Directory for Marion.

M. E. Church South, Rev. G. W. Miles, P. C.—Services every third Sabbath in each month, at 11 o'clock, a. m., and 6 1/2 p. m. Prayer meeting every Wednesday evening, at 6 1/2 o'clock.

MISTAKE SOMEWHERE.—The Abingdon Virginian learns that snow fell in Marion last Wednesday to the depth of seven inches. This will be news to the citizens of our "city." There was a very slight fall of snow, but not enough to cover the ground.

PERSONAL.—The Hon. James K. Gibson passed on the train, Sunday night last, enroute from Washington to Abingdon.

APPOINTED CLERK.—Judge Rives has appointed Mr. Edward S. Watson, of this place clerk of the United States Circuit and District courts at Abingdon.

Mr. James G. McChain, son of Rev. Jas. McChain, deceased, of Abingdon, died in Mississippi on the 16th ult., and was buried in Abingdon on Wednesday last.

Young Johnson, who killed Dr. Roberts in a street fight at Liberty some time since, was acquitted at Salem on Tuesday, the 22d ult.

TEXT BOOKS FOR PUBLIC SCHOOLS.—The following from Prof. Miller, Superintendent of Public Schools, explains itself:

OFFICE COUNTY SUFF., 7 MILE FORD, SMYTH CO., Va., February 27, 1871.

MESSRS EDITORS: Please state in your next issue that W. P. Francis is our agent for the purchase and sale of books for the public schools.

We have adopted McGuffey's Speller, and new series of Readers—Maury's Geographies and Davies' Arithmetics. Have not decided upon either of the Grammars adopted by the Board of Education. Very Respectfully, D. C. MILLER.

SALTVILLE.—We noticed upon our visit to Saltville, Saturday of last week, says the Abingdon Virginian, that the Company are making extensive improvements. Three new houses for families are nearly completed. A hotel of near 100 feet in length is being put up, old houses recovered, fences of the most substantial kind put up wherever needed; and, last, but not least, the McAdam Road commenced east of Mr. Palmer's residence is now completed above Buena Vista—about 1 1/2 miles west of the Works. With the present enterprise of those having the charge of the improvements at Saltville continued, within the present year additional improvements will be made. Altogether Saltville is putting on its best dress.

THE CHARLOTTESVILLE WOOLEN MILLS.—These mills are rapidly becoming popular for the excellence of the cloth they manufacture. Fitted up with the latest and improved machinery, they are making cassimeres, satinettes, etc., which for beauty of finish and durability will compare favorably with the best imported from the Northern manufactories. They use none but the best material, and cloths purchased from them may be relied on to be just as represented, which is an important consideration in these days of humbug and shoddy. We invite the attention of merchants to the advertisement of these mills, published elsewhere in this paper, and recommend to them to give their goods a trial before going North. Those who have cloths to purchase will do well to examine the samples of this establishment. The business manager, Mr. H. Clay Marchant, is reliable and prompt, and the goods which he sells will be found exactly as he represents them. Give him a trial.

PUBLICATIONS.—We are in receipt of the following publications this week: The Aldine for March presents a magnificent array of illustrations, selected with the good taste for which this periodical has become famous. The Statue of Goethe at Munich—Frederick S. Winston (portrait)—Moonlight on the Waters, (full page)—Island of Ufenau—Marie Antoinette (full page), after the celebrated picture by Paul Delaocoe—Ratisbon Cathedral—a glorious specimen of the perfection of Gothic Architecture—and a good hit at John Bull by Frank Beard, the caricaturist—All these go to make up number which must be seen to be appreciated. "How to Kindle Fires," by the Rev. Francis Tiffany is remarkably for its originality and vigor of thought and expression—"The Great Goddess" is a bright readable paper on New York fashionable circles.—"The Curse of Hungary" is an original poem of considerable power by Col. John Hay ("Little Breaches"). Altogether we consider that the number is a success and do not wonder that the publishers can already announce an edition exceeding 25,000 per month.

The liberal support of this enterprise we consider highly creditable to the taste and culture of the American people, and we advise our readers to send at once to the publishers, James Sutton & Co., 23 Liberty St. New York. Subscription price, (with oil chromo "Ducks") only \$2.50.

THE JITTLE CORPORAL; John B. Miller, Chicago, Ill., publisher. Subscription \$1.50 per annum.

