Dear Mother and Father
This is a place recommended
in a book amittia sent me - it
is gorgeous falls and sapphires
lakes but one is foolish to come
to Europe for scenery as America
can always match it -

Before we left Spalato we
went into Zaborna a town
of the year 1200 A D and center
of jagged town - there were
many sarcophagi of the
early X-tran martyrs and
stone where pressed where
the churches made this is where
the people had no money and
payed the church in such
as they still do - a Croatian
that lived in Chicago 15 yrs told
us that Yugoslavia has to work
"smart" so that Italy won't
know how they are fighting
among themselves and
use it to pour on them -
Everybody is afraid of Italy -
the big state of the
rich people and the minority

have been divided here
as they have in Germany
Czechoslovakia and Austria
and little strip given to
the peasants - so that we do
not find here the awful peasant
class of America - the peasant
work very hard on their plots
and then work on the roads
in the cement factories etc. the
women work in the fields too
I do not know what I would
do without the two ladies I
got from Mazie - I hope she
has got married - I hope she
won't do it until in the fall
about October - I could
get my way paid south
after October 6th or 8th
but not before - However I
will come in Sept of course
I have not any fall schedule
now but may make me
one before I get back
Everybody speaks German
up here - I can understand
but not talk back -
We are leaving for Vienna

in 30 min² - we have an
hour in Zagreb - the capital
of Croatia I spent some
time parking so as to
conceal the few new things
I have - I hope it works
when we pass over the
Austrian border tonight -

The women are all doing
the washing in the streets
beating the things on stone

We are getting 76
now at Zagreb 1 to 2
our remaining minutes

If I do not find
mail in Vienna tomorrow
Sep 30 will -

have to ask
them

Dear Mother and Father

This is a place recommended in a book [illegible] [illegible] me. It is gorgeous falls and sapphire lakes but one is foolish to come to Europe for scenery as America can always match it.

Before we left [illegible] we went into Salona a town of the year \$200 [illegible] and [illegible] s pagan town. There were many [illegible] of the early Xtian [illegible] and stone [illegible] [illegible] where the churches made their [illegible]. The people had no money and payed the church in [illegible] as they still do. A [illegible] that lived in Chicago 15 yrs total is that Yugoslavia had to work "smart so that Italy wont know how they are [illegible] among themselves and use it to [illegible] on them. Everybody is afraid of Italy

The big estates of the rich people and the nobility have been divided here as they have in Germany, Czecho-slovakia and Austria and little [illegible] given to the peasants so that we do not find here the awful tenant class of america. The peasants work very hard on their [illegible] and then work on the roads in the cement [illegible] etc. The women work in the fields too.

I do not know what I would do without the two dresses I got from Mazie. If Maxie does get married I hope she wont do it until in the fall about October. I could get my way paid south after October 6th or 8th but not before. However I will come in Sept of course. I have not [illegible] fall schedule now but Lucy may make me one before I get back.

Everybody speaks german up here. I can understand but not talk back.

We are leaving for Vienna in 30 min. We have an hour in Zagreb the capital of Croatia. I spent some time packing so as to conceal the few new [illegible] I have. I hope it works when we pass over the Austrian border tonight. The women are all doing the [illegible] in the [illegible] [illegible] the [illegible] on stone.

We are getting off now at Zagreb to [illegible] our [illegible] [illegible].

If I do not find [illegible] in Vienna tomorrow [illegible] go wild.

Love to all
