## To Work Peach Bottom Copper Mines

Capitalists are making preparations to work the Peach Bottom Copper Mines in Alleghany county, N. C., in the near future. This is one of the best properties in the country and owing to its inaccessibility has not been worked very extensively. Because of the scarcity of copper and loss of imported copper due to the European war efforts are being made to work the mines in this country. It is thought the Guggenheim interests are behind the movement to operate this mine.—Grayson Gazette.

## Hundred Million.

Washington, Nov. 16.—Enormous growth of the United States during the last half century was shown in a report Friday by the Bureau of Foreign and Domestic Commerce. Since 1850 the population has more than quadrupled, being now more than 100,000,000 the report says.

"In the same period," continued the report, "foreign commerce has grown from \$18,000,000 to \$2,200,000,000, and the per capita value of exports from \$6.30 to \$55.27. National wealth has increased from \$7,000,000,000 in 1850 to approximately \$140,000,000,000; money in circulation from \$279,000,000 to \$3,419,000,000, and New York bank clearings from approximately \$5,000,000,000 to over \$95,000,000,000, while for the entire country bank clearings have grown from \$52,000,000 in 1857, the earliest year for which figures are available, to \$1,400,000,000 in 1913.

"Evidences of improved social conditions are also found. For example 19,000,000 children now are enrolled in public schools and about 200,000 students in higher institutions of learning. Total expenditures for education now approximate \$900,000,000 a year, the result being a rapid increase in general intelligence and a marked decrease in illiteracy. Over 22,000 newspapers and periodicals are disseminating information among the people and the report shows a steady growth in the number of libraries. In 1850 depositors in savings banks were 261,000 in number; today the number is eleven million with deposits, exclusive of those in other savings institutions aggregating \$4,750,000,000 or more than 100 times as much as at the middle of last century.

"Increased activity on the farms, in factories and in the great transportation industries also has developed. The value of farms and farm property increased from 4,000,000,000 dollars in 1850 to 41,000,000,000 in 1913; the value of manufactures, from 1,000,000,000 to over 20,000,000,000 and the number of miles of railway in operation from 9,921 in 1850 to 258,033 in 1912. In the last quarter century the number of passengers carried has increased from 492,000 to 1,004,000,000, and the volume of freight handled from 632,000,000 to 1,845,000,000 short tons. Nearly twenty billion pieces of out-going mail matter are handled annually by the postoffice department which disbursed in this important public service last year 262,000,000 dollars, or \$2.70 per capita."

Two car loads of cavalry horses for the use of the French and British in the European war were shipped from Bristol last week.

The Bristol Courier says news was received Sunday by Dr. A. J. Edwards of the death of an uncle, W. Thompson, of Cowles, county, Neb. Mr. Thompson, who went West immediately after the war, was formerly of Smyth county, Va. He and his wife were the first white settlers in Cowles county, Neb. He was one of Col M. S. By's men in the Civil war, and will probably be remembered by some of the living members of that famous company.

## True Spirit of the Season.

To limit reasons for thankfulness to mere material abundance, to national and individual prosperity, as so often implied, is to overlook the greater causes of gratitude. Every now and then pathetic instances bring out the heartfelt expression that "if one has health he has everything." Position and possessions count for little compared to the simple retention of health. So, if a man or woman today, unblest by possession of the wealth or prosperity they think they ought to have, will ponder upon the blessing of health or upon the preservation of the lives and health of those near and dear to them throughout the year they must find deeper cause for thanksgiving than any mere increment in material things. This is the true reverence, the genuine spirit of thanksgiving.

But in expressing this spirit in thanksgiving services, in gladness and feasting it must not be forgotten that the true thanksgiving must come from the heart and will find its fullest expression in kindly act, in consideration of those less fortunate and in assisting to make others equally thankful. The thankfulness that is limited to self is ungracious and unworthy.

Yet even in temporal affairs the nation as a whole has cause for gratitude. No country has been more blessed with abundance of crops. Industrial and commercial conditions are normal. We have been spared from any great disasters. As a nation we are at peace with the world. The census shows a splendid growth. We face the future not only with confidence but enthusiasm.

