NEW ADVERTISEMENTS.—We call the attention of our readers to the following new advertisements, published to-day:

Maj. A. G. Pendleton, Attorney at Law, late of Lynchburg, has located at Marion, and offers his professional services to the people of this and the surrounding counties. See his card in another column.

The Spring session of Holston Male Academy is advertised to commence April 10. For terms, etc., see advertisement.

C. Derriek, Commissioner, advertises a valuable farm for rent. For particulars see advertisement in another column.

Turnbull & Brother advertise for agents to sell a popular work.

A. S. Haller, Wytheville, advertises Virginia text books for sale. He is agent for the sale of the University series of school books. These books should be used in every Virginia school. Aside from their other merits, they possess the additional merit of being prepared by Southern teachers. We call the attention of those interested in the cause of education to the advertisement of this series, published in another column.

THIRD ROUND of quarterly meetings for the Wytheville district: Jefferson circuit, Worth's chapel, May 13-14; Grayson circuit, Lebanon, May 20-21; Hillsville circuit, Old Town, May 27-28; Wytheville station, June 3-4; Jacksonville circuit, Bethel, June 10-11; Wytheville circuit, Pleasant Grove, June 17-18; Newbern circuit, Reed Island, July 1-2; Marion circuit, Denton's chapel, July 8-9.

District meeting will be held at Dublin, Va., June 8th, 9th, 10th and 11th. Bishop Kavanaugh will preside. J. W. DICKEY.

APPORTIONMENT OF STATE SCHOOL FUNDS.—The following table, which we take from the Richmond Dispatch, gives the school population of the counties in the eighth Congressional district, and the amount of money coming to each from the State school funds, now ready for distribution:

Table with 3 columns: County, Sch'l Pop., Amount. Rows include Bland, Buchanan, Carroll, Craig, Floyd, Giles, Grayson, Lee, Montgomery, Pulaski, Roanoke, Russell, Scott, Smyth, Tazewell, Wayne, and Wythe.

The above apportionment has been approved by the Board of Education. It will be seen that twenty-five cents per head of the school population is apportioned. On receipt of the scheme county superintendents are required to prepare and forward to the State Board their several schemes for subdivision among their districts. If approved, they will be promptly returned, and the money will be made available for the payment of teachers the first of April, or as soon thereafter as the Treasurer can obtain it from the State Treasury. As soon as the county superintendent receives notice that the money is in the county treasury it will be his duty at once to notify each of the Boards of Trustees in his county, who can proceed to pay teachers.

Circuit Court.—The Spring session

THE ALPINE, for April, appears with its usual promptitude, which is remarkable in a publication bestowing such unusual care on its typographic appearance. The number before us is probably the best of any yet issued, which is saying a great deal, and augurs well for the ability of its conductors to redeem their pledges of constant progress and improvement. The illustrations are Friedrich von Schiller (portrait), after Hartmann—Samuel L. Clemens (Mark Twain), a portrait, as successful as any we have ever seen—A Russian Peasant Girl (full page), after Solokoff—Harvest Time—A Scene on the Coast of Helgoland, after Morgenstern, a magnificent full page cut which ought to add even to the reputation of THE ALPINE—A Faun and Satyr, after Moller—Jean Ingelow (a portrait), by Billings, not quite up to the standard of THE ALPINE portraits; and How is this for High? another of those timely and telling hits of Beard's, for which he is gaining a great reputation.

We hope our town will be represented on THE ALPINE books, and to that end would say that the subscription price, including the elegant oil chromo "Ducks," is only \$2.50, with a liberal deduction in favor of canvassers and clubs. Publishers' address, James Sutton & Co., 23 Liberty street, New York.

THE LITTLE CORPORAL for April is received, and is as bright and attractive as ever. Among the articles worthy of special mention is, "How Statues are Made," by Frances E. Willard; "Girls of the Far North," by Susan Coolidge; "Birds and their Ways," by Farizade E. Hatheway; and stories by Lucia Chase Bell, Mrs. E. E. Prentiss, and other well known writers. In the line of poetry, there are "April Showers," by the editor, Emily Huntington Miller; "Getting Up Stairs," by Helen L. Boatwick; "How the Poem is Born," by Joel Benton. The April number begins a new quarter, and the publisher announces that subscriptions may begin with this number, though back numbers can always be supplied. Terms \$1.50 a year. Sample number, with premium list, free. Address the publisher, John E. Miller, Chicago.