The March number of this sterling juvenile magazine contains an unusual amount of entertaining reading matter and several handsome illustrations. The publisher offers to send free a copy of the steel engraving, "The Heavenly Chorus;" to each subscriber for 1871.

The Typographic Advertiser published by MacKellar, Smiths & Jordan, 606 Sanson street, Philadelphia, contains a great deal of matter interesting to printers, and numerous specimens of new type &c.

EVERY SATURDAY for March 4 commences a series of sketches by Keeler and Fenn, called the "taking of Pittsburg," continues its sketches of scenes and incidents of the Franco-Prussian war, and has numerous other illustrations. The publishers announce that in the next number will be commenced Charles Reade's new novel, "A Terrible Temptation." Now is a good time to subscribe for it. The price is 10 cents per number, or \$5 per annum. Address Jas R. Osgood & Co., Boston.

ONCE A WEEK is the title of a new illustrated paper, the first number of which has reached us. It is neatly printed, on fine tinted paper, and the illustrations are very good. It promises to be an excellent paper. It is published by Frank Leslie, 537 Pearl street, New York, at \$3.00 per annum, or \$1.50 for six months.

GRADUATED.—At the annual commencement of the medical department of Washington University, Baltimore, on Tuesday, Feb. 22d, fifteen Virginians graduated as M. D's. Among them we notice the names of Geo. R. Atkins, of Marion, and E. W. Snead, son of Mr. Geo. W. Snead, formerly of Marion.

NEVER throw a stone at any one until you have looked to see whether there is a window behind. Never leave your hat in the passage, unless it is bad one. Never be executor to a will, as it is all liability, great trouble, and no profit. Never quarrel with your wife, as you will only have to make it up and pay for the reconciliation. Never pay to see a balloon go up, as you can see it much better by remaining outside.

A young lady in Iowa had the irons too hot when she crimped her hair, and is now bald. The young ladies about here never get caught that way; they take their hair off to crimp it.

The "five great powers" are, Love, Money, Ambition, Revenge, and a good dinner.

DEAD.—Mr. J. N. Humes, father of Col. J. W. Humes, died on the 16th, at his residence in Abingdon.

MR. JOHN G. MEEM, of Lynchburg, was stricken with paralysis last week, and we learn that but little hope is entertained of his recovery.

RUNAWAY MATCH.—A Mr. Porterfield and Miss Williams, of Giles county, were married in Bristol on Tuesday.

QUERY.—What has become of the Marion town council?

CAR SMASHED.—A hand-car belonging to the section of Mr. G. L. Witt was run into by a freight train last Monday. Some hands were putting down a rail, when the freight train, which was off time, came upon them so suddenly that they had not time to fasten down the rail and save the car too, so with commendable presence of mind they left the hand-car to its fate and succeeded in fastening the rail in time for the train to pass over in safety.

APPOINTMENT OF CLERK.—We understand that Judge Rives has appointed Mr. Everett Early, of Albemarle, son of Mr. Wm. T. Early, clerk of U. S. District Court at Lynchburg.

DEFALCATION.—The Savings Institution of Wheeling, W. Va., which has had the confidence of the people for many years, has closed its doors. A number of working people lost their savings. The defaulting cashier is in jail.

Important to Sufferers from Nervous Excitement.—A gentleman residing in Grammercy Place, New York (whose name it would not be proper to mention), was suffering terribly about three weeks ago from the effects of dissipation. He could not sleep, vomited frequently, was tormented by horrible fancies, and could not keep a limb still. Opium made him worse. While in this condition he was visited by a friend, who advised him to try PLANTATION BITTERS as an anodyne, stomachic and tonic. "No use," said the sick man, despondingly; "nothing will save me. I'm a gone case." "Pshaw!" said his friend, "you're worth forty dead men yet! I'm going to doctor you now." So saying, he put on his hat, and went to the nearest druggist's presently returned with a bottle of the Bitters, of which he administered a dose forthwith. It had a soothing, cheering, tranquilizing effect. For a week thereafter, the gentleman continued to take the tonic regularly, according to the directions, and at the end of that time was able to return to business in sound health, and with a clear intellect. This information is furnished by Alexander T. Minton, of Morrisania, who will confirm it if addressed by mail.

Sen Moss Farine from pure Irish moss, for blanc mange, puddings, custards, creams, &c. &c. The cheapest, healthiest, and most delicious food in the world.

