### MAJ. R. R. HENRY

IN A TIGHT PLACE.

WITH AN ICEBERG BEHIND HIM AND A SIMOON IN FRONT OF HIM.

He stands with one foot on the iceberg, (National Democratic platform,) blowing cold. The other foot on the Simoon, (Wytheville platform,) blowing hot, and swears by Morrison and Randall that the Republican party shall live no longer.

The National Democratic platform declares expressly and explicitly, without prevarication or evasion:

1st.—Against the protection of our raw materials.

2.—Against the Blair School Bill and every measure like unto it.

3d. Against the repeal of the Internal Revenue.

The National Democratic party at Washington, accordingly, has fought:

1st.—Against the protection of our raw materials.

2d.—Against the Blair Bill and all other similar bills.

3d.—Against the repeal of the Internal Revenue.

Maj. Henry, in accepting the nomination at Wytheville, made use of the following language:

"I understand that the convention has adopted some resolutions that I have not seen. I take it for granted, however, that they are in entire accord with the State and National platforms, upon which I squarely stand."

Platform of the Democratic Convention adopted at Wytheville Aug. 4th, 1886:

1st, Whilst we recognize the necessity for such a revision of the tariff as may be necessary to correct its inequalities, yet we are opposed to any reduction in the rates of duty upon foreign imports that will injuriously affect our own industries or tend to a reduction in the price of labor, and especially are we opposed to putting raw materials on the free list.

2nd, We are earnestly in favor of repealing the entire system of Internal Revenue laws.

3rd, We recognize it to be both the right and the duty of the General Government to aid in educating its citizens and we are therefore in favor of the Blair bill or some other similar beneficent measure.

4th, Resolved that our delegates be and they are hereby requested to present the above resolutions of the Democracy of Wythe county to the consideration of the Congressional Convention.

Fourth. We are in favor of the continued coinage of silver.

Fifth. That, after the demands of the government have been met, any surplus money that may be left in the Treasury of the United States be applied to the reduction of the National public debt, thereby stopping the interest.

### A Little Too Fast.

That was a nice little trick the Wythe Democrats undertook to play, when the former chairman resigned, and Col. Henry S. Bowen, the uncle of our nominee, was elected to the position of county chairman of the Democratic party of Wythe.

We learn from a private letter from a friend in Wythe that Col. Bowen will not accept. We did not believe at the time, that this was so. We happen to know Col. Bowen, and know him as we do, we could not believe that he was unwilling to be represented by his nephew. Some men might be induced to do such a thing, under such circumstances, but you miss your man, when you select a Bowen to accept such a position.

## CLUVERIUS TO HANG.

The Prisoner Calm and Cheerful and Says He will Speak at the Proper Time.

Richmond State of Thursday.

The Supreme Court of Appeals, sitting at Staunton, to-day rejected the petition of counsel for Cluverius for a rehearing, and the telegrams received in this city announcing the judgment of the court awakened renewed interest in this case, which has become one of the most celebrated in the criminal annals of our country.

It will be two years on the 13th of next March since the body of Fannie Lillian Madison was found floating in the old reservoir. The trial, as is well known, was a long one, culminating by the finding a verdict of "Guilty."

Cluverius was arrested at Little Plymouth on the 18th of March, and waiving an examination at the Police Court he was brought to trial at the May term of the Hustings Court.

On the 4th of June, 1885, the jury brought in a verdict of "guilty," and he was sentenced to the penitentiary for the term of 20th of N. C. Court, commencing 1886.

Justly this prisoner, which appears in the Court in the lower court one. An al of the court of last session, in concluding its opinion:

"We have viewed this most voluminous record of the proceedings of the Hustings Court, and find no error of law, and justify this interfering with the judgment."

"The prisoner, in this respect, defied both and in this experience, and in the prison, of his crime, and living with his life for his foul deed, live not to act another!"

"The judgment of the Hustings Court is affirmed."

TO BE RE-SENTENCED.

As soon as the order of the court is certified to the Hustings Court Judge Atkins will have the prisoner brought before him, and another day set for the execution of the sentence.

THE PLACE OF HANGING.

The law requires the hanging to take place inside of the prison walls. Sergeant Smith was asked where he intended to have the scaffold erected. He replied that he had not yet determined, but thought it very likely it would be at the lower end of the corridor, on the north side of the jail.

HIS ONLY HOPE.