EVERY SATURDAY for April 1st is fully equal to its predecessors in interest. Among the numerous illustrations in this number, "A March Day," "The Old Style and the New," and "Queen Victoria and the Princess Louise" are especially worthy of mention. The price of EVERY SATURDAY is \$5 per annum, or 10 cents per number. Jas. R. Osgood & Co., Boston, Mass.

We have received a copy of "Good News," a paper published under the auspices of the Young Men's Christian Association at Richmond, Va. It is very neatly printed and contains a good deal of interesting matter. It is published monthly at \$1.00 per annum. Address "Good News," Box 224, Richmond, Va.

IN-GROWING TOE NAILS.—Omit all modes of cutting out the nail by the root, and all other cutting or torturing operations. Begin the effort at cure by the simple application to the tender part of a small quantity of per-chloride of iron. It is found in drug stores in a fluid form, though sometimes in powder. There is immediately a moderate sensation of pain, constriction or burning. In a few minutes the tender surface is felt to be dried up, tanned, or mummified, and it ceases to be painful. The patient, who before could not put his foot to the floor, now finds that he can walk upon it without pain. By permitting the hardened flesh to remain for two or three weeks, it can be easily removed by soaking the foot in warm water. A new and healthy structure is found, firm and solid. If therefore the nails be no more cut around corners or sides, but always curved in across the front end, they will in future grow only straight forward.

A SAD DEATH.—Rev. Solomon Collins, working at the Plaster Banks at Saltville, was scalded to death on Saturday last. The particulars, as given by the Abingdon Virginian, are as follows: The plaster is drawn from the pit by a steam-engine and train; and upon the occasion referred to, when the train had nearly reached the top of the grade, a large rock or piece of plaster fell upon a beam to which the elevating rope was attached, breaking the beam and precipitating the cars downwards, the rope catching Mr. Collins in its coils and carrying him through the house and

FIRE.—Just as we go to press we learn that the dwelling-house of Mr. Robert Allen, at the toll-gate two miles east of town, caught fire this (Wednesday) morning and was burned down. We did not learn the origin of the fire.

DEATH OF WM. KING HEISKELL.—The Abingdon Virginian announces the death of Mr. Wm. King Heiskell, one of the most prominent men in that county for a quarter of a century past. He was shot from ambush some eighteen months ago, since which time he continued to decline till death put an end to his sufferings on Tuesday evening last, at the residence of his brother-in-law, near Loudoun, Tenn.

ACCIDENT IN PULASKI.—We learn that a lad some 12 or 15 years of age, living in Draper's Valley, about fourteen miles west of Dublin, accidentally shot himself in the arm on Saturday last. The injury sustained was very serious and it is feared may prove fatal. We learn that the arm was amputated by the attendant physician.—Hwytheville Enterprise.

NOTARY PUBLIC.—Gov. Walker has appointed Matthew Houston, of St. Clair Bottom, notary public for the county of Smyth.

OBITUARY. Died, in this county, on the 24th instant, Mrs. MARTHA J., wife of James A. Harris. Death has invaded our humble circle and removed a worthy, lovely and faithful companion, her six little children a fond mother, the M. E. Church one of its warmest advocates, and her neighbors a kind and generous friend. Although she was hastily summoned, her lamp was trimmed and burning, and in reply to the inquiries of a friend in regard to the solemn call, she responded, "All is peace," and soon her spirit launched forth to sing the alleluias in the bright clime above, which she had loved to do in our lowly temple of worship. A FRIEND.