Cheering facts for the Bilious.—Every day demonstrates more clearly that liver complaint, in all its distressing forms, can be controlled and cured without difficulty or inconvenience. It is an obstinate disease, but its obstinacy is not proof against the pertinacious, remedial and restorative operation of Hostetter's Stomach Bitters. This genial corrective compels the organ to do its duty. It must secure regularly and healthfully under the influence of the Bitters. Their action brings it back from a state of rebellion into perfect harmony with the laws of health. If there is costiveness, it disappears; if there is skin-ache or back-ache, it ceases; if the side and the whites of the eyes are tinged with superfluous bile, they recover their natural hue; if the appetite is gone, it returns; if the digestion is impaired, it is restored; in brief, whatever the symptoms of the complaint may be, and whatever the phase it has assumed, a cure is certain. Such are the uniform effects of this preparation where bilious disease has been already developed; but in cases where there is merely a constitutional tendency to biliousness, it may be prevented in small quantities, of this palatable antidote. These are proven facts, and should be seriously pondered—nor, rather, they should be promptly acted upon—by all persons of bilious habit. melch-1m

NEW ADVERTISEMENTS. Waltham Watches. The extensive use of these watches for the last fifteen years by Railway conductors, engineers and the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy the question as to the real value of these time-keepers. More than 500,000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others. The superior organization and great extent of the Company's works at Waltham, enables them to produce watches at a price which renders competition futile; and those who buy any other watch merely pay from 25 to 50 per cent. more for their watches than is necessary. These time-keepers combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watch-making originating in this country or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time-keeping. Among the many improvements we would particularly mention: The invention and use of a centre pin of peculiar construction to prevent damage to the train by breakage of mainsprings, its original with the American watch company, who, having had the refusal of all other contrivances, adopted Fogg's patent pinion as being the best and fittest. The invention of a tempered hair-spring, now universally admitted by watchmakers to be the best, are used in all grades of Waltham watches. All Waltham watches have dust-proof caps protecting the movement from dust, and lessening the necessity of the frequent cleaning necessary in other watches. Our new patent stem-winder, or keyless watch, is a decided success, and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, watches with the above watches which tend to insure accuracy, cleanliness, durability, and convenience, are most valuable. The trademarks of the various styles made by the Company are as follows: AMERICAN watch co., Waltham, Mass., Ann. watch co., Waltham, Mass., American watch co., Crescent street, Waltham, Mass., Waltham watch co., Waltham, Mass., American watch co., Adams st., Waltham, Mass., Appleton, Tracy & Co., Waltham, Mass., American watch co., Adams street, Waltham, Mass., Waltham watch co., Waltham, Mass., P. S. Bartlett, Waltham, Mass., Wm. Ellery, Waltham, Mass., Home watch co., Boston, Mass. Examine the spelling of these names carefully before buying. Any variation even of a single letter, indicates a counterfeit. For sale by all leading jewelers. No watches retailed by the Company. An illustrated history of watch-making, containing much useful information to watch-wearers, sent to any address on application. ROBBINS & APPLETON, Gen'l Agents for American Watch Co. feb23-4w 182 Broadway, New York.

AGRICULTURAL.
How to Apply Manures.

Under certain circumstances, the best storage place for the manure of the stable is the field where it is to be used. If the land is so situated, and the soil contains a fair amount of clay, and is in such condition that the water of heavy rains will wash the soluble parts of the manure, not off from, but into the ground, the surface of the field is the best place for it. We can in no other way distribute the nutritive parts of the manure among the particles of soil so thoroughly as by allowing them to be washed in among them by falling rains. The only loss sustained in this practice will be by a very slight evaporation of ammonia—very slight, because the formation of volatile ammonia will almost entirely cease when the manure is so spread as to become too cold for rapid decomposition. The soluble ammoniacal salts, and the soluble earthy parts, will be washed into the soil, of which the clay and decomposed organic matter have a very strong absorption action, and which will hold all fertilizing matter that may coat its particles—very much as the fibre of cloth holds the coloring matter of dye-stuffs. To continue the comparison, the coating of the particles of soil is not a "fast color," but is removed by the water of the sap in the roots of plants, and is appropriated to their own use.