The only hope the prisoner now has is the Executive clemency. The Governor has received, since the prisoner's conviction, communications asking for a commutation of the sentence. If he declines to interfere Cluverius will hang.

Suppose Maj. Henry should stumble into the Democratic caucus—Doorkeeper. Who art thou? Maj. Henry. A Democrat from S. W. Va.

Doorkeeper. Friend, where is thy wedding garment? Maj. Henry. Here it is, (holding up the tail of the Wytheville platform.)

Doorkeeper. Friend, thee canst not come in here with that on. Thee has on a Republican garment. Out upon thee!—Bristol News.

## What for the People?

Under this caption, the Petersburg "Index-Appeal," the most sagacious, aggressive and intelligent democratic paper in Virginia or the South, furnishes the following editorial extract just before the adjournment of the last Congress. It contains food for the people to think over, and for the voters to ponder before they cast their ballots for the party, or the candidates of the party, that is responsible for the Morrison Free Trade bill, and the defeat of the Blair Educational bill. Every voter should read what the "Index-Appeal" so well and forcibly says:

"The adjournment of Congress cannot be long delayed. Even if the hot weather did not disperse the body the anxieties of representatives to see to their renomination and reelection will carry them home at an early date. But what will they carry to their people? What will they have to tell their constituents of what they have done, and left undone? What accounts will they give of their stewardship?"

An assault in force has been repeated against protection, and especially against Virginia protection; and it only failed of success by 71 votes, through a combination of 35 democrats with 123 republicans—the assault being made by the solid southern democratic force, with five exceptions, supported by 14 northern democratic and 4 northern republican votes—30 of the 35 democratic votes which helped to repel the assault being from the north. This is a very serious matter for reflection in Virginia so largely dependent for prosperity on protection, when eight of her ten representatives joined in the assault. Is the democratic party committed tully and finally to anti-protection, if not to free trade, by this action at Washington, in which 136 democratic congressmen formally and deliberately concurred, after full warning from the press of the country, including that of both parties in this state? It is a question the people must consider well, and it is for them to decide what is to be done in the grave emergency thus presented.

The tobacco tax has not been removed, nor reduced; the tax on fruit brandies has not been touched; and the internal revenue system has not been abolished. Democrats and republicans alike have failed to get the house of representatives even so much as to consider any proposition to do all or any of these things.

Meanwhile tobacco is crushed by the tax, and the administration of the internal revenue system has become even more harassing, inquisitorial and oppressive than was ever known before. What do the people think of it? What will they do about it? Does the mere democratic name bind them in absolute subjection to the party, while it absolves their representatives wholly from all popular allegiance? If the party discipline and influence at Washington compel representatives to disregard and contemn the wishes of their constituents, what is it that can or should compel their constituents to keep on giving their votes to the party, or, at least, to these recalcitrant representatives? Is Virginia to be sold out to free trade and a federal revenue exclusively internal that certain gentleman of a certain party shall draw their 5,000 a year as the real representative of British interests at Washington? Here is food for thought!

And the Blair school bill is again throttled! Over 5,000,000 for the free schools of Virginia is not allowed to come to us. Gov. Holliday pronounced free education a luxury for the people which the state could not afford, and now at Washington we are told that it is not only a "luxury which the federal government must not think of helping to furnish, but an injurious indulgence to the poor—to poor states and to poor people."

All this and much more to the same effect that might be cited is an unfortunate exhibit to go before the people upon. It is very unfortunate for the man responsible for it, but it is even more unfortunate for the people. What is to be the conclusion on these important subjects? Are the people to rule parties or are parties to rule the people with respect to them. Or are the voters to be independent and coerce the party? Our judgment is that the party must

yield (that is, as far as leaders constitute the party)—must acquiesce—in the popular will, right and interest, or the party must "go!"

### Robbins' Monster Show.

This establishment, which, by the way, will be the only show of the kind this year, will exhibit at Marion, Monday Oct. 18th. Mr. Robbins has the reputation of having one of the best shows now traveling, and has received the endorsement of the local press wherever he has exhibited. The following, taken from a Rochester exchange, we commend to the attention of our readers:

"Frank A. Robbins' circus drew a large crowd to town last Saturday, and the result was two good sized audiences within the tent. The parade was creditable and was witnessed by thousands. There was a large crowd at the afternoon performance, and a still larger audience present in the evening. The ring performance was one of the cleanest and best. Mr. Robbins has got together a good show, in every way worthy of liberal patronage. His herd of performing elephants alone is worth double the price of admission. They are wonderfully intelligent and executed military movements with great precision and promptness. The riding was better than the average, the tumbling as good as seen in any show, and the special features very attractive. Mr. Robbins is justly entitled to praise for his splendid entertainment, and all hope to see him this way again another season.—Rochester Courier, June 25, '86.