Cheering facts for the Bilious.—Every day demonstrates more clearly that liver complaint, in all its distressing forms, can be controlled and cured without difficulty or inconvenience. It is an obstinate disease, but its obstinacy is not proof against the potent, remedial and restorative operation of Hostetter's Stomach Bitters. Its general corrective compels the organ to do its duty, it moistens the secret regularly and healthily under the influence of the Bitters. Their action being at least from a state of rebellion into perfect harmony with the laws of health. If there is costiveness, it disappears; if there is side-ache or back-ache, it ceases; if the skin and the whites of the eyes are tinged with superfluous bile, they recover their natural hue; if the appetite is gone, it returns; if the digestion is impaired, it is restored; in brief, whatever the symptoms of the complaint may be, and whatever the phase it has assumed, a cure is certain. Such are the uniform effects of this preparation where bilious disease has been already developed; but in cases where there is merely a constitutional tendency to liver complaint, it may be prevented throughout life by the regular use, in small quantities, of this palatable and effective medicine. These are proven facts, and should be seriously pondered—rather, they should be promptly acted upon—by all persons of bilious habit. A FRIEND.

THE ATTENTION VIRGINIA, NORTH CAROLINA AND TENNESSEE MERCHANTS Is asked to the Fabric of the CHARLOTTESVILLE WOOLEN MILLS, consisting of DIAGONAL AND KERSEYS, DOESKIN, CASSIMERES, SATINETTS, &c., which, after THREE YEARS' TRIAL, have given entire satisfaction in WEAVE AND PERMANENCY OF COLORS. It will cost you nothing to acquire our large illustrated circular, which contains full particulars. Address: TURNBULL BROTHERS, mar30-1m 8 N. Charles St., Baltimore.

Manhood: How Lost, How Restored.—Just published, a new edition of Dr. CALVERWELL'S CELEBRATED ESSAY on the radical cure (without medicine) of Spermatorrhea, or seminal weakness, involuntary seminal loss, impotency, mental and physical incapacity, ineffectiveness to marriage, etc., also, aneurysm, epilepsy and fits, induced by self-indulgence or sexual extravagance. Price, in a sealed envelope, only 6 cents. The celebrated author, in his admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure, simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically. This lecture should be in the hands of every youth and every man in the land. Sent, under seal, in a plain envelope, to any address, postpaid on receipt of 6 cents, or two post stamps. Also, Dr. Calverwell's "Marriage Guide," price 25 cents. Address the publishers, CHAS. J. C. KLINE & CO., 127 Broadway, New York, P. O. Box 4, 586. mar30-ly

CONSUMPTION, ITS CURE AND ITS PREVENTIVE. BY DR. J. H. SCHENCK, M. D. Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted DR. JOSEPH H. SCHENCK'S SIMPLE TREATMENT, and availed themselves of his wonderful efficacious medicines they would not have fallen. Dr. Schenck has in his own case proved that whatever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor. In this statement there is nothing presumptuous. To the faith of the invalid it is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unifying. It philosophy requires no argument. It is self-evident, self-convincing. The Sea-weed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes are inflamed, the stomach, they respond to the morbid action of the liver, there then comes the culminating result, and the setting in with all its distressing symptoms of CONSUMPTION. The Mandrake Pills are composed of one of Nature's noblest gifts—the Potophillum Felitatum. They possess all the blood-searching, alternative properties of calomel, but unlike calomel, they "LEAVE NO STING BEHIND." The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver like a clock is wound up. It arouses from its torpidity. The stomach acts resolutely, and the patient begins to feel that he is getting at last "A SUPPLY OF GOOD BLOOD." Sea-weed Tonic in conjunction with the Mandrake Pills and assiduously with the food. Objection is now pressing with all its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more fatigue, no exaggeration of the stomach. An appetite sets in. Now comes the best blood purifier ever yet given by an indulgent Father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten throne it occupied is removed and made new, and the lungs are again the seat of healthy and vigorous life, forth to enjoy the manhood or womanhood that was GIVEN UP AS LOST. The second thing is, the patients must stay in a warm room until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented, or a cure cannot be effected. Let air and riding out, especially in this section of the country in the fall and winter seasons, are all wrong. Physicians who command that course lose their patients, if their lungs are badly diseased, and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as fast as the strength will bear to get up a good circulation of the blood. The patient must keep in good spirits, be determined to get well. This has a great deal to do with the appetite, and is the great point to gain. To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words: "I was a few years ago confined to my bed, and at one time my physicians thought that I could not live a week; then, like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They first began to act in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time. "As soon as that began to subside, my cough, fever, pain and night sweats began to leave me, and my appetite became so good that it was with great difficulty that I could keep from eating too much. I soon gained strength and have grown in flesh ever since. "I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton, my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds. And for years have enjoyed uninterrupted health." Dr. Schenck has discontinued his professional visits to New York and Boston. He and his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 a. m. to 3 p. m. Those who wish a thorough examination with the Respirometer will be charged five dollars. The Respirometer declares the exact condition of the lungs, and patients can learn whether they are cured or not. The directions for taking the medicines are adapted to the intelligence even of a child. Beware of those who say that the nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the simple instructions that accompany them: First create appetite. Of returning health hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows; the cough loosens, the night sweat is abated. In a short time both of these morbid symptoms are gone forever. Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a curer of coughs and colds, may be regarded as a prophylactic against consumption in any of its forms. Price of the Pulmonic Syrup and Sea-weed Tonic, \$1.50 a bottle, or \$7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers. mar16

