Six Thousand Given Treatment

Richmond, Va., Sept. 13.—Tabulated results of the hookworm campaign in Virginia since January first show that during the last eight months, 30,580 persons have been examined for hookworm disease and 6,153 have been given treatment.

These figures which were given out today by the State Board of Health, are by far the largest for any year since the Rockefeller Sanitary Commission began to co-operate with the Boards of Health of the Southern States in an effort to rid the country of hookworm disease. During 1912, which was itself a record-breaking year, the state inspectors examined 25,996 persons for hookworm disease and dispensed treatment to 10,600. During the first five months from April 1 to September 1 the board examined 26,500 suspects, more than during the whole of 1912, and gave treatment to 5,300.

There is much satisfaction among the health officers that despite the larger number of examinations during the past year, the number of treatments was smaller. It is pointed out that of the 26,500 examined during five months of 1913 only 5,200 were found infected while of 25,996 examined during the year 1912, not less than 10,600 were found suffering from the disease.

Convicted for Assaulting Noel

Jonesville, Va., Sept. 13.—The trial of W. N. G. Barron for stabbing ex-Senator J. C. Noel terminated in the Circuit court here Thursday, resulting in a conviction of Barron for assault and assessing against him a fine of two hundred dollars. The trial of this case was one which attracted much attention because of the prominence of the parties. The case was called just after noon on Wednesday and the jury brought in the verdict at 2:30 Thursday afternoon after having been out about two hours.

Barron stabbed Noel in an altercation which arose over a road bond election at Pennington Gap on the 24th day of last June. Barron said he cut Noel because he thought it necessary in his own defense.

A Trainman Killed Every Seven Hours

New York, Sept. 16.—A member of the Brotherhood of Trainmen is killed every seven hours and fifteen minutes, and every nine minutes a man is maimed.

This was the testimony of William Lee, representing the Order of Railway Trainmen, at the meeting of arbitration commission in the controversy between forty-two Eastern railroads and their conductors and trainmen over the employees' demand for more pay and shorter hours. When this statement was challenged by Eliza Lee, counsel for the railroads, William Lee cited statistics from the Interstate Commerce Commission's report. This report, on June 30, gave 3,635 railroad employes killed in the United States during the year.

Health Exhibit for County Fairs

Richmond, Va., Sept. 15.—A health exhibit prepared by the State Board of Health has been forwarded to Tazewell where it will be shown as a part of the Tazewell county fair this week. From Tazewell the exhibit will be sent to other county fairs and will in all probability be kept on the road during the fall months. While this exhibit is being used officers of the State Board of Health and of the State Anti-Tuberculosis Association are preparing new charts and models to be incorporated with the exhibit when it is displayed at the State Fair. With the exhibit is sent specimen copies of literature on the prevention of disease published by the board.

Radford Sees Two Flights

East Radford, Va., Sept. 13.—The most successful day in the history of the Radford fair was seen last Thursday when a crowd of about 7,000 enthusiastic spectators saw some of the best racing ever run on the Radford track, the best exhibit of horses and two most successful flights of the air ship with A. C. Beach, of Chicago, as aviator, under the management of Mr. H. B. Marks, of Chicago, flying in a Columbia biplane. This biplane is equipped with a 50 horse power Gyro motor that held the motor record of the world by remaining in the air four hours and twenty-five minutes at Mineola, L. I.

The first flight was held at 2 p. m. and was most successful one. The air ship according to a height of about 2,000 feet and flying about five miles, making many beautiful dips and curves over the ground and then circled the city of Radford.

The second flight was at 4 p. m. and was even more spectacular than the first flight. The management of the Radford fair was highly commended by the spectators for securing the first successful flight of an airship ever held in Southwest Virginia.

Contracts have been let by the Norfolk and Western Railroad to electrify the Bluefield-Vivian section which is 85 miles in length. An overhead trolley system will be used like that of the New York, New Haven and Hartford Railroad. Single phase 25-cycle alternating current will be supplied at 11,000 volts pressure. Over this line 65,000 tons of coal are handled per day. Twenty-six 130-ton electric locomotives have been ordered, adapted to run at speeds of from 7 to 26 miles per hour. The line includes a 3,000-foot tunnel, which is very difficult to ventilate. The electrification of the line is to be completed next summer.

Mother! Have Your Children Worms.

