Order Six All-Steel Mail Cars.

The spirit of progress which has made the Norfolk & Western road to be reckoned with as a business proposition has again marked the road as still progressive. An order has been placed by the Norfolk and Western for six all-steel mail cars which will be used between Norfolk and Columbus.

PNEUMONIA FOLLOWS A COLD But never follows the use of Foley's Honey and Tar, which always checks the cough and expels the cold. Mr. M. Stockwell, Hannibal, Mo., says: "It beats all the remedies I ever used. I contracted a bad cold and cough and was threatened with pneumonia. One bottle of Foley's Honey and Tar completely cured me." No opiates, just a reliable household medicine. Carson Drug Co.

Southwest to Fore.

Three Counties Have Voted as Much for Good Roads as Rest of State.

Richmond, Va., Feb. 18.—The way in which the Southwestern part of the State has caught on in the matter of better highways, is very gratifying to State Highway Commissioner P. St. Julien Wilson. Russell county on Tuesday voted a bond issue of \$275,000 for good roads. With Wise county's \$700,000, and Lee county's \$364,000, recently voted, there is a total of \$1,339,000 to be expended within the next year in three adjoining counties.

Moreover, Tazewell, another county, which adjoins, is preparing to vote on \$600,000 of bonds, which would bring the total up to nearly \$2,000,000 in four counties alone.

As a matter of fact, the bonds voted in Wise, Lee and Russell alone almost equal the total amount in the other ninety-seven counties of Virginia put together. The grand total is \$2,339,000, while these three have contributed \$1,329,000 of this.

Dies of Pellagra.

Bristol, Va., Feb. 18.—Mrs. H. O. Houston, twenty-seven years old, died of pellagra at the family home in South Bristol, several days ago. This is the second death from that disease in the last few months. Mrs. Houston is survived by her husband and three small children. Her body was taken to Johnson county, Tenn., for burial.

Barred From Juries.

Charleston, W. Va., Feb. 18.—The House of Delegates has adopted a bill dequalifying persons engaged in the manufacture or sale of intoxicating liquors from serving on juries in the courts of the State. The bill caused warm discussion, but went through with a majority, and was sent to the Senate.

ATTACK LIKE TIGERS

In fighting to keep the blood pure the white corpuscles attack the disease germs like tigers. But often germs multiply so fast the little fighters are overcome. Then see pimples, boils, eczema, salt rheum and sores multiply and strength and appetite fail. This condition demands Electric Bitters to regulate stomach, liver and kidneys and to expel poisons from the blood. "They are the best blood purifier," writes G. T. Budahn, of Tracy, Cal., "I have ever found." They make rich, red blood, strong nerves and build up your health. Try them—50c. at Carson Drug Co.

The Bristol Postoffice.

Bristol, Va., Feb. 20.—It is now believed that nothing definite will be done toward the naming of a new postmaster for Bristol until after the 4th of March. The impression is that soon after that time it will be understood who is to be favored in this regard—Representative C. B. Slemp, of the Ninth Virginia district, or Representative S. R. Selis of the First Tennessee district.

Tied Note to the Neck of Wild Goose.

A dispatch from Blair Nebraska says: Frederick Grandon shot and brought down a wild goose from a flock flying overhead and found a small oil-cloth wallet securely fastened about its neck with a thin copper wire. Opening the wallet, Grandon drew out a piece of paper, evidently a page from a memorandum book, in which was written with a pencil the following:

"July 8th, 1910. Two hundred and fifty miles due north of White Horse Rapids on Pine Creek. I have been sick here since June 15th, and feel certain I am about to die. My right arm is broken above the elbow, due to falling on the side of a mountain. I can hardly walk, and though there is flour in my cabin, I have no way of cooking it, as my condition will not permit me to do the work. Back of my cabin, two hundred yards up the gulch (where I have dug) there is a body of almost solid gold. It is not in nuggets, but seems to be a sheet. It will never do me any good. Winter will begin in this part of Alaska in a few weeks, and if I am not found before then I will die by freezing. There is no hope; I can not walk. I came here from Memphis, Tennessee. Good-bye.

GEORGE POWERS.