Cure for Flux.

Many deaths are occurring daily all over the country from bowel trouble, but particularly from flux. It seems to be almost an epidemic. The best remedy we know of is Lytle's Elixir. It seems to hit the case exactly, and we have yet to hear of the first case where it has failed, if used in time. It is made from the prescription of an eminent physician, who used it himself in a large practice. Lytle's Elixir ought to be in every home, where it can be resorted to at once upon the first appearance of trouble with the bowels.

NINTH DISTRICT NATIONAL DEMOCRATIC PLATFORM.

TARIFF. Resolved, Whilst we recognize the necessity for such revision of the tariff as may be necessary to correct its inequalities, yet we are opposed to any reduction in the rates of duty upon foreign imports that will injuriously affect our own industries or tend to a reduction in the price of labor, and especially are we opposed to putting raw materials on the free list.

TARIFF. We denounce the abuses of the existing tariff; and subject to the preceding limitations, we demand that federal taxation shall be exclusively for public purposes. (The platform for m also denounces the Republican party for not putting raw materials on the free list.)

INTERNAL REVENUE. Resolved, We are earnestly in favor of repealing the entire system of internal revenue laws.

INTERNAL REVENUE. The system of direct taxation known as Internal Revenue is a war tax and so long as the law continues, the money derived therefrom should be devoted to the relief of the people from the remaining burdens of war, and be made a fund to defray the expenses and care and comfort of worthy soldiers disabled in the line of duty in the republic and for the payment of such pensions as Congress may from time to time grant to such soldiers, a like fund for sailors having been already provided; any surplus should be paid into the treasury.

EDUCATIONAL. Resolved, We recognize it to be both the right and the duty of the general government to aid in educating the citizens, and we are therefore in favor of the Blair bill, or some other similar beneficent measure.

EDUCATIONAL. We are opposed to any proposition, which stops the interest upon any pretext.

EDUCATIONAL. Resolved, That the Government issue a convention to be expected to advocate the principles announced in these resolutions.

REPUBLICAN TICKET.

FOR CONGRESS

9th Congressional District,

Hon. Henry Bowen,

OF TAZEWELL COUNTY VIRGINIA.

IT IS PAST.

There was a time, and not a great while ago, when the name Republican was unpopular in Virginia, especially in this section of the State. Republican, Radical and Scallawag were used together and were the potent arguments of the Democrats. They would hiss out their denunciations of the Republican party, frighten people away from principle and obtain a victory for a party with a name but without a principle. The time for such things has happily past. The brave, free men of the Southwest have begun to think for themselves; they have outlived the prejudices engendered by the war and reconstruction; and they no longer listen with bated breath to the bitter oratory of the violent Democratic orator. It is well that such things are done away with. The time has arrived when men should judge of parties by the principles they represent and the records they have made. Our people have at last become convinced that the principles of the National Republican party are more likely to conduce to the permanent good of the country, and they are no longer frightened by a name, but with pride declare themselves Republicans. That this is wise is proved by the fact that the Democrats of the Ninth district have placed their candidate on a Republican platform, written chiefly by a Republican, and in this way hope to control the district. But their game will not win. The voters of the Southwest will vote for a Republican on a Republican platform, and will choose Henry Bowen, a Republican, as their next representative in Congress.

It was hoped that when the Democrats came into power the unjust and naturally irritating system of nepotism would be either totally abolished or else so mitigated as to be unobserved. On the contrary however, the evil has increased to such an extent that there is no Southern cabinet minister nor hardly a Democratic Senator who has not his sons, brothers, or other relatives in office and living upon the money exacted of the people at large by the existing unjust, unequal and burdensome tariff.—Alexandria Gazette.

EDITORIAL PARAGRAPHS.

We ask the farmers of the country if their condition has been improved by the change from Republican to Democratic rule.

MAJ. Henry says that Capt Bowen is a nice gentleman and a good farmer, but that he is not fit to represent the people in Congress. Who is there? A lawyer and a speaker, we suppose. What say you farmers?

A VOTE for the Democracy means a vote for the continuance of hard times. Is that what you want?