HENRY T. HELMBOLD'S Compound Fluid Extract Catawba GRAPE PILLS.
Component Parts—Fluid Extract Khabarb and Fluid Extract Catawba Grape Juice.
For Liver Complaints, Jaundice, Bilious Affections, Sick or Nervous Headache, Costiveness, etc. Purely vegetable, containing no mercury, minerals or deleterious drugs.

H These pills are the most delightfully pleasant purgative, superseding castor oil, salts, magnesia, etc. There is nothing more acceptable to the stomach. They give tone, and cause neither nausea nor griping pains. They are composed of the finest ingredients. After a few days' use of them, such an invigoration of the entire system takes place as to appear miraculous to the weak and enervated, whether arising from imprudence or disease. H. T. Helmbold's Compound Fluid Extract Catawba Grape Pills are not sugar-coated, for the fact that sugar-coated pills do not dissolve, but pass through the stomach without dissolving, consequently do not produce the desired effect. The CATAWBA GRAPE PILLS, being pleasant in taste and odor, do not necessitate their being sugar-coated. Price FIFTY CENTS per box.

E H. T. Helmbold's highly concentrated Compound FLUID EXTRACT SARSAPARILLA will radically exterminate from the system scrofula, syphilis, fever sores, ulcers, sore eyes, sore legs, sore mouth, sore head, bronchitis, skin diseases, salt rheum, cankers, eruptions, etc., and all other chronic constitutional diseases arising from an impure state of the blood, and the only reliable and effectual known remedy for the cure of pains and swelling of the bones, ulcerations of the throat and legs, blotches, pimples on the face, erysipelas and all scaly eruptions of the skin, and beautifying the complexion. Price, \$1.00 per bottle.

L Being prepared expressly for the above complaints, its blood-purifying properties are greater than any other preparation of Sarsaparilla. It gives the complexion a clear and healthy color and restores the patient to a state of health and purity, for purifying the blood, removing all chronic constitutional diseases arising from an impure state of the blood, and the only reliable and effectual known remedy for the cure of pains and swelling of the bones, ulcerations of the throat and legs, blotches, pimples on the face, erysipelas and all scaly eruptions of the skin, and beautifying the complexion. Price, \$1.00 per bottle.

M H. T. Helmbold's concentrated FRENCH EXTRACT BUCUR, the great Diuretic, has cured every case of diabetes in which it has been given. Irritation of the neck of the bladder and inflammation of the kidneys, ulceration of the kidneys and bladder, retention of urine, diseases of the prostate gland, stone in the bladder, calculus, gravel, brick-dust deposit, and mucous or milky discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to exertion, loss of power, loss of memory, difficulty of breathing, weak nerves, trembling, horror of disease, wakefulness, dimness of vision, pain in the back, hot hands, flushing of the body, dryness of the skin, eruption on the face, pallid countenance, universal lassitude of the muscular system, etc.

B Helmbold's Extract Bucur is diuretic and blood-purifying, and cures all diseases arising from habits of dissipation, and excesses and impurities in the blood, etc., superseding all other remedies for which it is used, and syphilitic affections—in these diseases used in connection with Helmbold's rose wash. LADIES.—In many affections peculiar to ladies, the extract Bucur is unequalled by any other remedy—as in chlorosis or retention, irregularity, painfulness or suppression of customary evacuations, ulceration or scirrhus state of the uterus, leucorrhoea or whites, sterility, and for all complaints incident to the sex, whether arising from indiscretion or habits of dissipation. It is prescribed extensively by the most eminent physicians for enfeebled and delicate constitutions, of both sexes and all ages for the above diseases.

O H. T. Helmbold's improved ROSE WASH cannot be surpassed as a face wash, and will be found the only specific remedy in every species of cutaneous affection. It speedily eradicates pimples, spots, scrofula, dryness, indurations of the cutaneous membrane, etc.; dispels redness and incipient inflammation, lices, rash, moth patches, dryness of scalp or skin, frost bites, and all purposes for which salves or ointments are used; restores the skin to a state of purity and freshness, and insures continued healthy action to the tissue of the face, on which depends the agreeable clearness and vivacity of complexion so much sought and admired. But however valuable as a remedy for existing defects of the skin, H. T. Helmbold's Rose Wash has long sustained its principal claim to unbounded patronage, by possessing qualities which render it a toilet preparation of the most superlative and congenial character, combining in an elegant formula those prominent requisites, safety and efficacy—the invariable accompaniments of its use—as a preservative and refresher of the complexion. It is an excellent lotion for diseases of a syphilitic nature, and as an injection for diseases of the urinary organs, arising from habits of dissipation, used in connection with the extracts bucur, sarsaparilla, and catalpa, grape pills, in such diseases as recommended, cannot be surpassed. Price, ONE DOLLAR per bottle.