AGRICULTURAL.

Specific Manures for Gardens.

There are some manures which act like a charm upon certain vegetables which do not benefit others, indeed, sometimes seem to do harm. It is therefore very important for those who are acquainted with this fact, which is the result of many years of observations and experiments. First, if the garden has a gravelly, porous, substratum, manuring in the fall is not desirable, because the winter and spring snows and rains carry off the essence of the manures to a depth beyond the reach of the roots of any vegetable. Such a soil as this should be manured in the spring on the plowed ground, and the manures mingled with the soil by the plow. This sort of soil is best manured with fruit trees, they grow upon it better than any other.

Thirdly, for potatoes vegetable manures are best; for we have known fresh animal manure to injure the crop, and if this is not the case in every instance, the flavor of the potato is injured. A mixture of plaster, ashes, and wood earth in equal proportions we have known to produce fine crops, without the aid of any other manure. What the potato needs is equality of temperature; this is best effected by putting over them about eighteen or twenty inches of straw, or planting them under an old sod will have the same effect.

Fourthly, onions should have hen house manure, forked in around the roots. Fifthly, for asparagus, plenty of salts. No fear of having too much; even if an inch thick over the bed, no harm would be done. There should always be enough to destroy the growth of grass, weeds, and anything that grows to the detriment of the asparagus.

Sixthly, for lettuce, any stimulating commercial manure is best.

Seventhly, for tomatoes, hog pen manure, and soap suds will make them perfect.

Eighthly, for cabbage, the same as lettuce.

Ninthly, for beets, salts when they are planted, and a little when they are growing, is all they require if the soil is rich.

Tenthly, for strawberries, soap suds acts like a charm, but animal manures are generally injurious.

Eleventhly, for cucumbers, any good fertilizer put in the earth five or six inches from the seed. If the striped bug should make its appearance, use plaster freely over the hills and plants.

Insects Infesting House Plants.

The most common kind of these insects is the green house, which often completely covers the young and tender shoots of roses and other plants. These may easily be destroyed by inverting the pots over a tub of water or soap suds, and immersing the plants, waving them gently to and fro. A soft brush will assist in removing them—using some means to prevent the soil from falling out while performing the operation. The green fly may be destroyed in the same manner. In green-houses tobacco is generally used to fumigate the plants by burning in a furnace, but this is an offensive operation in the house. There is another insect more difficult to get rid of, which is frequently to be found on house plants. It is commonly known as the mealy bug. They are generally to be found in the axils of the leaves, and resembling little wads of cotton. They can not be removed by washing, but must be picked off by hand. This is a slow process, but it must be done when they first appear, or your plants will be ruined by them. The red spider is also a nuisance. These are very small, in fact almost invisible, except to a close observer. Their presence may be inferred if the foliage appears yellowed, or if, on observing this, turn up the leaves, and you will probably find the little rascals at work. They may be destroyed by profuse and repeated syringing of the plants, and particularly of the under side of the leaves.