## Actor Dies Suddenly.

Bristol, Va., Nov. 16.—After having played the part of "Judd Tolliver," leader of the feudists in the dramatization of Fox's novel, "The Trail of the Lonesome Pine," which was presented at the Columbia Theatre here last Thursday night, Griffith Evans, a New York actor, died suddenly in his room here this afternoon. Death resulted from asthma and heart failure. Evans was so ill last night he barely got through the performance. His wife took the body to her home in Iowa for burial.

According to the statistics there has not been a death in Wytheville Magisterial district, outside the corporate limits of Wytheville since July 6. The district has an area of nearly two hundred square miles. We think this a splendid record.—Wytheville Enterprise.

H. H. Todd has sold his 240 acre farm, four miles east of town to Thos. Wingate and son. The purchase price was \$12,000. Mr. Todd will give possession Jan. 1. This is one of the best farms in this section and before selling off some other boundaries contained over 400 acres. The farm is known as the Capt. Bourne place.—Grayson Gazette.

It was announced that the prize of \$100, offered by the organization for the best essay on Southern history written by a student of Teachers' College, Columbia University, was won this year by Miss Marguerite L. ## Lower Court Affirmed

Bristol, Va., Nov. 16.—The Virginia court of appeals having affirmed the opinion of lower court in the case of the Norfolk and Western Railway Company against the city of Bristol, Va., Edmond street, which has been closed at the railway crossing for many years, will now be opened.

The railway contended that no crossing existed at the point in question. Judge Kelly, of the city court decided that a crossing did exist there and entered a decree requiring the railway company to open the crossing and maintain gates there. It is supposed the railway company will erect an overhead bridge.

M. Seaver. The repast was as follows: Chicken salad, ham, stuffed celery, sandwiches, olives, hot rolls, coffee, ice cream and cake.

## Overland Item.

The general public has little conception of the enormous size and far reaching influence of the motor car industry. The motor car industry is not only prospering, but is employing more men and doing a bigger business than at any previous time in its history. This would show that either there can be much truth to the current talk of business depression, or that the motor car has become a recognized necessity.

From all parts of our land aid is being hurried to this little nation mowed by the greatest war of all history. Under the auspices of the Civic Club, an entertainment will be given in Marion the first week in December, the proceeds of which will be added to the Belgium Fund. The management of the Past-Time Picture Show has kindly consented to give a benefit for the same cause on Thanksgiving Night. These entertainments should and doubtless will receive liberal patronage. **Patrons' Day at Rocky Point**

On Friday, Nov. 6, at 2 o'clock p. m. the patrons of Rocky Point School gathered to manifest an interest in their school. The day was one of encouragement and success.

The speech from the teacher was helpful and encouraging. The subject was Work and Habits.

Points of talk was a real love for the work any one lives to do. All happiness in this life depends on a true relation to God, caring for others and doing the work we love to do. Christianity is the enemy of bad habits.

The recitations and speeches of pupils were excellent. The patrons and audience were well pleased with their speeches.

Funds were made up for improvements.

The school lot is being cleaned off by teacher and pupils.

The location of school house is excellent, in the midst of beautiful cedars, hickory and oak.

A School League was organized. Mrs. Price Henritze, president; J. W. Blankenbeckle, vice-president; Mrs. William Eads, secretary, and Laura Osborne, librarian. B. J. W.

**Marion College Notes.**

Mrs. Rucker, of Flint Hill, Va., has been visiting her daughter Katherine at the College this past week.

Misses Lou May Brown, Isabelle Davis, and Hester Gerberich served their second breakfast the past Saturday. It was served in three courses and was an indication that the young ladies have been working faithfully. Miss A. Ford is basing the Domestic Science course on the three essential meals, and so the luncheons and dinners will follow these more informal breakfasts. The guests were Misses Ruggles, Walter, Sadler, Alford, Louise Miller, and Norma DeTray. Miss Ora Hand had a very pleasant visit to her home at Damascus the past week.