THE Democratic House of Representatives at three different sessions had opportunities to pass the Blair Bill and refused to do so. Will the people be fooled any longer by the Democrats?

THE Democrats of the Fifth district are becoming alarmed about their candidate, Cabell. No wonder. He has been humbugging the good people of that district a long time.

Who will now deny that a Republican wrote the first three planks in the Wytheville platform?

GOOD reports come to us from the western counties in this district. The chances are in favor of Bowen carrying them all. Tazewell is nearly solid.

If you are satisfied with these "good times" vote for Henry.

In the Conventions of the Democratic party held in various State resolutions have been passed endorsing Cleveland's administration, including of course, the Pan Electric Swindle, gotten up by Southern Democratic statesmen, and sustained by Attorney General Garland.

A GREAT many persons think that Maj. Henry would hardly rank high as a speaker in a county debating club.

WE hear that there will be an extra session of the Legislature during the coming winter. Can one tell us what for? It will cost the State fifty thousand dollars. Will any legislation that can be accomplished save that much for the State? We doubt it.

THE people of Wythe county are not very anxious to be enlightened by the brilliant speaker (?) the Democrats are running for Congress, if we are to judge from the reception which Maj. Henry received at Graham's Forge and Rural Retreat.

JUST before each election the Democratic papers are filled with predictions of a sudden business boom that is soon to strike the country. After the election nothing more is heard of it. Will old birds be caught again with such chaff?

SOUTHWEST Virginia needs a high protective tariff. Will her people vote for Free Trade?

SOME of the Democratic papers are publishing rumors that certain heretofore active Republicans would not support Bowen, among them Judge G. W. Kilgore, of Wise county and M. T. Browning, of Tazewell. One of these gentlemen has already been on the stump for Bowen and the other will soon be engaged in the same work. This is another little Democratic joke started for effect.

ASK your children who are to be educated in the public schools if you ought to vote with the Democrats, who killed the Blair Bill.

NOT time enough, is what they say when you tell them that Cleveland has done nothing to advance or improve the business interests of the country. If Blaine had been elected President, the country would be enjoying an unprecedented state of prosperity and happiness. Cleveland's election and Democratic administration have been most ruinous.

VOTE for Bowen and good times.

VOTE for Bowen and the Blair Bill.

VOTE for Bowen and against the Internal Revenue system.

WHEN you remind them of the hard times the Democrats seek to excuse themselves by saying that they are the result of former maladministration of the Republican party. They fail to say anything about the promises they made that times would become better as soon as we had a Democratic administration. We have had a Democratic administration for eighteen months and times are much harder than they were when Cleveland was elected and inaugurated. Let this be explained, if it can.

HAVE the workmen been benefited by the rule of the Democracy? Have wages been increased and work easier obtained?

THE Democrats are for the Blair Bill everywhere except where it will do good to be for it, and that is in the House of Representatives. They vote it down there every chance they get.

"GOOD OLD DEMOCRATIC TIMES!" Are they not splendid? Don't you wish they would last for ever?

A DEMOCRAT remarked to us a few days ago that the Republicans could put no speaker in the field that would do them as much good as Maj. Henry. He said Henry's speech fell upon the people like a cold shower bath. Keep on speaking Major.

HENRY thought that Bowen was a good man in 1882 and would make a good Congressman. He voted for Bowen that year over Fulkerson and Newberry both of them forcible stump speakers. He seemed to think then that the "silent man" would make a better representative in Congress than an able speaker and accomplished legislator like Abe Fulkerson. Can he blame the people if they should now prefer the "silent man" to a very poor speaker who has no training or experience as a legislator?

Editorial Dots.

Lebanon Protectionist.

Who is it that always straddles every prominent issue? The Democrats.

Who boasted that they would reduce the war taxes by at least \$100,000,000, and never reduced them one cent? The Democrats.

Laboring man! Think how much Democratic government has benefited you and then swear never to support such a party again!

Who promised the farmers better prices for their produce if the Democrats were elected? The Democrats. How has this promise been fulfilled?

Have the Democrats ever tried to reduce the President's salary? No. Would they, if they could? No, not while the President is a Democrat.

Who told the farmers before the election that Republican rule was ruinous to their interests and promised better times if Cleveland was elected? The Democrats.