It is the belief of Grandon and others that the goose was caught when young and unable to fly, as it is well known that wild geese nest and rear their young in the most remote part of Alaska. Powers, it is thought, realizing his condition, wrote the note, placed it in the wallet, and then fastened this to the neck of the bird, hoping that in this way someone might eventually know his fate.

Mad Horse Fought With Lumberman.

Big Stone Gap, Va., Feb. 18.—While watering a horse at a lumber camp near here, Simon Blankenship was attacked by the animal, which became suddenly infuriated, apparently without cause. The bones in one arm were so badly lacerated that amputation was found necessary. The horse was shot and killed by other lumbermen, whom it sought to attack.

Postoffice Robbed.

Tazewell, Va., Feb. 11.—The postoffice at Richlands, sixteen miles west of here, was robbed by unknown burglars some time during Friday night and about one hundred dollars and money taken. The robbery was effected by blowing the safe with nitro-glycerine. The only clue to the robbery is the appearance in town a few days ago of two strangers, whom the local authorities believe pulled off the job.

It proposes to wage an active campaign against such remedies.

Forest Reserve Measure Will Protect Clinch, Holston and Powell River.

Bristol, Va., Feb. 20.—It is expected that the forest reserve measure, which has passed the Senate, and seems destined to become a law, will be effective in its relation to much of the beautiful and picturesque mountain region in Southwest Virginia and East Tennessee, particularly that portion from which springs the head waters of the Tennessee river, and the Clinch, Holston and Powell rivers in Southwest Virginia, and the South Fork of the Holston, the Nolachucky, French Broad, Watauga, Doe and Pigeon rivers in East Tennessee. To protect these streams indicates that the reserve will embrace a large boundary of the Blue Ridge mountains.

THIRTY YEARS TOGETHER

Thirty years of association—think of it. How the merit of a good thing stands out in that time—the worthlessness of a bad one. So there is no guess-work in this evidence of Thomas Ariss, of Concord, Mich., who writes: "I have used Dr. King's New Discovery for thirty years, and it is the BEST cough and cold cure I ever used." Once in a while, in a home you can't pry it out. Many families have used it forty years. It's the most infallible throat and lung medicine on earth—unequaled for the grippe, asthma, hay fever, croup, quinsy or sore lungs. Price 50c. and \$1. trial bottle free. Twins to Wed Twins.

Kokomo, Ind., Feb. 20.—Marriage licenses were issued to Delmar Johnson, 33 years old, and Miss Kate M. Clark, 19 years old, and to Dalton Johnson and Miss Lula A. Clark. A peculiarity of the coming nuptial events is that the men are twin brothers and the women twin sisters. The Johnson brothers are nephews of Representative Anderson Johnson.

The principals reside upon adjoining farms and it is their intention to live under one roof on a farm which the men own and which join the farms of their fathers.

Hugs a Snow Man Instead of Fiance.

Monticello, N. Y., Feb. 20.—Indignant because of a practical joke played on her by a friend, Miss Gertrude Sharp, of Ninto street, Brooklyn, walked to Fallsburg, six miles, through deep snow in order to catch an early train home. She didn't stop to say good-bye, not even to Miss Alice McManus, her mischievous companion.

The trouble arose over a snow man built by Miss McManus, after dark, and placed on the porch of the house in which Miss Sharp was staying. When it had been neatly attired in clothes resembling those of her suitor, a string was attached to the door bell and Miss McManus, safely concealed, held the other end.

When the bell rang, Miss Sharp hastily opened the door. She did not stop to make certain who was there, but threw herself into the arms of her supposed fiance. Instead of receiving a fond embrace, Miss Sharp was met with such an icy reception that she fell in a faint.

Body of Murdered Man is Found.

Freeling, Va., Feb. 20.—The body of A. W. Powell, the missing man from Noland, has been found, after more than a week. As feared, the man had been murdered the head having been nearly severed from the body. The remains were found in a wood on a ridge near the line between Wise and Dickerson counties, a short distance on the Wise side. The crime had apparently been committed on the Dickerson side, and the body dragged across the line. A coat and some other things supposed to have belonged to the murdered man were found where the trouble is thought to have begun. A moon-shine still was found two or three hundred yards away. So far as can be learned, there is no clue to the perpetrators of the crime.

