

DEBENT POLITICS!

Recently the Richmond Whig and a few other Democratic papers have been publishing editorials that advocate "decent politics" in Virginia. We are glad to see at least one of the leading daily Democratic journals of the State taking such a position. The assertion of the Whig that heretofore vituperation and indecent methods have too greatly prevailed is substantially true. Our politicians and political papers on both sides have been too bitter and reckless. It is useless to say who, we think, are to blame for the condition of affairs that has heretofore existed. It is sufficient to say that we most cordially agree with the Whig that a reformation should be made. Individual interests may have been subserved by the old indecent political methods, and temporary party advantage may have been gained thereby, but individual interests are worth but little when placed by the side of the welfare and peace of the great mass of the people, and temporary party advantage is a small consideration when compared with the great public benefits that would result from a feeling of less harshness between political factions and political opponents. Our people are seemingly a rash people—swayed too much by prejudice and passion and too little by reason. There seems to be a general desire among the masses of the people to correct this unfortunate disposition. It is the duty of all the newspapers in the State, regardless of the interests of individuals and parties to aid the people all they can in this laudable undertaking. Why should men fall out and heap the vilest abuse upon each other simply because they hold different political views? Why should a man regard his neighbor as dishonest and dishonorable because he chooses to think for himself and not in the same channel as others elect? The prosperity and progress of Virginia have been greatly retarded by the bitter and indecent political methods that have prevailed since the war. Capital and people who desired to come and settle in the State have been kept away by the bitter feeling that has existed so long between the political parties. It is unreasonable to think that capital would seek a community where the people were calling each other the most villainous names, because difference existed between them on political questions. Not only is this so, but the disposition that has heretofore been shown to make assaults upon the private character of candidates has to a great extent discouraged worthy men from placing themselves before the people as political aspirants. With a kinder feeling existing between parties and a more decent manner of conducting political canvasses worthier and abler men will come to the front and represent the people.

We not only need reform in the direction indicated, but also a more liberal spirit throughout in the politics of the State. Under the teachings of illiberal and selfish leaders a great many of our people have adopted a proscriptive method in business and social relations that reflects most seriously on the intelligence and moral character of the State. Men have been ostracised and broken down in their business matters simply because they dared to assert their political faith, which happened to be in antagonism to the views of the majority of the citizens where they resided. Business and social ostracism are powerful weapons and has been used most freely regardless of the happiness of the people and the interests of the Commonwealth. Let this wrong also be removed. Let politics be more decent and liberal and all the people will be happier and progress and prosperity will visit us on all sides.

FATAL FLAMES.

Hotel Burned in Chicago and Two Persons Burned to Death.

CHICAGO, July 5.—Fire was discovered in the rear basement of the restaurant of Bureky & Milan, 102 and 104 south Clarke street, by the watchmen of Kohl & Middleton's dime museum about 4 o'clock this morning, and an alarm was immediately turned in. The fire rapidly communicated with the elevator, and by means of it spread to all the floors of the buildings in an incredibly short time. The smoke and flames rushed from the rear to the front, and were pouring out of all the windows by the time the department arrived on the ground. The second, third, fourth and fifth floors of the buildings are occupied by the Benton Hotel, which was fitted up as a cheap lodging-house. The upper floors were formerly used as store-rooms, and were converted into hotel apartments by from partitions, making a veritable trap, in which over thirty five people were sleeping. A young man named Charles Speech, of the Evangeline Company, rushed up stairs and aroused as many as he could by shouting and pounding on the doors. He was very soon driven out of the hotel by the smoke and flames. His efforts were rewarded by seeing ten or fifteen persons leaving the house. One man, cut off from the stairway, forced the skylight and came out on the roof. Another tried the front fire-escape from the fourth floor, but was driven to the roof. He was slightly burned. Another man rushed from the rear fire escape and came down through another building. It was at first thought that from ten to fifteen persons had burned to death, but subsequent search by the firemen revealed only two dead bodies. They were both men of middle age, who had been sleeping in bunks. They were both found on the floor in the middle of a room on the fifth floor, and one was burned beyond recognition. Neither one had been identified this morning. In fighting the flames four firemen were badly hurt. John T. O'mally, of the hook and ladder company, was severely cut in the shoulder by plate glass. The origin of the fire is a mystery, as all fire in the ranges was out. It was probably attributable to the Fourth-of-July celebration. The loss to the restaurant owner is about \$6,000; fully insured. The loss on the hotel and buildings is about \$10,000; partly insured.