Are they feverish, restless, nervous, irritable, dizzy or constipated? Do they continually pick their nose or grind their teeth? Have they cramping pains, irregular andavenous appetite? These are all signs of worms. Worms not only cause your child suffering, but stunt his mind and growth. Give "Kick-Appoo Worm Killer" at once. It kills and removes the worms, improves your child's appetite, regulates stomach, liver and bowels. The symptoms disappear and your child is made happy and healthy, as nature intended. All druggists or by mail, 25c.

Petrified Pig Found in Cave

Abingdon, Va., Sept. 15.—On the premises of Mack Byers, three miles south of Glade Spring, there is a cave from which empties a considerable stream of water. Last week when the waters became very much swollen a petrified hog was washed out to the mouth of the cave.

All the features were perfect and Mr. Byers thought he had made a valuable find and the curio was taken from the water with much care. After being exposed to the air for some little time his hogship began to crumble into a substance resembling lime and all identity was soon lost. Evidently the process of petrification was not fully completed.

The total bonded indebtedness of New York City is twenty five per cent more than the entire national debt. On March 31st it was \$1,228,150,747. On that date the total national debt was \$963,776,770.

"Sweet cider season is on. Possum and 'aters are ripe. The oysters is now in the soup. Oh, my! soon be time for pumpkin pie. The chestnut will have its fall opening in a few weeks. Eggs are going both up and down—down the throat and way up in price."—Orange Observer.

Ben Childress, a prosperous farmer of Garden Creek, in Buchanan county, was accidentally killed by a rolling rock on Tuesday. His sons who were on the mountain above him dislodged a rock and it rolled down the mountain hitting him in the head and killing him instantly. Mr. Childress was well known in that county and was one of its very best citizens.

William Camper, 24 years old, was given two and a half years in the Virginia penitentiary by a Bristol jury for malicious shooting Carl Leonard, aged 18 years. Camper fired upon Leonard during carnival week in Bristol several months ago because Leonard had thrown confetti in the face of the girl Camper accompanied. The bullet passed entirely through Leonard's body and the surgeons deemed Leonard's recovery almost a miracle. At the trial last week he had almost recovered.

Diarrhoea Quickly Cured.

"I was taken with diarrhoea and Mr. Yorks, the merchant here, persuaded me to try a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After taking one dose of it I was cured. It also cured others that I gave it to," writes M. E. Gebhart, Oriskany, Pa. That is not at all unusual. An ordinary attack of diarrhoea can almost invariably be cured by one or two doses of this remedy. Sold by all dealers.

"Plunderbund" Charge to Be Aired.

Richmond, Va., Sept. 16.—I am fully determined to have an investigation at the hands of the next General Assembly of the repeated charges that have been made by certain persons and certain interests that the General Assembly of Virginia is dictated and controlled by a lobby, officeholders and those who have selfish purposes behind them. "The charge is that the Legislature is a tool of the plunderbund." What I propose to do is to compel such editors, or those responsible for these publications, to come forward and be heard. It is my purpose to compel them to come forward and tell all they know and let the people of the State know if there is a basis in fact for any of the charges that have been made.

Such was the statement in brief by William A. Land, member elect from Nottoway, member of the last House of Delegates, editor of the Blackstone Courier, who has been engaged in a controversy in connection with the charges.

Tragic End of Unusual Career of "Big Tim" Sullivan.

New York, Sept. 15.—Congressman Timothy D. Sullivan, New York politician, known as "Big Tim," and who rose from a newsboy to a statesman, is dead. His mangled body was identified today by his step brother, Larry Mulligan, after it had lain for thirteen days in a local morgue.

Sullivan, who was ill, eluded his pursuers in the early morning of August 31st and a few hours after was struck and killed by a New Haven train at Pelham Parkway.

Timothy D. Sullivan—"Big Tim"—was one of the best beloved of the genial Tammany leaders, whose power came from popularity in the swarming tenement districts that have voted many a Tammany candidate into office. His stronghold was the Bowery. There every winter he distributed shoes and clothing to thousands of human derelicts.

"Big Tim" was a child of the Bowery. He was born in a Leonard street tenement in 1863 and all his life resided in the down town section of New York. He was one of four children left fatherless. When he was eleven years old he was selling papers on the streets. A year later he was working in a newspaper press room. Sullivan was a political power in a small way before he was of age. At three he was elected to the State assembly. There he served continuously for eight years.