Bristol Has Bred New Water Supply—Absolutely Pure.

Bristol, Va., Feb. 20.—Bristol's new supplemental water main to the Frank Preston spring, five miles east of the city, has just been completed, and the two Bristols will now enjoy an addition of from one to one and a half millions of gallons of water daily. The new supply has been pronounced by chemists to be absolutely pure. The cost of constructing the new main is about \$100,000. A modern in-take, constructed of concrete, will be provided. The new supply is owned jointly by the two Bristols.

The Glory of Woman.

In these days of rats and puffs, false curls and transformations, switches, pencils and rouge, the discussion of feminine charms is interesting because it involves an element of adventure. It is impossible to agree with the scoffer who holds that only the framework of modern woman goes to bed at night, while the real woman rests on the chair and dresser, not only because this doctrine is, perhaps, exaggerated, but also because any agreement at all in that direction is exceedingly dangerous.

And yet there is some truth in it all. It must be confessed, on the woman's admission, that the feminine form is a very considerable fake. The remarkable part of it is that woman practices to deceive, while knowing very well there is no deception. The artifice is as transparent as the rat itself is plain, pushing itself noisily through the thinning locks of real hair, whose only function is to hold the fake glory in place with the aid of innumerable pins. And yet the bored woman laughs—half—half—at the bald-headed masculine who affects toupees or wig, and at the aging man who seeks to inveigle Time into perjury with the aid of hair dyes—Baltimore Evening Sun.

Clark and Bennett.

The asinine "break" of Champ Clark in injecting the matter of annexation of Canada into the discussion of the reciprocity treaty, seems to have suggested an idea to Representative Bennett, Republican, of New York, and an enemy of reciprocity. He follows up our Champ's fool performance by introducing a resolution requesting the President to "enter into negotiations with Great Britain looking to the annexation of Canada to the United States." He no doubt regards this as a clever device to beat the reciprocity treaty. He probably fancies that this studied affront coming on the heels of Clark's stupid trick, will so exasperate Canada and Great Britain that the Canadian parliament will refuse to ratify the reciprocity agreement. In this, however, Mr. Bennett will probably will himself mistaken—at least in supposing that his resolution will arouse serious resentment over the border. By reason of the improvidence of the Democrats in placing Clark in a position of conspicuous prominence for which he has shown himself absurdly unfit, some weight was necessarily attached to his utterance.

If each farmer in the County of Smyth will figure out for himself what it would benefit him to have a good road from his gate to Marion, how many farmers would then oppose the construction of Good Roads in this county?

Good roads mean too much for war farmers to be without them. No better investment can be made than to put money in good roads, and nowhere are they needed more than here in Southwest Virginia.

The Tariff reciprocity with Canada, the fortification of the Panama canal, are all important questions to every American who takes an interest in the public welfare, but none are half so important to the people of this county as the construction of good highways.

Whoop Up Good Roads, Brother!

MR. EDITOR:

I saw in last week's issue of the News a communication stating that the Board of Supervisors will be asked to petition the Judge to call an election for taking the vote on the Rich Valley District issuing bonds for permanent road improvement in that district. Well if Rich Valley wants to issue bonds for the permanent improvement of public roads I say vote for and let the bonds be issued.

But, say! let me raise my voice to the highest pitch, and let me get my hat off and raise a mighty shout for something else. While we are about to let us ask that bonds be issued for the entire county so that we, over here, as well as Rich Valley, may enjoy the blessings that only good roads can give.

Mr. Editor did you see any hats go up and how many shouts did you hear? Well you may listen because the people begin to see the need of good roads as they never have before and the clamor for good permanent roads is bound to rise above the din and rattle of the old time tin horn.

More and better crops of (various kinds) at higher prices, is only one of several reasons for better roads.

Now brother I've got no automobile to run over the roads, but the man up there who has, (look at his hat high up for good roads!) is willing to pay his part of the taxes to build the good touring road, why, that is all right, and he should share the road with us. I've seldom had occasion to haul lumber, hay, fruit, potatoes, corn, wheat, pork, or any of the numerous farm products to market or to the railroad station, but just the same, I am willing for our neighbors to share the good roads with us in hauling whatever they have while we walk, ride or drive, or take the occasional load of something produced on the farm, or otherwise to the railroad or market. If we could get a bond issue for the re-grading and making permanent roads the cost would fall largely on the man who is most able to pay, and why not? He is the man (generally speaking) who uses the roads most and is, therefore, entitled to pay the larger per cent. of the cost to make them.