In all candor and sincerity we suggest to the Abingdon Virginian that we think it ought not to disparage the candidacy of Henry Bowen by the mention of charges which is not at the time ready to support with proof. Now if Henry Bowen voted to put iron ores on the free list, that matter is susceptible of absolute proof. In the absence of Bowen and in the absence of such proof we flatly but respectfully deny the charge. Again, at the very hour, probably, when the Virginian was writing its statement that Judge Kilgore had turned for Henry, Judge Kilgore was then making a rousing speech for Bowen at Clintwood. This, however, matters little. Of course the Virginian was misinformed. Then the charge about Bowen's absence is one the records will clear up. We know he was absent some time, and we personally know that it was on account of severe family sickness. Henry Bowen is not a man to shirk any duty he can perform. He did not stay away from the bloody field when shotted guns were belching at him, and he has never improperly been away from his seat in Congress.—B. News.

The Richmond Dispatch, over the parallel columns in which it last week gave its talk, "Before and After," touching the Blair bill, springs to its feet and almost loses its usually excellent temper. It narrowly escaped saying damn it, and adds:

We were urging Congress, the Southern members especially, to secure the passage of the Blair bill during the then current session of Congress, giving as a reason that another educational bill so liberal to the South as the Blair Bill could hardly be expected to be offered to our people hereafter.

Pre-vice—ly! And the aforesaid Southern members did no such thing. This disregarded your advice. Mr. Daniel offered the Crain bill as a substitute in committee. Your Southern State conventions this very summer and autumn have refused to endorse the Blair bill, and the right in our Western door Judge Rose has had to take down his own nomination for Governor because the Democracy of Tenn., and its candidate for Governor are opposed to the Blair bill. We sympathize with the Dispatch, but we see no way to relieve it. This thing is too plain, and it is no use trying to prove the Democratic party, as a party, the friend of the Blair bill.—B. News.

SOMETHING NEW!

A Wrought Iron Cooking Apparatus!

MADE OF

WROUGHT AND MALLEABLE IRON!

The Salesmen of this Company have located at Marion and will make it Headquarters. They will canvass this and adjoining counties and sell

Exclusively from Wagons.

The following is a partial list of certificates received from persons in other counties who have purchased and tried their ranges.

HENRICK'S STORE VA. CHATHAM, VA. A trial is all that is necessary to convince any one of the superior merits of the Home Comfort Ranges. I have used several different kinds of stoves, but it beats them all. I am perfectly delighted with it. It comes up to every claim made for it. I would not take one hundred dollars for my Home Comfort Range, bought of Mr. J. W. Goodwin, salesman for Wrought Iron Range Co., if I could not get another like it. It does not require half the fuel and is much cooler to cook on than any cast stove I have ever used. B. H. CURROUGH. J. T. MOSLEY.

I am using the best cooking apparatus that I have ever used. I would advise all who want a perfect cooking apparatus to buy the Home Comfort. It saves time, labor and fuel. JOHN G. WATSON. CHATHAM, VA. I will recommend the Home Comfort Range to all requiring less time, trouble or fuel than any cast stove I have ever seen. One hundred dollars would not buy mine if I could not get another at once. G. A. HODNEY.

My Home Comfort Range gives entire satisfaction in every respect. I would recommend all needing a cooking apparatus to buy a Home Comfort. B. H. DALTON. I have used several different kinds of cast stoves since the war, but the Home Comfort Range that I am now using excels them all. It saves labor and fuel, and is decidedly the best baker I ever saw. C. H. DICKERSON.

The Home Comfort Range I bought of Mr. P. Woodruff, salesman for the Wrought Iron Range Co., has given entire satisfaction in every respect. J. E. FITZPATRICK. Sheriff Bedford county, Va. BERGER'S STOVE, Va., July 10, 1886. I have been using a Home Comfort Cooking Range for some time, and consider it the best and cheapest cooking apparatus I have ever used. It cooks with one-half the fuel that any cast iron stove did, and in half the time. Does not heat the room while cooking. Like my stoves have done heretofore, I am perfectly pleased with it in every respect. T. W. COCKER.