D Full and explicit directions accompany the medicines. Evidence of the most reliable character furnished on application, and upwards of 30,000 unsolicited certificates and commendatory letters many of which are from the highest sources. The proprietor has never resorted to their publication in newspapers; he does not do this for the reason that his preparation does not need to be proved up by certificates.

Fashionable Boot and Shoe Shop.
West end of town, near Sheffield's Dry Store.
MARION, VIRGINIA.
I wish to inform the public that I am now better prepared to make all kinds of Boots and Shoes. I can manufacture anything in my line of business equal to any shop in the country. I have all kinds of Eastern shop machinery, done up in the best manner, and better than by hand. I profess to be a judge of my own business, having served a regular apprenticeship, and worked at the business for thirty years. I will make, mend and fit up boots or shoes of leather, or heavy cloth. Work done as cheap as it can be done in this part of the State by a workman. Don't forget, young men, that a nice fitting boot or shoe has been the means of marrying many an ugly man, and now think what it might do with a good looking one. Give me a call—the spring of the year is coming.

Dr. SCHENCK advises Consumptives to go to Florida in Winter.
Having for the last thirty-five years devoted my whole time and attention to the study of lung diseases and consumption, I feel that I understand fully the course that ought to be pursued to restore a tolerably bad case of diseased lungs to healthy soundness. The first and most important step is for the patient to avoid taking cold, and the best of all places on this continent for this purpose in winter, is Florida, where the climate is so pure, the temperature is regular, and not subject to such variations as in more northern latitudes. Palatka is a point I can recommend. A good hotel is kept there by Peterman. Last winter I saw several persons whose lungs had been badly diseased, but who, under the healing influence of the climate and my medicines, were getting well.
One hundred miles further down the river is a point which I would prefer to Palatka, as the temperature is more even and the air dry and bracing. Mellenville and Enterprise are located there. I should give a decided preference to Mellenville. It is located two miles from river or lake, and it seems almost impossible to take cold there. The tables in Florida might be better, and patients complain at times but that is a good sign, as it indicates a return of appetite, and when this is the case they will naturally increase in flesh, and then the lungs must heal. Jacksonville, Hillbena, and many other places in Florida, can be safely recommended to consumptives in winter. My reasons for saying so are that patients are less liable to take cold there than where there is a less even temperature, and it is not necessary to say that where a consumptive person exposes himself to frequent colds he is certain to die shortly. Therefore my advice is, go well down into the State out of the reach of prevailing east winds and fogs. Jacksonville, or almost any other of the localities I have named, will benefit those who are troubled with a torpid liver, a disordered stomach, deranged bowels, sore throat or cough; but for those whose lungs are diseased a more southern point is earnestly recommended.
For fifteen years prior to 1869, I was professionally in New York, Boston, Baltimore and Philadelphia every week, where I saw and examined on an average five hundred patients a week. A practice so extensive, embracing every possible phase of lung disease, has enabled me to understand the disease fully, and hence, my caution in regard to taking cold in Florida, is really that vast quantity of "Schenck's Pulmonic Syrup, Seaweed Tonic and Mandrake Pills," and yet if he does not avoid taking cold, in Florida, nearly everybody is using Schenck's medicines, especially Schenck's Mandrake Pills, for the climate is more likely to produce bilious habits than more northern latitudes. It is a well established fact that natives of Florida rarely die of consumption, especially those of the northern part. On the other hand, in New England, one third, at least, of the population die of this terrible disease. In the Middle States it does not prevail so largely, still there are many thousands of cases there. What a vast percentage of life would be saved if consumptives were as easily alarmed in regard to taking fresh cold as they are about scarlet fever, small pox, &c. But they are not. They take what they term a little cold, which they are credulous enough to believe will wear off in a few days. They pay no attention to it, and hence it lays the foundation for another and another still, till the lungs are diseased beyond hope of cure.
My advice to persons whose lungs are affected even slightly is, to lay in a stock of Schenck's Pulmonic Syrup, Schenck's Seaweed Tonic and Mandrake Pills, and go to Florida. I recommend these particular medicines because I am thoroughly acquainted with their action. I know that where they are used in strict accordance with my directions they will do the work required. This accomplished, nature will do the rest. The physician who prescribes for cold, cough or night-sweats, and then advises the patient to walk about daily will have a corpse on his hands before long.