I would vote for the bond issue if I knew that not a penny of the money would not be spent on the roads closer to my place than five miles. Do you wonder why? Well I'll try to explain: I would like for my neighbors to have good solid, well-graded roads if I can't. But that perhaps is not the greatest reason. The money from bonds, for road improvement, will be spent in the district—at home—for labor. If it was necessary to spend any of it otherwise it would be only a sufficient amount to purchase tools; and that would be a small amount. So if a man has a team he can get a job on the road; if he has no team he can get a job on the road. And thus, practically, the entire amount of the bond issue would come right to us—yes sir, to you and me—provided we are willing to earn it by doing any kind of work that is needed on the road. And say, if we—yes you and I—are really too lazy to work, or if, perchance, our other occupations should so keep us employed that we could not find any time to work on the fine new road we still have a chance at some of the money.

Did I hear you say how? Well it is this way: Our neighbors who work on the road will need to buy something and those of us who do not help build the road would certainly be a very sorry set if we failed to make something and those of us who do not help build the road would certainly be a very sorry set if we failed to make something to sell to the men who do make the road.

Well, of course, there is the bonds to be redeemed. And I fear there are those who will be as scared at that part of the problem that they will fail to see the more important part of the proposition. My friend, if we get a good bond issue and the money is judiciously spent on our roads we will be far better off with the good roads and our taxes a little higher than we are as it is, pulling through the mud for half the year, and going over poorly graded roads all the time. Say mister—you, you who seems to take no interest in the roads proposition and is carefully selected of your taxes—did you ever

think how much easier it would be for you to make enough extra money to pay your taxes with if you only had good, dry, solid, well-graded to haul over? You could haul your surplus products to market whenever you wanted; when you could get the best prices, or when it might be too wet to plow, or for any other reason. As it is you must wait for the roads to get in shape and then you never can haul a good load or the poorly graded roads that we have.

Now if you fail to vote for good roads you need not be surprised if you have to plod along with mud roads when you need a good road most. And if you happen to live in close proximity to a good road tell your neighbors how much it is worth to you. Tell them how much more cool cash you can make in 12 months than you could make when you had to do the best you could pulling through the mud.

Now friends, honestly I do not see any good reason for voting against the bond issue, but there is every reason, as I see it, for issuing bonds and building good permanent roads. How will you vote? for the bond issue and good roads with their blessings, or will you vote for the mud road, the up-hill grade and the evils that attend same? We will wait and see. A ST. CLAIR CITIZEN.

Duties or Rights?

He was a boy with a job. He carried papers. He "served a route" for a news dealer. It was a good job. The pay was good for the hours. He needed it. So did his family, with many mouths and little money. A change was made in his work. He thought it unfair. He left. He lost his place. He is still hunting another.

Few employers want a man or boy who is more careful about his rights than his duties. This is a world of duties. The man who discharges his duties will get his rights. The man who insists on his rights, at all costs, will lose the chance to discharge his duties. He will lose his place as this boy did and will not find it easy to get another.—Philadelphia Press.

\$100 REWARD \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

"Human Hearts"

"Human Hearts" the "idyl" of the Arkansas Hills, will be produced at the Court House Auditorium Friday, Feb. 24th. Like Shore Acres and the Old Homestead, time only increases its hold upon the hearts of the people. The prattle of an innocent child, the tears of an old blind mother, the strong love of a simple country girl, the passion of an ad- venturess, the truth of a half wit, the love of an old negro and the tender memory of a dead mother of the past Governor of Arkansas, are all cleverly intermingled by the deft hand of the author of this absorb- ing tale of the Arkansas Hills. Each succeeding season of this thrilling plays annually increasing business has induced the management to en- gage for this season's production one of the strongest companies ever or- ganized in one cast. To the lovers of a good play, not one on the list of this season will appeal more strong- ly than "Human Hearts."

Death of Jas. M. Starritt.

