the College in Radford and Pulaski districts.

Meedames Chas. C. Weaver and J. R. Hunter attended the Missionary meeting at Bristol Thursday and Friday of this week.

Prof. McChesney is sparing no legitimate means to make the Summer Normal at this place attractive. The cultural and social features are not being neglected, and all who come with an aim at improvement cannot help being benefitted in every respect. That these institutes are of great value to teachers in any department of our public schools is unquestioned by any who desire to do effective service in the course of modern education. College graduates should be required to take these courses yearly before being eligible to principalship in our high schools.

Worked His Game Once Too Often.

Mr. C. W. Heuser, who is in town this week on business with his jewelry firm, Heuser & Patterson, is nursing a badly injured thumb as a result of a scuffle with a bold robber in his Wytheville store last week.

A young man named Lee Crigger, went into the store and asked to look at some watches which were shown him by Mr. Heuser. By a skillful manipulation of his fingers, Crigger had gotten one watch up his sleeve and in his coat pocket and was in the act of appropriating another in a like manner when he was detected by Mr. Gibbooney, a clerk in the store, who grabbed Crigger and with Mr. Heuser's aid the man was overpowered and the watches recovered.

Crigger asked to be released and said he would not run, but as soon as the hold was loosened on him he bolted for the door and down the street. He was pursued, however, and captured after being chased more than a mile. For this offence Crigger was given four months in jail.—Southwest Times.

Bishop Hoss Opposes Bill.

Washington, July 10.—The Tennessee delegation in Congress is with Bishop Hoss in his opposition to the bill introduced by Senator Martin, of Virginia, appropriating \$25,000 for the erection of a monument to General William Campbell, at Abingdon, Va. While in Washington last week the bishop dismissed the subject with both senators and members of the delegation, who agreed with him that John Sevier and Isaac Shelby, of Tennessee, were far more important figures in the battle of King's Mountain than General Campbell. The Senate Library committee has promised to give Bishop Hoss a hearing on the Martin bill before action is taken upon it.

In the opinion of Bishop Hoss, Sevier's home on the Nolachucky or Sycamore Shoals, on the Watauga, where the King's Mountain army was organized, are far more deserving of the monument than Abingdon, Va., if it is to be erected by the Federal government.

It is Going the Rounds.

Out of every dollar, which the American consumer pays for farm products the farmer only gets thirty five cents. The same crowd which gets this sixty five per cent. rake off is behind the American Protective Tariff League, which is attempting to line up Ohio farmers to fight the Canadian reciprocity act.

The above is a sample of the prepared stuff that is going the rounds of "free trade" papers. It is a fraud statement throughout. Farmers know what is good for them. No one had to figure to them the disadvantage of such a deal. Farmers are no fools, even though they are some times called "clod-hoppers." They know a good thing when they see it, and are not slow to "hop on to it."

They know the difference between 40c and 90c wheat; they know the difference between 20c and 70c corn; they know the difference between 10c and 40c oats; they know the difference \$6 and \$15 hay; they know the difference between the Free-Trade prices and Protective prices on all they produce. It is nonsense to tell them that they only get "thirty-five cents on the dollar for their products." What consumers pay dealers is a different proposition altogether. The farmer does not sell direct to the consumer. He never did. He never will. He can't. He has tried it and failed. But he knows that he has prospered far greater under McKinley, Dingley and Republican Protective Tariff policies than in all his farm life before.—Greenville (O.) Courier.

One day while calling on Howe, the inventor invited her to use the machine on which he was working and she did so.

Collector L. P. Summers, of the Sixth Revenue district, with offices in Abingdon, has closed his records for the past fiscal year, with collections aggregating \$1,318,879.75. This is the largest record yet, and includes the amount collected on incomes, spirituous liquors, tobacco and cigars. In two days during June the collector took in \$90,000.

The Wise County Republican convention held at Norton last Saturday, resulted in the following nominations for candidates who will make the race for election this fall:

For Clerk, W. B. Hamilton, of Wise; Treasurer, R. V. Wolford, of Coeburn; Commonwealth's Attorney, G. W. Kilgore, of Wise; Sheriff, W. B. Addington, of Wise; Commissioners of Revenue—Eastern district—E. M. Addington, of Coeburn; Western district—Harvey Fletcher, of Norton.