My plan is to give my three medicines, in accordance with the printed directions, except in some cases where a freer use of the Mandrake Pills is necessary. My object is to give tone to the stomach—to get up a good appetite. It is always a good sign when a patient begins to grow hungry. With a relish for food and the gratification of that wish comes good blood, and with the surplus of the lungs, which is closely followed by a healthy and abating, the creeping chills and clammy night-sweats no longer prostrate, and the patient gets well, provided he avoids taking cold.
Now there are many consumptives who have not the means to go to Florida. The question may be asked, is there no hope for such? Certainly there is. My advice to such is, and it has been given to thousands, during the winter, with a temperature of about 70 deg., which should be kept regularly at that point, by means of a thermometer. Let such a patient make his exercise within the limits of the room by walking up and down as much as his strength will permit in order to keep up a healthy circulation of the blood. Consumption is as easily cured as any other disease if it is taken in time, and the proper kind of treatment is pursued. The fact stands undisputed on record that Schenck Pulmonic Syrup, Mandrake Pills, and Seaweed Tonic have cured very many of what seem to be hopeless cases of consumption. Go where you will, you will find some poor consumptive who has been rescued from the very jaws of death by their use.
So far as the Mandrake Pills are concerned, everybody should keep them on hand. They act on the liver better than calomel, and leave none of its hurtful effects behind. They are excellent in all cases as a purgative. If you have partaken too freely of fruit and diarrhoea ensues, a dose of the Mandrake Pills will cure you. At your sick headache, a dose of the Mandrake Pills will relieve you in two hours. If you would obviate the effect of change of water, or the too free indulgence of fruit, take one of the Mandrakes every night or every other night, and you may then drink water and eat watermelons, pears, apples, plums, peaches or corn, without the risk of being made sick by their use. They protect those who live in damp situations against cholera and dysentery. Try them. They are perfectly harmless. They can do you good only.
I have abandoned my professional visits to Boston and New York, but continue to see patients at my office, No. 15, N. SIXTH STREET, Philadelphia, every Saturday, from 9 a. m. to 3 p. m. Those who wish thorough examination with the Respirometer will be charged five dollars. The Respirometer determines the exact condition of the lungs, and patients can readily learn whether they are curable or not. But I desire it distinctly understood that the value of my medicines depends entirely upon their being taken strictly according to directions.
In conclusion, I will say that when persons take my medicines and their systems are brought into a healthy condition thereby, they are not so liable to take cold, yet no one with diseased lungs can bear a sudden change of atmosphere without the liability of greater or less irritation of the lungs, and hence, full directions in all languages accompany my medicines, so explicit and clear that any one can use them without consulting a doctor, and can be bought from any druggist. Country Gentleman for 1871.
"The best of all agricultural weeklies in America," says the Horticulturalist, N. York. "It has no equal in the entire field of American agricultural journalism."—Maine Farmer.
THE CULTIVATOR AND COUNTRY GENTLEMAN has been much enlarged and improved during the past year, and continues to maintain its former rank as the Standard Journal of American Agriculture. Including all the departments connected with the cultivation of the soil for profit or pleasure, it is its aim to promote the best interests of its readers—to protect them from fraud and falsehood—to provide them with the information most essential in their calling—and, leaving to others the task of furnishing the transient entertainment of the hour, to present a periodical of frequent issue, always fresh and seasonable, and especially adapted in every department to the practical wants of the Farmer and his family. In extent of correspondence, in practical suggestions, in agricultural news—it is believed to be without an equal, and it should be placed in the hands of every farmer, fruit-grower and breeder in the country. For them, as well as for their wives and children, the interest and value of its contents have never before been so great as now.
TERMS.—The terms are lower than those of any other paper of similar standing: One copy, \$2.50 per year; Four copies, \$9; Eight copies, \$16.
All new subscribers to the Cultivator and Country Gentleman for 1871, paying in advance, previous to the close of 1870, will receive the paper weekly, from receipt of remittance to January 1, 1871, without charge.
Any person wishing to try the paper before subscribing will be supplied with copies regularly from date of application to January 1, 1871, for the nominal price of 25 cents.