During the absence of Dr. Miller the chapel exercises were conducted by the different ministers of the town. Mr. Harris on Friday, Nov. 13, Mr. Sedgwick on Monday and Tuesday Nov. 9th and 10th, and Mr. Opie on Monday Nov. 16th. We were very glad to have these ministers with us, and appreciate their willingness to assist us in the absence of our president.

Miss May Scherer reports a splendid trip to Columbia.

President Miller was heartily welcomed home, as was shown by the hand clapping with which the girls greeted him, as he came into the dining room after his absence. He had a very pleasant trip, visiting one of the College patrons on his return trip.

Wanted: Fur Skins at New York prices and higher, also Star Grass Roots, 25c. Pumpkin Seed, drr. 4 1/2 cts. and all other kinds of Roots and Herbs at high prices.

### NOTE CONTENTS OF POCKET

Mother Thereby Will Get Good Indication of the Character of Her Small Son.

The contents of a boy's pockets are a pretty good indication of the boy's character, and any mother who studies them carefully will find food for thought in plenty.

The boy who loves nature will fill his pockets with pebbles, shells, bark of trees, bugs, worms, in short, with anything that he desires to study. One boy of my acquaintance went to school with a couple of snakes in his pocket, but to his great sorrow the reptiles shared the fate of Mary's lamb.

The boy with a mechanical turn of mind will be pretty apt to treasure in his pockets a good sharp knife, a six-inch rule, a pencil and some bits of wood, wire and twine, says Mother's Magazine. He will also be apt to have a half-dozen queer contrivances, the result of his inventive genius.

The idle, thoughtless boy will put anything and everything into his pockets without regard for "rhyme or reason." Articles wholly worthless will predominate.

The degenerate and the boy who has fallen into bad company will treasure cigar stumps, cigarettes and matches, broken pipes, tobacco, bad pictures and bad literature.

Produce Succulent Food.

Generally speaking it is more economical to produce succulent feed in the form of roots for a small number of cows than to produce it in the form of silage, though small silos are now manufactured and used to some extent.

### Despondency Due to Indigestion.

It is not all surprising that persons who have indigestion become discouraged and despondent. Here are a few words of hope and cheer for them by Mrs. Blanche Bowers, Pa. For years my digestion was so poor that I could only eat the lightest foods. I tried everything that I heard of to get relief, but not until about a year ago when I saw Chamberlain's Tablets advertised and got a bottle of them, did I find the right treatment. I soon began to improve, and since taking a few bottles of them my digestion is fine." For sale by all dealers.

### MUCH GOOD IN STORY TELLING

Mother's Opportunity to Instill Into Child's Mind Principles That Will Be of Real Value.

In the home the chief object in story telling is to give content, to satisfy. The child, becoming tired of his toys or of his games, comes to his mother and begs for a story. He wants to be taken into her lap, cuddled within her arms and entertained. Oh, the wonderful, the far-reaching opportunities held by the mother in such moments as these! The child is in a quiet, receptive mood, and the stories told him at such times will never be forgotten; their influence will follow him as long as he lives. Nothing that he can learn in school in the after years will abide and enter into the essence of his being as will the stories which his mother tells him. Strength of character, purity of life, truthfulness, unselfishness, obedience, faith—all may be made beautiful and attractive by means of stories.

Nor is the directly ethical training the greatest good achieved by story telling in the home. Nothing else links so closely mother and child in a sweet fellowship and communion of thought. Nothing else so intimately binds them together, nor so fully secures the confidence of the child. When they enter together the enchanted realm of story-land mother and child are in a region apart, a region from which others are excluded. The companionship of story-land belongs only to congenial souls. And so the mother, by means of stories, becomes the intimate companion, the loving and wise guide, the dearest confidant of her child.—From "The Art of Story Telling," by Julia Darrow Cowles.

HIS OWN SLEEPING PLACE.

A gentleman who had called to see Mr. B. found his little son, Frank, in the library rubbing his eyes and yawning.  
"Sleepy?" he inquired.  
"Um," grunted Frank.  
"I suppose you usually go to bed with the chickens," smiled the visitor.  
"No, I don't," snapped Frank. "I have a little bed of my own all to myself."—Delmonico.