I would not take seventy-five dollars for my Home Comfort Range if I could not get another like it. It is everything that is claimed for it by those of whom we bought. G. W. CLINGENPEEL. KENNETT, VA. The longer I use my Home Comfort Range the better I am pleased with it. It comes up fully to every claim made for it. J. H. MOORE. I have been using stoves for the past 15 years. I am now using a Home Comfort Range that I bought of Wrought Iron Range Co., and I consider it the best and cheapest cooking apparatus I have ever used. H. S. DYERLEY. CHATHAM, VA. We are perfectly pleased with our Home Comfort Range. It takes so little fuel and cooks so nicely we could not be otherwise than pleased. MRS. W. T. CLARK. Rocky Mount, Va. CHATHAM, Va, July 13, 1886. The Home Comfort Range I am using gives satisfaction. It bakes the best bread I have ever eaten. It heats quicker, with less fuel, and requires less time to cook a meal's victuals than any cooking apparatus I have ever used. MRS THOS W. P. MOSE. CHATHAM, Va, July 13, 1886. I have used several different kinds of cast stoves since the war, but the Home Comfort Range that I am now using excels them all. It saves labor and fuel, and is decidedly the best baker I ever saw. C. H. DICKERSON.

SPRING GARDEN, VA., July 12. My Home Comfort Range comes up fully to every claim of those selling it. The bread baked on it, both corn and wheat, is superior to any I have eaten cooked in any other way. The Range does the work much quicker, and with less fuel than a cast stove. F. T. SHELPS. CHATHAM, Va, July 13, 1886. The Home Comfort Range I am using gives satisfaction. It bakes the best bread I have ever eaten. It heats quicker, with less fuel, and requires less time to cook a meal's victuals than any cooking apparatus I have ever used. MRS THOS W. P. MOSE. CHATHAM, Va, July 13, 1886. A Sensible Family.

A family named Johnson living in Washington county, were all taken down with flux in a very aggravated form. Having seen a notice in one of the country papers in regard to Dr. Lytle's Elixir, the medicine was at once sent for, and although the delay in procuring it came near proving fatal in two of the cases, yet a faithful use of this well known remedy resulted in the speedy control of the disease and restoration to health of every member of the family. At a time when flux and other bowel troubles are so prevalent Lytle's Elixir ought to be kept ready for use.

Wytheville Dispatch: Two gentlemen by the name of Carrigo, of Grayson county, have bought and shipped four thousand and five hundred chickens this season.

A little son of Charles Taylor, in company with some other children was visiting the children of Mr. Pannel, who lives on Reed Creek, three miles south of town. During the afternoon this little fellow, who is five years old, went into the barnyard where there was a sow with young pigs, together with some other hogs. The little fellow was so much pleased with the young pigs that he caught one. He had hardly gotten it in his hands before he was attacked by the old sow and the other hogs, and before anyone could rescue him, his face and body were lacerated to such an extent that serious apprehensions were felt as to his recovery, but at this writing the little fellow is much better, and is improving fast.

Some few nights ago a country lady was passing along the plank walk at the west end of main street, returning to her home laden with some produce, eggs etc., when she was thrown to the ground, having trod on a loose plank which was in the walk. The result of the fall: She was bruised up considerably, all of her eggs were broken and her groceries ruined. We spoke of these loose planks, which are really dangerous, in one of our back issues, but our allusions to them seems not to have attracted the attention of the street committee.

"Thus she for several swollen that eyes. They forever shut half past two return good can felt her 1 his head, gave tions and turned did so the little crea her body. She turned half around. The dim light of a candle shone on the blackened face. The swollen lips pursed out, and, in a clear, sweet voice the child began to sing the hymn,

Nearer, My God to Thee. The doctor and nurse stood transfixed. The other patients in the silent room joined in the sweet melody. The first verse completed, she gradually sank back on her pillow. Her strength began to fail, and with it her voice, and only the humming like distant music of the air of the hymn could be heard."

"How sweet, yet weird that humming sounded! The candle lent its meagre light, the big clock in the corner to d out the seconds as the little soul passed out to its maker. The humming ceased. All was over." —Y. J. Ex.

GOOD READING.

KEEP IT BEFORE THE PEOPLE.

A Candidate for Congress Who Stands on Two Platforms.

THE NINTH VIRGINIA.

Louisville Courier-Journal.

A friend in the Ninth Virginia district sends us a printed copy of the resolutions adopted by the Democratic Convention at Wytheville, and he asks in what it departs from the principles and purposes of the Democratic party.

The first resolution "recognizes the necessity for such revision of the tariff as may be necessary to correct its inequalities," which is well enough, but at once it adds "yet we are opposed to any reduction in the rates of duty upon foreign imports that will injuriously affect our own industries or tend to a reduction in the price of labor, and especially are we opposed to putting raw materials on the free list."