County Clerk S.W. Kent received the news Tuesday of the death of his brother-in-law, Mr. Jas. M. Starritt, which took place at his home at Vinton, Va., at two o'clock that morning. Mrs. Kent was called to Vinton Sunday on account of the illness of her brother, and was at his bed-side when the end came. Mr. Starritt was fifty-three years old, and had been an employee of the N. and W. Ry. for about thirty years. He is survived by several children and his wife, who is the sister of Postmaster V. M. Scott, of Saltville. The remains were brought to Salt- ville Wednesday for burial.

Free Dental Work for Poor Children.

Free treatment of the teeth of de- serving poor children was decided upon yesterday at a meeting of the National Capital Dental Society of the District of Columbia. The So- ciety has about twenty-five members and the free treatment would amount to fifty hours per month for the poor. Among those at the meeting who heartily approved of the charitable enterprise were Drs. Parsons, C. H. Hoeland, M. M. Dolmege, C. W. Conthbertson, Emory A. Bryant, W. C. Killinger, J. W. Hollingsworth, W. L. Munger, J. H. Johnston, Wil- liam T. Heyser and H. R. Perry.— Washington Herald.

Dr. W. C. Killinger, who is Re- cording Secretary of this Society, is a native of this county and a son of Mrs. M. E. Killinger of near Atto- way.

MAKING FERTILIZER:

The important elements of plant food are Nitrogen, (also expressed as Ammonia), Phosphoric Acid and Potash. The principal sources of the elements are as follows:

Table with columns for NITROGEN and POTASH, listing various fertilizers and their percentages.

Table with columns for PHOSPHORIC ACID, listing various fertilizers and their percentages.

It will be seen that a complete fertilizer containing Nitrogen, Phosphoric Acid and Potash, such as 10 per cent. Phosphoric Acid, 2 per cent. Amonia, 4 per cent. Potash, or Phosphate and Potash mixture such as 10 per cent. Phos- phoric Acid and 4 per cent. Potash may be made from materials of different analysis. Therefore, a brand that would require a filler if high grade material were used would make up complete, without filler, from lower forms of material. For example, 1,250 lbs. 16 per cent. Acid Phosphate and 175 lbs. 50 per cent. Muriate of Potash will analyze 10 per cent. Phos- phoric Acid and 4 per cent. actual potash based on a ton weight, but would lack 575 lbs. of weighing a ton; therefore if 16 per cent. Phos- phoric Acid and Muriate of Potash are used in making 10-4, 575 lbs. of filler would have to be used. 1,250 lbs. 16 per cent. Phosphoric Acid and 700 lbs. 12 per cent. Kainit would give the same analysis and leave but 50 lbs. filler to be added, or 900 lbs. 16 per cent., 400 lbs. 14 per cent. Acid Phosphate, and 700 lbs. Kainit would make an even 10-4 mixture without any filler. Since, therefore, none of the materials carrying plant food are pure Nitrogen, pure Phosphoric Acid or pure Potash, the impuri- ties in the materials used from which these plant foods are de- rived are fillers or dilutants. Of course, these impurities have ab- solutely no value, and some of them are injurious. It is gener- ally conceded that mixtures made of high-grade material are prefer- able to those made from the low grade, therefore it has been our policy to use high-grade material and whenever a filler is necessary we use land plaster to take the place of the worthless impurities were low grade material used.

We can make up any of the lead- ing brands without any filler whatever. We believe, however, that everyone will agree that the plaster, for which we make no extra charge, adds to the value of our goods. It is also valuable as a drier and insures perfect drill- ing condition of the mixtures. We also use ground tobacco stems as a filler where our trade prefers it, but, of course, we and all manu- facturers figure all the Potash they contain and put in that much less from other sources. We have studied our soil and crop requirements and make our mixtures to suit the special re- quirements. We know of no in- stance where a careful compari- son has been made where our fer- tilizers have not shown better re- sults than others. We guarantee the drilling condition better than any fertilizers sold in this section. Following our leading brands:

Table with columns for Analysis, listing various fertilizers and their percentages.

Hold Conference in May.

Experts on the care of children, se- lected from all parts of the country, are scheduled to meet in Richmond during May to discuss the child problem in Virginia and to devise better methods for the care of the children of the Old Dominion.