There are some manures which act like a charm upon certain vegetables which do not benefit others, indeed, sometimes seem to do harm. It is therefore very important for those who are acquainted with this fact, which is the result of many years of observations and experiments. First, if the garden has a gravelly, porous, substratum, manuring in the fall is not desirable, because the winter and spring snows and rains carry off the essence of the manures to a depth beyond the reach of the roots of any vegetable. Such a soil as this should be manured in the spring on the plowed ground, and the manures mingled with the soil by the plow. This sort of soil is best manured with fruit trees, they grow upon it better than any other.

Thomas H. Thurmon
Takes this method of informing his old friends and the public generally that he is again engaged in the
MERCANTILE BUSINESS.
Having just returned from Philadelphia with a large and well-selected stock of
DRY GOODS, GROCERIES,
QUEENSWARE
& Hardware, BOOTS, SHOES, HATS, CAPS, &c., all of which were bought for Cash, at the late reduction in prices, and will be sold at old prices for cash or produce.
I wish to purchase immediately, 1,000 bushels of CORN, 1,000 bushels WHEAT, OATS and FLAXSEED, together with any amount of Butter, Lard, Beeswax, and in fact all kinds of produce.
I will also keep constantly on hand a large supply of SALT and PLASTER for my friends in Grayson and Ashe counties. Great inducements will be offered to customers, and they will benefit themselves by calling on me before purchasing elsewhere.
Address T. H. Thurmon & Co., (Next door above Sprinkle's Hotel) MARION, VIRGINIA.
Feb 2-6m

GREAT DECLINE IN GOLD!

J. N. Hull & Co.
Have just received their stock of
Spring and Summer Goods,
which have been bought since the great decline in gold, are correspondingly cheap. Call and examine our stock of
Dry Goods, Millinery Goods, Notions, Queensware, Hardware, Hats, Caps, Boots, Shoes, Paints, Oils, Glass, Putty, etc., etc., and we guarantee that you will find them as cheap as they are to be found in Southwestern Virginia. We have selected our Goods with great care, especially for this market, and make it a specialty to keep on hand everything to be found in a first-class retail store. We will exchange Goods at cash prices for all kinds of produce—paying the highest market price for the same. Our friends and the public generally are invited to give us a call and examine our stock.
We are agents for Messrs. Stuart & Palmer in the sale of Salt. A large supply always on hand.
Virginia: At rules held in the clerk's office of Smyth county, on the first Monday in February, 1871—
F. Johnston, plaintiff
Margaret Jones, widow of David Jones, dec'd, W. A. Jones, J. Howard Jones, N. Jasper Jones, N. Tarter and M. B. Tarter, J. Andrew Jones, John Sulgright and Martha his wife, M. McGhee and Angeline his wife, Josiah Jones and Rowalia Jones and John Callahan, defendants
IN CHANCERY.
The object of this suit is to subject a parcel of land of about 14 acres heretofore owned by David Jones and now in possession of John Callahan, to the payment of a judgment then debt in the name of E. S. Watson, guardian, for, F. McMillin vs. David Jones, Jos. J. Cole and Sam'l Cole for \$213.34 to be discharged by the payment of \$206.76 and costs \$6.58.
And it appearing from satisfactory evidence that the defendants Wm. A. Jones, J. Howard Jones, N. Jasper Jones, Nicholas Tarter and M. Emily his wife and Andrew Jones, are non-residents of the Commonwealth of Virginia, on the motion of the plaintiff, by his attorney, it is ordered that they do appear here within one month after due publication of this order and do what may be necessary to protect their interests in this suit.

THE ALDINE.

An Illustrated Monthly Journal of 16 pages, claimed to be the handsomest paper in the World.
The object of The Aldine is to furnish a medium which shall be a fit exponent of progress, and of the beautiful in printing, the kindred arts. The latest and most improved illustrations published in the order of mechanical and artistic skill, shall be taxed to the utmost to produce a sheet as nearly as possible—perfect in typography and illustration. While it is intended that the appearance shall be unexceptionable, no pains will be spared to keep the literary matter, original and selected, equal to the unequalled excellence of the illustrations. The Aldine has elicited the commendation of the European as well as the American press; and has been hailed as the commencement of a new era in the history of illustrated journalism.
Terms—One copy, four months, \$1; one copy, one year, \$2.50; five copies, one year, \$8.75. The publishers will send free the beautiful oil chrome "Ducks," as a premium to every subscriber who remits \$2.50 for one year's subscription, and, in addition, will send the wonderful CHRISTMAS NUMBER, printed in colors, and containing over fifty illustrations, to all whose remittance is remitted. It is received before the edition is exhausted.