A revision of the tariff which will correct its inequalities must begin by adding to the free list those raw materials which lie at the basis of our great industries, such as iron ore, pig iron, coal, lumber, salt and dye-stuffs. To insist that such a revision, bringing the revenues of the Government within its actual necessities, "would injuriously affect our own industries, or tend to a reduction in the price of labor," is to plant the party on the Pennsylvania platform, and to make it supremely ridiculous. Indeed, in all our readings of political platforms we fail to recall any resolution quite so full of absurdities and contradictions, or so lacking in clearness of expression and knowledge of the English language as this resolution passed at Wytheville. If this is a specimen of Virginia State papers, verily her glory has departed.

The second resolution declares that "we are earnestly in favor of repealing the entire system of the internal revenue laws." This in direct conflict with the Chicago platform. It would make any revision of the tariff impossible for ten years, and when the Democratic party plants itself on a platform favoring free whiskey and taxed tools and clothing its fate will be sealed.

The third resolution declares it to be "both the right and duty of the General Government to aid in educating its citizens, and we are therefore in favor of the Blair bill." This is again in open conflict with the Chicago platform, and not with that platform alone but with all the declarations of the party leaders from Jefferson to Cleveland.

The fourth resolution favors the continued coinage of silver, which is in accord with the party, and the fifth insists that the "surplus" shall be applied to the reduction of the debt. Our Virginia friends fail to see that, if the tariff is not reduced, if the internal revenue system is abolished and \$70,000,000 or \$80,000,000 appropriated to schools, there will be no surplus for many years to come.

We are thus specific in stating our objections to this Republican platform adopted by a Democratic convention, because we wish our Virginia friends to see how far they have departed from the true path; in these first three resolutions there is nothing to indicate that it was not written by a Republican. We fear that the Democrats of the Ninth Virginia district have been imposed on, and have passed without due consideration resolutions which commit their candidate to vote in full accord with the commands of the Republican caucus.

Most Excellent.

J. J. Atkins, Chief of Police, Knoxville, Tenn., writes: "My family and I are beneficiaries of your most excellent medicine, Dr. King's New Discovery for consumption; having found it to be all that you claim for it, desire to testify to its virtue. My friends to whom I have recommended it, praise it at every opportunity."

Dr. King's New Discovery for Consumption is guaranteed to cure Coughs, Croup, Bronchitis, Asthma, Croup and every affection of the Throat, Chest and Lungs. Trial Bottle free at Jno S. PENDLETON'S Drug Store. Large size.

Republican Platform.

Adopted by the Marion Convention

We, the representatives of the Republican party of the 9th Congressional district of Virginia, reaffirm our devotion to the great fundamental principles of the National Republican party; and especially do we favor the following: 1st. A tariff that will protect American labor and industries. 2nd. The passage by Congress of the Blair Educational bill, that was twice passed by the Republican Senate and was twice defeated in a Democratic House. 3rd. The speedy repeal of the Internal Revenue laws. 4th. We endorse the financial policy of the National Republican party. 5th. The maintenance of the Riddleberger settlement of the State debt; and an effort to procure the good will and services of the U. S. government in its consummation and aid in its payment. 6th. We oppose the importation of pauper labor.

Interesting to Ladies.

Our lady readers can hardly fail to have their attention called this week to the latest combination of improvements in that most useful of all domestic implements, the "sewing machine."

As we understand it, a machine for family use should meet first of all these requirements: It should be simple in its mechanism; it should run easily; it should do a wide range of work; it should be as nearly noiseless as possible; it should be light, handsome, durable, and as cheap as is consistent with excellence throughout.

These conditions the "Light Running New Home" certainly meets. It has also several very important and useful attachments and "notions" of its own.

The "New Home" especially recommends itself to purchasers on account of its superior mechanical construction, ease of management and reasonable price. Over half a million have been sold in the last three years, all of which are giving universal satisfaction. This unrivalled machine is manufactured by the New Home Sewing Machine Co., Orange, Mass., and 30 Union Square New York.

Miraculous Escape.

W. W. Reed, druggist, of Winchester, Ind., writes: "One of my customers, Mrs. Louisa Pike, Bartonia, Randolph Co., was a long sufferer with Consumption, and was given up to die by her physicians. She heard of Dr. King's New Discovery for Consumption, and began buying it. In six months time she walked to this city, a distance of six miles, and is now so much improved she has quit using it. She feels she owes her life to it. Free Trial Bottles at J. S. Pendleton's Drug Store."