Struck by a Falling Star.

A gentleman well-known public official, was passing from St. James's Park into Pall Mall by the garden wall of Marlborough House, on Saturday last, in the afternoon, he suddenly received on the right shoulder a violent blow, accompanied by a loud cracking noise, which caused him great pain and to stumble forward as he walked. On recovering his foothold, and turning round to see who had unceremoniously struck him, he found that there was no one on the pavement but himself and the policemen on duty at the park end of it. But in a little while the servant who had taken away the coat to brush brought it back to point out that over the right shoulder the nap was pressed down flat in a long straight line, exactly as if a hot wire had been sharply drawn across the cloth. The accident is therefore explained as having been caused by the explosion of a minute falling star or meteor. It is an unprecedented and most interesting occurrence, and deserves, I think, to be placed on public record.—Ex.

A Striker Turns State's Evidence.

St. Louis, July 6.—G. M. Hayward, formerly a Knight of Labor striker during the southwest troubles, but who recently joined the Gould detectives and turned state's evidence on his fellow strikers, was stabbed seven times on the steamer Mary, as the boat was coming in from an excursion. Hayward was recognized and attacked by five men. His revolver was taken away from him and besides the knife wounds he was kicked in the head, and mouth. He is fatally injured.

Do You Mean Business?

Well, if you have strength to push your business, it is well. But many a man's business has broken down and had no push in him. If you want to make a success, build up your system by the use of Brown's Iron Bitters. Mr. W. M. Winfree, of Petersburg, Va., says: "There is no medicine equal to Brown's Iron Bitters for general debility." It cures dyspepsia, enriches the blood and strengthens the muscles.

An Illinois Snake Story.

Captain P. H. Sniff was cleaning fish for supper at a fishing camp on the shores of Penney's slough a few evenings ago, when he became conscious of a hard tug of the tail of the fish he was cleaning.

Looking up, he saw a garter snake holding to the fish's tail and pulling hard. The Captain, who is not bothered with the customary unreasonable prejudice against harmless serpents, hit the snake a sharp rap on the nose and said: "Shoo!" The snake was as tame as a kitten. He let go, but at once came back and renewed his efforts to steal the fish. The Captain then gave him the entrails of the fish, which the snake devoured eagerly. Altogether, the snake at the entrails of six fish. After that he hung round the camp till it broke up, and he was a great pet.

Prepare your turnip patches. We need more enterprise and less talk of hard times. The preserving kettle is now kept very busy. Political excitement should be avoided in hot weather. The Court of Appeals is still in session at Wytheville. The United States Court convened at Abingdon Tuesday. Hog cholera has again made its appearance in Scott county. Most all of the women folks in and around town are busy picking raspberries. Ahem! Yes; the wumps again! This time Arthur Iron is the victim. The first new wheat offered in Richmond, was from Dinwiddie county, and brought 85 cents. Love may be blind, but in some way it manages to get on to a man's bank account. Wm. P. Hoffman, formerly of the Bedford Democrat, Chronicle, News and Sentinel, will soon publish the Glade Spring Leader. It must be glorious fun to go courting in Greenland. The nights are about three months long. The man Spicer, who was shot in a revenue raid some time ago, by Capt. Hull, has been very sick in jail at Abingdon. There are a great many surmises as to who is the dupe of Marion. Are there so many that you can't guess the right one, boys? It is now thought that the negro who was reported to have been killed by the train at Abingdon a few weeks ago, was murdered and put on the track. To have a beautiful bed of flowers try Chinese pinks. They are of all colors, and when a bed of such pinks is made by sewing seeds of all the varieties the contrast of colors is very striking. This is a great fruit year. Strawberries, raspberries, cherries, gooseberries, currants, etc., were very plentiful, and soon an abundant yield of apples, plums, grapes and blackberries will be ready for use. What one man is unable to do for want of capital can be easily accomplished with the combined capital of two or three men. We lack enterprise far more than we do money. Improve your breed of hogs and raise more of them. The average farmer of Kentucky and some of the Western States fattens annually from 75 to 250 head, and sells them on foot on his place. A Walker has been the Governor or a member of the University of Virginia, in place of Hon. J. S. Pennington, resigned. The almost daily rains of the past few weeks have not only seriously interfered with the harvest, but have materially injured both the wheat and hay. The promise of an exceptionally fine wheat yield has been greatly impaired and while the quantity will be large, the effect of the wet weather will greatly depreciate its value. The wheat harvesting has been in full blast, though it must have been done "between showers." By much care, however, the farmers think that they will save their wheat which is far above an average crop. Some think we have been too personal. If we have we honestly ask the pardon of all those who so consider the items personalities. But we can truly say that there was nothing said through any disrespect to any one whatever. We did not mean to intrude on any one, and therefore, we hope no one feels aggrieved in any way. After the arrival of the fishing party last Friday a merchant of town stepped up to one of the party and said: "You say the cat-fish weighed about 40 pounds?" "Yes, sir; it was the biggest cat-fish I ever saw." "And it got away from you?" "Yes." "Will you take an oath to that?" "I'll take no more oaths; I swore enough about the blamed thing when it got away."