Shot and Lead.

We have recently been appointed agents for the sale of the Union Lead Mine Co's Shot and Lead, to which we invite attention.
LEE, TAYLOR & CO., Lynchburg, Va., Feb 23

HENRY T. HELMBOLD'S Compound Fluid Extract Catawba GRAPE PILLS
Component Parts—Fluid Extract Rhubarb and Fluid Extract Catawba Grape Juice.
For Liver Complaints, Jaundice, Bilious Affections, Sick or Nervous Headache, Costiveness, etc. Purely vegetable, containing no mercury, minerals or deleterious drugs.
These pills are the most delightfully pleasant purgative, superseding castor oil, salts, magnesia, etc. There is nothing more acceptable to the stomach. They give tone, and cause neither nausea nor griping pains. They are composed of the finest ingredients. After a few days' use of them, such an invigoration of the entire system takes place as to appear miraculous to the weak and enervated, whether arising from impudence or disease. H. T. Helmbold's Compound Fluid Extract Catawba Grape Pills are not sugar-coated, from the fact that sugar-coated pills do not dissolve, but pass through the stomach without dissolving, consequently do not produce the desired effect. The CATAWBA GRAPE PILLS, being pleasant in taste and odor, do not necessitate their being sugar-coated. Price FIFTY CENTS per box.

H. T. Helmbold's highly concentrated compound FLUID EXTRACT SARSAPARILLA will radically exterminate from the system scrofula, syphilis, fever sores, ulcers, sore eyes, sore legs, sore mouth, sore head, bronchitis, skin diseases, salt rheum, cankers, runnings from the ear, white swellings, tumors, cancerous affections, nodes, rickets, glandular swellings, night sweats, rash, tetters, humors of all kinds, chronic rheumatism, dyspepsia, and all diseases that have been established in the system for years.
Being prepared expressly for the above complaints, its blood-purifying properties are greater than any other preparation of Sarsaparilla. It gives the complexion a clear and healthy color and restores the patient to a state of health and purity, for purifying the blood, removing all chronic constitutional diseases arising from impurities of the blood, and the only reliable and perfect remedy for the cure of the throat and swelling of the bones, ulcerations of the face, erysipelas and all scaly eruptions of the skin, and beautifying the complexion. Price, \$1.00 per bottle.

H. T. Helmbold's concentrated FLUID EXTRACT BUCHU is a diuretic and blood-purifying, and cures all diseases arising from habits of dissipation, and excesses and imprudences in the use of wine, beer, and other stimulating liquors, and is especially adapted for the cure of the blood, etc., superseding copaiba infusions, for which it is used, and syphilitic affections—in these diseases used in connection with Helmbold's rose wash. LADIES.—In many affections peculiar to ladies, the extract of Buchu is unequalled by any other remedy as in chlorosis or retention, irregularity, painless suppression of customary evacuations, ulceration or whitish state of the uterus, leucorrhoea or whites, sterility, and for all complaints incident to the sex, whether arising from indiscretion or habits of dissipation. It is prescribed extensively by the most eminent physicians for enfeebled and delicate constitutions, of both sexes and all ages for the above diseases.

H. T. Helmbold's approved ROSE WASH cannot be surpassed as a skin medicine, and will be found the only specific remedy for every species of cutaneous affection. It speedily eradicates pimples, spots, scorbatic dryness, indurations of the cutaneous membrane, etc., dispels redness and incipient inflammation, lices, rash, moist patches, dryness of scalp or skin, frost bites, and all purposes for which soaps and ointments are used; restores the skin to a state of healthy softness, and insures continued healthy action to the tissue of its vessels, on which depends the agreeable clearness and vivacity of complexion so much sought and admired. But however valuable as a remedy for existing defects of the skin, H. T. Helmbold's Rose Wash has long sustained its principal claim to unbounded popularity, by its purifying qualities which render it a toilet appendage of the most superlative and congenial character, combining in an elegant formula those prominent requisites, safety and efficacy—the invariable accompaniments of its use—as a preservative and refresher of the complexion. It is an excellent lotion for diseases of a syphilitic nature, and as an injection for diseases of the urinary organs, arising from habits of dissipation, used in connection with the extracts buchu, sarsaparilla, and catawba grape pills, in such diseases as recommended, cannot be surpassed. Price, ONE DOLLAR per bottle.