This Conference will be held un- der the auspices of the State Confer- ence on Charities and Corrections, the Executive Committee of which has been working out a program for several weeks.

The committee has received letters from the heads of practically all the juvenile institutions in Virginia, promising to attend and has assur- ance that the Russell Sage Founda-

tion Fund will use a portion of its leading experts to address the Con- ference and to suggest plans for fu- ture work.

This meeting will not take place of the regular annual Conference on Charities and Corrections which has been scheduled to be held in Roan- oke during the fall.

Washington.
 O ripples of Potomac's stream,
 Break gently where the tread
 Of thousands press the hallowed sod
 Above our greatest dead;
 Mt. Vernon, Freedom's dearest shrine
 Guard well thy sacred trust,
 Locked in thy loyal heart of hearts
 Ye keep the Patriot's dust.

I see him glide among the huts
 That dot the cheerless gorge -
 The Joshua of a struggling band,
 The Man of Valley Forge;
 Where'er he goes his smile illumines
 The shades that thickly lie,
 And all who bear his words resolve
 With him to do or die.

The pilgrim come from land enslaved,
 Beyond the restless sea,
 To meditate where sleeps the man
 Who taught men to be free;
 The glitter of the sword he drew;
 Makes bright the world to-day,
 And hands unborn will crown its bill
 With laurel and with bay.

He needs no granite shaft to tell
 Of glorious actions done;
 His monument? - the freest land
 That lies beneath the sun!
 To-day with swelling pride we seek
 The banquet board once more,
 And drink to him whose fame is far
 Beyond Virginia's shore.

He is not thine, Mt. Vernon, though
 Upon thy sacred breast,
 Wrapped in the mantle Glory weaves,
 In peace he takes his rest;
 The voice of Liberty proclaims:
 "He is my honored son."
 And fame with lofty pride proclaims:
 "The World's one Washington."
 - T. C. Harbaugh.

A COMMON ERROR.

The Same Mistake is Made by Many Marion People.
 It's a common error to plaster the aching back,
 To rub with liniments rheumatic joints,
 When the trouble comes from the kidneys.
 Doan's Kidney Pills are for all kidney ills,
 And are endorsed by Marion citizens.
 J. L. Lindsey, of Marion, Va., says:
 "My kidney bothered me for six or seven years, causing a dull pain in the small of my back. The secretions from my kidneys were discolored and irregular and painful in passage. I took a great deal of medicine, but my health did not improve to any extent. I used Doan's Kidney Pills as a last resort, getting them at Carson Drug Store and the change they brought about was surprising. My back became much stronger and free from pain and my kidneys were restored to their proper working order. I consider Doan's Kidney Pills a most effective kidney medicine. I have recommended them before in the local newspapers and at this time I can speak just as highly of them as ever. Kidney trouble has not bothered me during the past seven years."
 For sale by all dealers. Price 50 cent box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.
 Remember the name - Doan's - and take no other.

When You Think
 Of the pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.
Dr. Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from pain. It establishes regularity, subdues inflammation, heals ulceration and cures female weakness.
 Sick women are invited to consult Dr. Pierce by letter, free. All correspondence strictly private and sacredly confidential. Write without fear and without fee to World's Dispensary Association, R. V. Pierce, M. D., President, Buffalo, N. Y.
 If you want a book that tells all about woman's diseases, and how to cure them, send 21 one-cent stamps to Dr. Pierce to pay cost of copy, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser - revised, up-to-date edition, in paper in handsome cloth-binding, 31 stamps.

Woman's Beauty
 Some women retain their beauty to an advanced age. But women, who regularly endure pain, rapidly, for suffering leaves its lasting marks on them.
 Nearly all women suffer more or less with some form of female trouble. It should not be neglected. Avoid the pain - treat yourself at home by taking Cardui, as thousands of other women have done. Begin at once and give Cardui a fair trial.

TAKE CARDUI
It Will Help You
 Mrs. Katie Burlison, Goreville, Ill., tried Cardui. "I suffered with female troubles, and was so sick I could not get on my feet. Finally I began to take Cardui, and I am now able to do all my household better health than I was before." Try it.