Ley & Davis change their advt. this week. Note important changes in the N. & Western schedule this week which went into effect last Sunday. We could not give our readers the usual amount of reading matter this week. T. J. Davenport was in town the first part of the week. Miss Alice Sullivan is reported no better. Mr. Fred. Boatwright remains very sick. The Marion club will, in a few weeks, be prepared to cross bats with any club in the Southwest. Mrs. Geo. S. Smith is still very ill, and little hopes are entertained of her recovery. The supervisors and the overseers of the poor held their annual meetings on Monday and transacted a good deal of business. Prof. W. E. Peters and family arrived Tuesday night and are the guests of Mrs. James W. Sheffey. They will remain here during the summer. Misses Mary Walthall and Carrie Francis will attend the normal institute at Salem which commences on the 13th inst. Several other ladies will go from here. Dr. R. J. Preston and wife, of Abingdon came on yesterday's train and will remain in the city for a few weeks. The New York Ledger is so well known that it seems superfluous to speak of its excellent qualities. We wish to say that the list of stories now running in its columns are of more than ordinary merit and attractiveness. In a few words, it is the best story paper published. A young lady named Miss Waldron, about nineteen years old, who resides near Buford's, Va., completed her forty eighth day of fasting on last Thursday week. Her only nourishment was small quantities of vinegar and water. Her case puzzles the medical profession. My Books are closed, I cannot sell any more goods on credit. I am compelled to resort to this measure, and believe to be the best interest to those concerned. S. O. Painter. The Court of Appeals has ordered a rule against D. C. Miller upon petition of A. G. Pendleton for mandamus. This proceeding is to determine who is Superintendent of Public Schools of Smyth county. The case will be heard by the Court on the 15th of July. Thomas, a son of Thos. S. Pruner of this place, caught hold of an elevator at the asylum on Monday and was carried up to the second story of the building when he struck his head against some timber and was thrown down amongst a pile of lumber. His head was severely cut and two of his teeth knocked out and one of his legs bruised badly. Boys should not venture about the building as it is a dangerous place. Persons owing me, will please come forward, and settle at once, as I wish to close all accounts by 15th of July, many of the accounts are long standing, and must be settled by note or negotiable paper. Jno. S. Pendleton. A Virginia girl asking her friend to visit Florida, says: The moss clad forests of stately oak, Are thick with their sombre shade, And the tangled growth of many a vine; Fills the swamps of the everglade. Here the sick folks came from the North; In search of new strength and health, And the orange groves of lucious fruit Are yielding their golden wealth. Here the lazy alligator barks, On the lakes and sandy shore, And his parents and great grand parents. Barked in the sunny days of yore. The Florida land, is a land of flowers, And a land of sunlit pleasure; Where people would rather rest than work, And enjoy their days of leisure. My Books are closed, I cannot sell any more goods on credit. I am compelled to resort to this measure, and believe it to be the best interest to all concerned. S. O. Painter. My cards are now running, bring in your wool. Cash or produce in exchange for carding at cash prices. June 1-86. E. W. MARCHANT. FOR DYSPESIA and Liver Complaint, you have a printed guarantee on every bottle of Shiloh's Vitalizer. It never fails to cure. J. S. Pendleton. Mr. George Dillow was in the city on last Sunday and Monday. W. C. Seaver, Jr., was down from Wytheville Sunday. Mr. William Hester left Sunday morning for Salem to resume his business as depot agent at that place. Misses Alice Brian and Mary Fulton, of Grayson county, are on a visit to relatives and friends in this place. There is a certain young lady around through the country who says she has out "bait" and will soon become a "Fisher." Miss Cora Winston, of Snowville, is on visit to friends and relatives here, and is the guest of Miss Emma Moore. She will remain here several weeks. The Commercial College of