It speedily eradicates pimples, spots, scorbatic dryness, indurations of the cutaneous membrane, etc., dispels redness and incipient inflammation, lices, rash, moist patches, dryness of scalp or skin, frost bites, and all purposes for which soaps and ointments are used; restores the skin to a state of healthy softness, and insures continued healthy action to the tissue of its vessels, on which depends the agreeable clearness and vivacity of complexion so much sought and admired. But however valuable as a remedy for existing defects of the skin, H. T. Helmbold's Rose Wash has long sustained its principal claim to unbounded popularity, by its purifying qualities which render it a toilet appendage of the most superlative and congenial character, combining in an elegant formula those prominent requisites, safety and efficacy—the invariable accompaniments of its use—as a preservative and refresher of the complexion. It is an excellent lotion for diseases of a syphilitic nature, and as an injection for diseases of the urinary organs, arising from habits of dissipation, used in connection with the extracts buchu, sarsaparilla, and catawba grape pills, in such diseases as recommended, cannot be surpassed. Price, ONE DOLLAR per bottle.

H. T. Helmbold's approved ROSE WASH cannot be surpassed as a skin medicine, and will be found the only specific remedy for every species of cutaneous affection. It speedily eradicates pimples, spots, scorbatic dryness, indurations of the cutaneous membrane, etc., dispels redness and incipient inflammation, lices, rash, moist patches, dryness of scalp or skin, frost bites, and all purposes for which soaps and ointments are used; restores the skin to a state of healthy softness, and insures continued healthy action to the tissue of its vessels, on which depends the agreeable clearness and vivacity of complexion so much sought and admired. ASK FOR IT. FLEMING'S COFFEES WORM US NO OTHER. HOTELS.

NOTICE. FIRST CLASS HOTEL RATES REDUCED. On and after this date the WASHINGTON HOUSE will only charge for board and lodging \$2.25 per day. Breakfast, 50 cts; Dinner, 75 cts.; Supper, 50 cts.

While the prominent decline in supplies, and the great reduced profits in agriculture, mechanical, and other pursuits, necessitates economy, the proprietor, thankful for the liberal patronage extended to his house heretofore, trusts that the public will sustain him in this, an effort in the right direction, by an increase of business.
C. S. FERGUSON, Proprietor, Washington House, Jan 12-4w

J. V. DEATON, J. C. COLLUP, SPRINKLE'S HOTEL, (Formerly known as the MARION HOTEL, kept by A. B. SPRINKLE, MARION, VIRGINIA.)

Having rented the two houses (frame and brick), combining every convenience for public entertainment, no pains or expense will be spared to add to the comfort of permanent or transient guests. Our BAR and TABLE will be supplied with the best in the market, and therefore we hope to receive the old patronage of the House. There are large and well-arranged STABLES kept in connection with the hotel.
aug 11-9m DEATON & COLLUP.

BROWN'S HOTEL, (FORMERLY VIRGINIA HOTEL), MARION, VA.
The proprietor returns his sincere thanks to his friends and the public for the liberal patronage heretofore extended, and will use every effort to merit a continuance of the same.

The table will be supplied, at all times, with the best that the market will afford, and every effort will be made to render central location, within convenient distance to the depot, and with first-class accommodations at reduced rates, we confidently ask a fair proportion of patronage from our friends and the public.
A large and well-arranged stable is connected with the house, with an attentive ostler, affording ample accommodations in that line.
The bar is well supplied with wines, liquors, lager beer, warranted pure, and the best in the market.
A. M. BROWN, Marion, Va., Jan 26-1y