After the assembly came the State Senate, where he served four full two year terms and part of the fifth. Then he went to Congress. "Big Tim" did not find Washington congenial as Albany and after a few years in private he was re-elected to the State Senate. Against his will, it was said he ran again for Congress next year. "Big Tim's" wealth was acquired from many sources. Chief among them were saloon and racing and theatrical interests in which his association was eagerly sought. At one time his fortune was estimated at more than two million dollars. But during the last few years his ventures were less successful. His death will necessitate a special election in the Thirtieth New York district, which comprises New York County. That will be the fifth special election caused by death since the sixty third Congress began in March.

Palaski, Va., Sept. 15.—The body of H. B. Cordell, who was killed in a mine at Twin Branch, W. Va., on Friday passed through Pulaski Friday being taken to Month of Wilson, Grayson county, his old home for burial. The remains, accompanied by his family, father in law and representatives of lodges, arrived on No. 11 and awaited the night train to Galax, from which point they were to drive through the country, a distance of nearly 30 miles. The deceased was employed in the mines of the J. B. B. Coal Company and while in the performance of his duties was caught by a slate slide and killed almost instantly. His body was right badly mutilated, and a pick had passed through his head. He was a former resident of Grayson county and he married a Miss Phipps who survives him with several children.

Fatal Accident to Saltville Man

Saltville, Va., Sept. 13.—A very serious accident occurred at about 5 o'clock Tuesday afternoon on the farm of George DeBusk, four miles north of here, when George W. The resolution was tabled.

Opening of Stonewall Jackson.

Abingdon, Va., September 15.—The opening exercises of Stonewall Jackson was held in the assembly hall at three o'clock Thursday evening. This is the forty fifth session of this well known Presbyterian school and its prospects are said to be brighter today than at any time in its long and useful career. This session begins with a new president, Rev. F. L. McCoe.

The Abingdon Presbytery in session at Glade Spring, adjourned its proceedings and attended the opening of this school in a body. Speeches were made by a number of the ministers and laymen of the Presbyterian school. Among those who spoke and pledged their support to the school were: Rev. J. B. Bittinger, of Smyth county; Rev. Bristol, Va., Sept. 15.—Virginia Intermont College opened with public exercises in the chapel at 10:30 o'clock last Thursday morning. The enrollment was larger than any first day in recent years, and many of the parents of girls entering were in attendance. Several southern States, particularly Mississippi, Alabama and Georgia, are represented, while the usual liberal attendance from Virginia and Tennessee is noted. Henderson, president of the school, is much gratified with the success of the opening and anticipates that this will be the best year for the institution in a long time.

Gives Detective Burns the Slip

Norton, Va., Sept. 15.—The man wanted for a robbery in different parts of the West and whose arrest Detective Jamison, of the Bureau's detective agency was sent here from Baltimore to make, has been in Norton about ten days bearing the name of James Miller. Detective Jamison arrived here last Monday night and located this man through the local post office.

He was working in the mines of the Norton Coal Company. The detective, in company with Postmaster Kilgore, went to the mines Monday morning, and sent word in to Miller that a special delivery letter was waiting for him on the outside. The man came out and was promptly arrested. He consented to go with the detective, but said he wanted to go by his boarding house and get a change of clothes. Detective Jamison agreed to this and the two men and postmaster went to the boarding house. The change of clothing was made in a few minutes, and they were entering the hall to leave when Miller stated that he had forgotten something. He turned to go back into the room, Detective Jamison following, and when Miller had cleared the doorway he slammed the door in the face of his captor and climbed through the window and into the yard. Detective Jamison ran to the back hall door only to get a glimpse of his man hopping a barb wire fence.

Jamison made a desperate effort to stop him, but got caught in the fence and Miller escaped. The detective stayed here for two days, but did not find any trace of the forger.

Carson, of the First Presbyterian church, the Rev. Trig A. J. Thomas, of Kansas City, a former student, and members of the faculty. This school has added a preparatory department, and is now taking boys before they complete the course at the high schools, if any desire to enter. The literary societies met and organized last Friday night.

REPUBLICAN TICKET.

FOR HOUSE OF DELEGATES A. T. LINCOLN.

Attention, Republicans!

All who were elected delegates and alternates on the first Monday in September to the Republican Senatorial convention for Smyth and Washington counties and the city of Bristol, from this county, are hereby notified that the Senatorial convention has been called to meet at Abingdon next Monday, September 22, at 1 o'clock.