When the fishing season opened this year local fishermen anticipated much fun as it was reported that Holston river was teeming with fish, but now it is said that angling is poor because all the fish are being destroyed by explosives. It is rumored that an attempt will be made at the next term of our court to indict a number of persons for violation of the law in this respect. The penalty provided by statute is \$20 fine and imprisonment until the fine is paid. There is a further statute which makes it unlawful for a non resident of this State to take fish in any manner from streams in Virginia except by rod and line, and the penalty for violation of this statute is a fine of not less than \$200 nor more than \$300.

Unknown Dead Man Missing Printer.

Bristol, Tenn., July 10.—Although the coroner's jury was unable to identify the body found here last Friday, the description leads to the belief that it is the body of John Whittington, a printer, who has not been seen here in two weeks, and who was disappeared.

Whittington was a grand son of Roderick Random Butler, who was a member of Congress from East Tennessee ten years. For twenty years Whittington had been in the grasp of the drink habit.

Returning from Funeral.

Mrs. Wexler, of Bristol, Thrown from Buggy and Killed.
Bristol, Va., July 8.—One of the saddest tragedies in the history of Bristol, occurred shortly before noon yesterday, when Mrs. Wexler, wife of a prominent coal dealer here, was thrown from a buggy and instantly killed. Her skull was crushed against the concrete paving.

Mrs. Wexler, in company with her daughter, Miss Sonna Wexler, and Miss Beulah Masengill, a friend of Miss Wexler, were returning from the funeral of Mr. Charles W. Umholtz. When nearing where McDowell street intersects Pennsylvania avenue, coming out of the former street, the left shaft of the buggy came loose from the harness and was dangling beside the buggy horse, a large spirited animal. Frightened at this, the horse started in a run and was soon beyond Mrs. Wexler's control. As the buggy turned into Pennsylvania avenue, the wheels struck a stone curbing, which threw the buggy with force to the west side of the avenue. The sudden jolt threw all the occupants of the buggy to the street, and Mrs. Wexler fell upon the concrete sidewalk, the back of her head coming in contact with the walk.

Mr. Wexler, the husband, was in the returning funeral procession and witnessed the awful tragedy. Grief-stricken, he and his daughter were sent to their home in a carriage.

Mrs. Wexler was formerly Miss Lena L. Cassell, and was born in Smyth county, Va., near Marion, Dec. 19, 1865. She was married to Mr. E. B. Wexler on Dec. 18, 1883, and was the mother of seven children, five of whom are still living. The children are: Mr. Henry B. Wexler, who is employed as one of the city's mail carriers; Miss Bessie, Miss Donna, Daniel and Georgia. She has been an active member of the Methodist church for twenty-eight years, and at the time of her death was an enthusiastic and prominent member of the First Methodist Episcopal church of this city, and was one of the most interested workers in the Ladies' Aid Society of that church. It was through the influence of this good woman that the church recently received \$1,000 of its subscription. There was no better Christian woman anywhere than she, and she numbered her friends by the hundreds who will join the grief-stricken family in mourning the sudden and tragic death of this good woman.

The First Step.

The Board of Supervisors at its meeting last Saturday discussed the question of permanent road improvement, and decided to investigate the feasibility of securing convict labor from the State with which to make the needed improvements.

If we have been informed correctly the State will furnish the convicts, board, clothe and house them, also paying the guards, and requires each county to purchase the necessary road machinery, tools and dynamite, and secure the services of a competent Supervisor who shall have charge of the road construction.

The Board as a whole favors securing convict labor if it can be had as above stated. The gentlemen of the board stated to us that a fund of about six thousand dollars would be available at an early date or as soon as the Court House debt is eliminated. Mr. Busic, the county treasurer, informed us that he thought the 1911 levy of taxes would remove this impediment.—Grayson Gazette.

Saving of Life by Safe Sane 4th Movement.

Chicago, July 8.—Revised figures on the number of deaths and injuries in the United States indicate the celebration of 1911 advanced a safer method of observing the 4th of July. Thirty-eight lives were sacrificed, and 1,128 were injured, compared with forty four and 2,436 injured last year, and sixty-two killed and 3,346 injured reported in 1909.

Seaton Allen, colored, had a hand torn off while attempting to fire a large cannon cracker on the Fourth at Roanoke. The member was literally torn to pieces.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer \$100 for any case it fails to cure. Send for circulars and testimonials.