Ky., University, Lexington, Ky., received the Gold Medal over all College at the World's Exposition. See advertisement. Capt. John Barnitz, the popular hotel keeper of Sharon Springs, is now in our town prospecting. We hope that he may be suited in his plans and that we may have him as a citizen. Mr. Charlie White's famous dog, "Carlo," was caught on the railroad bridge near Look & Lincoln's wagon factory and run over by the east bound mail train on Tuesday morning, crippling him very badly. It is thought the dog will live. Dr. Jno. S. Pendleton left Monday night for Richmond to attend the meeting of the Board of the Medical College which is in session at that city. "Dr." John Lather will attend to Dr. Pendleton's "business" in his absence. Died, near Pleasant Hill, this county, on the 3rd inst, Mr. Phillip Q. C. Snively, aged about 65 years, a good citizen and a consistent member of the M. E. Church South. He leaves a wife and several children. 'Tis Said— Harvest is under full head way. There will be a good oat crop this season. Miss Florence Dodd is visiting the Misses Brittons. Corn is looking well and growing rapidly. Our town has been very quiet for the past few days. Mr. Max Weller left the first part of the week for Mt. Airy, N. C. Raspberries are selling at 25c. per gallon. Butter still ranges from 15 to 20 cents per pound. The hum of threshing machine will soon be heard. Look & Lincoln quit work Thursday, but resumed work again Monday morning. The river was on a boom Monday evening and a number of ladies went out to see the sight. Why don't our city fathers attend to having the side-walk completed at the bridge at the depot? No Sunday school was held at the Methodist church Sunday morning on account of rain. The large cat fish which escaped from Mr. Geo. Seaver at the creek near Martin's has not been caught yet. The Abingdon club as well as the Blacksburg boys failed to put in their appearance Saturday. The Court of Appeals at Wytheville will adjourn in about two weeks. The String band which was recently organized does credit to the town. The brass band played several pieces on the bridge Monday evening by the request of their leader for the benefit of the public (I) generally. There is a certain young man in town who is fond of the country Oats. The streets look clean and nice since they have been worked. There was a mistake in the report regarding the graded school at Mt. Carmel. We are informed there has been no such action taken. The Methodist picnic which comes off on the 15th inst is reported to be the last picnic this season. J. Eggborn, Esq., Boston, Culpeper Co., Va., says he used Powell's Fertilizer last fall on his wheat. Very much pleased with the result. His crop was unequalled by any in the neighborhood. The cabbage season was opened Tuesday by a consignment of two crates to Woldenden Bros. from T. J. Ashworth, of Rural Retreat. The cabbage crop for this year bids fair to be immense. J. N. Harman's boy had his fingers badly mashed by the falling of a window sash a few days ago. The bone of the middle finger was broken. The high waters of the 29th ult., swept things before it. It is said, that the oldest inhabitants never saw the water so high. Bowen for Congress, is still the cry. Charlie Barnett accidentally shot himself in the shoulder last week while out in the mountain hunting cattle. The wound is very serious but not fatal. Meeting of the New Council for Organization. Dr. King's New Discovery for Consumption is guaranteed to cure Coughs, Colic, Bronchitis, Asthma, Croup and every affection of Throat, Chest and Lungs. Trial Bottles free at Jno. S. PENDLETON'S Drug Store. Large Size. Ancient History. In the olden times Achilles, the leader of the Greeks, chased Hector, the champion of the Trojans, several times around the city of Ilium and finally killed him. This would look as if Hector lacked backbone, but in truth, such was not the case; he wasn't well. For unfortunately he had lost his bottle of Dr. Hart's Great Relief. If this sad occurrence had not happened, the issue would have been different. Moral—Never be without Hart's Relief. Fitz John Porter believes that Cleveland will sign the bill for his relief immediately on presentation. M. One hardly appreciates the vast amount of valuable and entertaining matter which is contained in THE LIBRARY MAGAZINE, if he sees