Very respectfully, JOHN A. GREENWOOD, County Chairman.

Senator Borah says in the Washington Post: "I have always held that the reuniting of the republican factions must have its origin with the rank and file and cannot be forced prematurely by the so-called leaders of the republican party."

Democrats as well as republicans interpreted the slump in the progressive vote as foreshadowing the gradual dissolution of the bull moose party.

Granting that the Democratic Tariff bill as it stands today is a very different measure than was first proposed, it is probable there would be far greater changes in it if its Republican opponents could be permitted to punch holes in it for another three months.

It is interesting in this connection to note the disquietude which the Democrats by their Tariff tinkering, have created in the solid South, the very section where they might be expected to strengthen themselves by all possible means.

The illogical and un-Democratic cause of the Senate majority insisting on free sugar, when it is admitted on all sides that sugar is an ideal revenue producer and that the removal of the duty will benefit no one but the Sugar Trust.

The object of this suit being to obtain a divorce a vinculo matrimonii for the complainant from the defendant, upon the ground of adultery. It is therefore ordered that the defendant do appear here within fifteen days after due publication hereof, and do what may be necessary to protect his interest in this suit.

There is no doubt but the Democratic Tariff chickens will come home to roost, and the Picayune evidently expects they will begin to arrive during the approaching Congressional session.

Free Delivery Established.

As announced, "experimental free delivery" was established and put into effect here last Monday under the instructions of Post Office Inspector J. W. McInturff.

The first trip was made Monday morning by the carriers, Haynes L. Wolfe on route No. 1, and J. O. Stephenson on route No. 2, under the personal supervision of Inspector McInturff and Postmaster Anderson. The carriers make two deliveries each day and will require about three hours for each trip. The service will prove a great benefit to many of our people and we predict will become quite popular. The service will be entirely free to all who want it. The only requirement made by the department is that the patron must provide a box or suitable receptacle at the front door to receive mail.

As heretofore published Marion is one of the three towns in the State to get this service. Some months ago Congressman Slemph designated Marion as a suitable town for the experimental service and it is a mark of progress which our community will appreciate and which, if a success, we feel quite sure, will be made permanent.

Death of Don R. Maiden.

Mr. Don R. Maiden died at his home at Adwolve last Monday evening at 7 o'clock after an illness of six weeks with typhoid fever.

The deceased was a most worthy upright christian gentleman and had just reached the age of forty-two years and was in the prime of life. His taking away is indeed a sad providence. He will be sorely missed at home where he is survived by his wife and three small children.

Mr. Maiden was a member of the Riverside Baptist church and a good man, a loving husband and well liked by all who knew him and will be missed from the walks of life.

A funeral service was conducted from his home Tuesday evening by his kinsman, Rev. Geo. A. Maiden, assisted by Rev. W. M. Britton, before a large company of relatives and friends, after which the remains were laid to rest in the Anderson cemetery.

Buy your boy a Elk Brand Suit for Fall and Winter. Marion Clothing Co.

We are pleased to note from The Pacific Baptist, a leading denominational journal published at McMinnville, Oregon, that Rev. Henry Jones, a native and former resident of this county, has gained a wide reputation as a minister and evangelist in that State. The front page of The Pacific Baptist, which has been handed us by his brother, Mr. J. Sheffey Jones, of our town, contains a large half page cut of "Evangelist H. Wyse Jones, D. D." The engraving is a fine picture of Mr. Jones, whom we formerly knew, as our school mate at Holstein Mills, Henry Jones.

In an article of two columns commenting on his splendid work as an evangelist the paper says: "He is known in all parts of this great field and has conducted glorious revivals in Oregon, Washington, Idaho, Montana, Utah and California.

Alonzo M. Petty, District Secretary American Home Mission Society, says: "I am prepared to say that I do not in all my range of acquaintance with evangelists—and that is not inconsiderable—know a man that I can more thoroughly endorse, from every standpoint, as an up-to-date, yet conservative and scriptural evangelist than Dr. H. Wyse Jones. He seems to have all of the virtues and none of the faults of the very best men that God has called into this work."

Other churchmen of high position and note speak in glowing terms of the great work done by our former friend and countryman of whom we are pleased to make this mention that his friends and former acquaintances in the county may learn in a small degree of his great success and eminence as a gospel preacher.