Early Morning Fire. Early last Sunday morning the quiet of our town was disturbed by the cry of fire. It was soon discovered that the large store room of W. B. Jackson was on fire. Chop that had been stored away in the basement drew dampness and the excessive hot weather must have caused spontaneous combustion. When the fire was discovered the flames had begun to do their work. The joists and floor over the basement were in flames and well burned. Fortunately the water pressure was good and the flames were soon subdued. TESTED AND PROVEN

There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Marion readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit: T. F. Wright, Chestnut St., Marion, Va., says: "I believe that Doan's Kidney Pills live up to all the claims made for them, if they are used according to directions. They have certainly proven to be an efficient kidney medicine in my home. I have taken them off and on for two years for a weakness and pain in my back and they have never failed to quickly remove my trouble. Before I got Doan's Kidney Pills at Carson's Drug Store, there were times when I could hardly get around on account of backache. Since I used this preparation, I have enjoyed much better health. I urge a trial of Doan's Kidney Pills to anyone afflicted with kidney complaint." (Statement given December 31, 1907.)

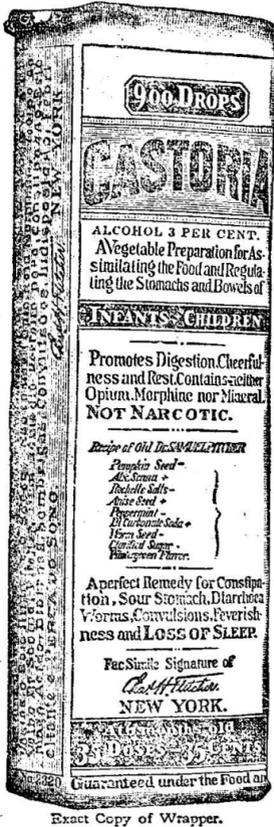

ALWAYS EFFECTIVE.

Mr. Wright was interviewed on Dec. 1, 1910, and he said: "During the past three years I have had occasion to use Doan's Kidney Pills about three times. I am glad to say that they have never failed to help me when I have taken them."

For sale by all dealers. Price 50 cent box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Mrs. Belle Yancey and Miss Nannie Bonham, of McMullin and Sugar Grove, respectively, were visiting their cousin, Miss Ginda Parks, last Sunday.

Mr. Jno. Heffinger passed through our town Monday evening with his new steel case thresh box, which all the Adwolfe people think is the best one they ever saw. He says that he is now prepared to give the people the very best service in the threshing line and would be glad to serve them this year.

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription
It Makes Weak Women Strong, Sick Women Well.

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 21 one-cent stamps to cover cost of mailing *only*, or, in cloth binding for 31 stamps.

Racing for White House.

New York, July 10.—A donkey and an elephant started from Coney Island several days ago in a race for the White House, intended to forecast to the world generally the result of the election in 1912. Several hundred followers of Democracy are giving their faith to the donkey, while the elephant has no fewer well wishers from the Republican camp. The trail leads through Trenton, Philadelphia and Baltimore.

Kidney Diseases Are Curable
under certain conditions. The right medicine must be taken before the disease has progressed too far. Mr. Perry A. Pitman, Dale, Tex., says: "I was down in bed for four months with kidney and bladder trouble and gall stone. One bottle of Foley's Kidney Remedy cured me well and sound." Ask for it, Carson Drug Co.

You can do a lot with very little
Says the Little Paint Man.

Do a lot of "Brightening Up" in a very little time and at small expense. A pot of paint, a can of varnish and a brush and you soon make the worn floors clean and fresh, the old furniture bright and new, the dingy cupboards sweet and sanitary. Just look around the house, see what is showing wear and tear and come to us. We'll tell you what to use and how to use it. Here are a couple of suggestions.

YOUR FURNITURE:
Pick out the dingy pieces, give them a coat of Sherwin-Williams Floorlac Oak or Mahogany or whatever color you wish. What a change is wrought in a short time! Old chairs, tables, bedroom furniture no longer worn and shabby, but bright and new, and all at such a small expense. Just try your hand. With Floorlac you stain and varnish at one operation. Easy to apply. Ask us for color card.

YOUR CUPBOARDS:
The spotted, dusty cupboard shelves, the worn doors and out-sides, are changed indeed after a coat of Sherwin-Williams Family Paint has been applied. Family Paint is a durable oil paint, made in a variety of pleasing colors, for painting woodwork, cupboards and the hundred little things around the house that need a coat of good paint occasionally. It wears well, stands scrubbing and washing.

Don't you think there's something about your place that needs a little fixing up? Just consult us—we like to help folks.