it, in weekly form only; when its several issues are brought together in monthly parts it presents an array of valuable and timely articles that is fairly astonishing. The part for June contains a score of important papers selected from the best current literature, British and American, besides which there are the department of "Books and their Authors" and "Literary Notes and Comments," which contain well-nigh two hundred brief notices and notes. It is doubtful if any other magazine, in Europe or America, furnishes so much valuable and interesting reading, even at five times its cost, which is only \$1.50 a year. JOHN B. Temperance Column. JULY 1, 1886. D. C. MILLER, EDITOR. Good Templary in Marion is a success. After the tidal wave that came over our community subsided, the order has settled down to regular work. A few have withdrawn. But not so many as was anticipated in view of the fact, after all revival, there are some who haven't the grit to hold fast. But a withdrawal is no license to drink again. Our pledge is total abstinence for life. Look well to your obligation, Good Templars! DRINK, CRIME AND PAUPERISM. Gen. Stewart L. Woodford, in an address at the annual meeting of the Massachusetts Law and Order League, held in Boston recently, said: "It is the conscience that you must touch, it is moral force that you must create. Think of the cost of the traffic to the State. During a term of seven years as prosecuting lawyer in the federal service at New York City, I seldom, during those seven years, knew a case of criminal violation of law by violence and force of arms that was not either conceived or committed or aggravated by the use of intoxicating liquor. I have been present when the chairman of the board that examines jails and workhouses and asylums of New York went through those places; and I know it is the simple testimony of thoughtful, truthful people that liquor, in some form or the other, is responsible for three-fourths of the crimes of violence, is responsible for three-fourths of the pauperism, of the State of New York." Times are changing and we are changing with them. In days gone by the cross road politician and the candidate could be seen on every election day dealing out the cakes, the cider and whiskey to the adherents of his party. Now very little of that is done. Temperance and better views have taken hold of the people—notably so in Virginia, and in the Southwest in particular. We are told that every branch of trade is improved by the closing of the bar-rooms in Wytheville and elsewhere. The good effects are beginning to creep upon Goodson, our border town. That is easily accounted for. The ten cents that would have gone into the till of bar-keeper now goes to the provision store and the children and mother realize good from it. The influence of such a change permeates throughout a whole community, and gradually develops into good to all. The church will be greatly benefited—particularly in its financial operations. The steward and the deacon will get some of the pennies that heretofore were given for liquor. There is nothing to discourage us in the temperance movement. We have cheering news from from every direction. The prohibitory law went into effect in Atlanta on the 1st day of this month, and the papers say that everything is moving up to the reform very well, and the box tenders have made other arrangements—that is right; they will feel better in a new calling. The consciousness that their earnings is not the price of the souls and bodies of men will make them happy and doubtless God-fearing citizens; their former customers will think more of them and will send up thanksgivings for their own and the bar keeper's glad deliverance. Weddings on the Atlantic are to be the next social insanity. Price of BURNHAM'S IMPROVED Standard Turbine! It is cost of Manufacturing & Advertising. Mr. J. M. Norris, an old resident of Rome, Ga., says that he had been badly troubled with Kidney Complaint for a great many years and with Eczema for three years; at times could scarcely walk and had tried many remedies without benefit, until he began taking Electric Bitters and anointing his hands and feet with Bucklen's Arnica Salve. This treatment afforded him great relief and he strongly recommends Electric Bitters to all who suffer with Kidney Complaints, or need a Blood Purifier.
